June 4, 2011

Dear Commissioner Kenney (Robert),

I really appreciate you taking time out of your busy schedule last week to attend our Energy Advisor and Solar event. I hope the information we shared around these two initiatives was helpful. With our Energy Advisor initiative, we want to help our customers with their energy needs by providing them with timely information, as well as inform them about issues which are impacting our business and their future energy bills. As we move forward with this initiative, I certainly would welcome any feedback that you have.

I hope you and your family have an enjoyable summer!

Sincerely,  
Warner
