and )  
Laclede Gas Company )

TESTIMONY OF KATHY WAITES

STATE OF MISSOURI )  
COUNTY OF ST. LOUIS ) ss

Kathy Waites, of lawful age and being first duly sworn, deposes and states:

1. My name is Kathy Waites. I am an adult and competent to testify. I reside at \*\*  
\*\* St. Louis, MO 63119. I have resided at this address since September of  
1970.
2. I have been a Laclede customer since May of 1963. My meter is on the inside of  
my house.
3. In May of 2006, a letter from Laclede was mailed to my address stating that an  
AMR device is going to be installed.
4. My husband George told me that he had read about the installation of AMR  
devices by Honeywell subcontractors from articles in the Labor Tribune.
5. George told me he called Laclede on May 1, 2006 to inquire whether a trained  
Laclede gasworker would be installing the AMR device. On May 3, 2006, a  
representative named Mike Lochland returned the call. George said that the

told him having a Laclede gasworker install the AMR would cost around \$70 for the first half-hour.

6. On May 3, 2006, I called Laclede to complain about the price and spoke with a service representative named Rhonda. She stated that she had spoken with a manager and confirmed the additional charge if a gasworker was to install the AMR device. She said that a supervisor would return my call.

7. On May 5, 2006, either my husband or myself spoke with a supervisor named Mike Schulato [presumed spelling]. He also confirmed the \$70 for the first half-hour price. Additionally, he stated that if an AMR device was not installed in my home, my bills would be estimated. While we do not recall the details of this conversation, we were left with the impression that the estimated bills would be higher than those calculated by an AMR device.

8. On May 17, 2006, I found a note left on my door stating that an AMR installer had come to my door when I was not at home. The note contained the Laclede logo and began with "[t]his is Laclede Gas."

9. Sometime after May 17, but before the July 28 event contained in paragraph 10, a worker came to the door to install an AMR device. The worker wore a Laclede Gas badge. I asked him if he was a gasworker or a subcontractor. He said that he was a subcontractor so I did not admit him into our home.

10. On July 28, 2006, either my husband or myself received another call from Laclede attempting to set up an AMR installation. I asked to have a gasworker install the AMR device and the representative said they would make a note of it and return my call. I never received a return call.

11. As of this date, an AMR device has not been installed in my home.
12. I am not an employee or member of USW Local 11-6, nor to my knowledge am I related by blood or marriage to any USW Local 11-6 officer or business representative.
13. I understand and believe that union gasworkers have substantial training not available to the Honeywell subcontractors that enable them to recognize and fix potential problems when installing the AMR device. Accordingly, I believe it is safer to have an AMR device installed on my gas meter by a union gasworker rather than by a Honeywell subcontractor.
14. I hereby swear and affirm that my statements contained herein are true and correct to the best of my knowledge and belief.

Kathy Waites  
Kathy Waites Waites KGW

Subscribed and sworn to me this 23 day of August, 2006.
