After Port

Once port is complete, 121 trunks worth of traffic will be shifted from the Socket ISP local trunk group (using LRN 417-696-1111) to the Branson Toll Tandem trunk group since Socket does not have a direct trunk group to the Willow Springs end office

CenturyTel would be required to add a minimum of 4 DS1's to accommodate the additional local ISP traffic that will be shifted to the toll tandem trunk group
