BEFORE THE PUBLIC SERVICE COMMISSION

OF THE STATE OF MISSOURI

In the Matter of the Investigation of the State of) Case No. TO-2001-467
Competition in the Exchanges of Southwestern Bell)
Telephone Company.)

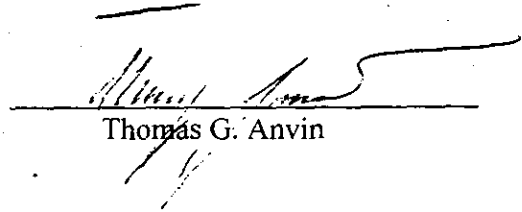

AFFIDAVIT OF THOMAS G. ANVIN

STATE OF ILLINOIS)
) SS
CITY OF CHICAGO)

I, Thomas G. Anvin, of lawful age, being duly sworn, depose and state:

1. My name is Thomas G. Anvin. I am presently Associate Director – Competitive Intelligence for SBC Communications.
2. Attached hereto and made a part hereof for all purposes is my direct testimony.
3. I hereby swear and affirm that my answers contained in the attached testimony to the questions therein propounded are true and correct to the best of my knowledge and belief.

Thomas G. Anvin

Subscribed and sworn to before this 18th day of June, 2001

Notary Public

My Commission Expires: 9/01/02

1 **Case No. TO-2001-467**
2 **Southwestern Bell Telephone Company**
3 **Direct Testimony of Thomas Anvin**
4

5 **Q. What is your name and business address?**

6 A. My name is Tom Anvin, and my address is 225 W Randolph, Chicago IL, 60606
7

8 **Q. By whom are you employed and in what position?**

9 A. I am employed by Ameritech Corporate. My title is Associate Director of
10 Competitive Intelligence. I am responsible for monitoring the competitive
11 environments in which SBC Communications Inc. (SBC) operates and identifying
12 and communicating new and changing competitive environments affecting SBC.
13

14 **Q. What is your relevant employment and educational background?**

15 A. Please see Schedule 1 for my employment and educational background.
16

17 **Q. Have you previously testified before the Missouri Public Service Commission**
18 **(Commission)?**

19 A. No.
20

21 **Q. What is the purpose of your testimony?**

22 A. I am testifying on behalf of Southwestern Bell Telephone Company (SWBT) and
23 the purpose of my testimony is to:
24

- 1 • Describe in general the competitive environment of the local
- 2 telecommunications industry, and the various alternative ways new
- 3 competitors enter the market.
- 4 • Explain that SWBT's service is by no means the only option in providing
- 5 telecommunications services and that other service providers are offering
- 6 functionally equivalent telephony services through a variety of technologies.
- 7 • Explain that as technology advances and services converge, end users are not
- 8 concerned with how the service is delivered but rather ease of use, quality of
- 9 service delivered and availability of services.
- 10

11 **Q. Please highlight some of the different methods new market entrants are using**
12 **to compete in the local telephony business.**

13 A. The local telephony market is a competitive business where there are many
14 alternative providers offering telecommunications services using a variety of
15 technologies. Examples include competitors building their own networks,
16 resellers, unbundled network element (UNE) based providers, and alternative
17 methods of non-land line service, such as wireless telephony, satellite services,
18 and fixed wireless technologies. Even cable TV providers are now offering voice
19 services over their hybrid fiber coax networks. Also, new non-telephone service
20 providers are having a great impact on the communications industry. These
21 alternate providers offer customers the choice of voice services, such as Internet
22 telephony, and non-voice services, such as email and instant messaging. The
23 growing number of alternative providers is clearly an indication of how

1 consumers are now able and prefer to communicate over a greater variety of
2 platforms.

3
4 **Q. Please provide more detail on these different market approaches.**

5 A. Facilities-based providers can offer a full suite of communications services and
6 bundles either through building their own networks or through UNEs they lease
7 from SWBT. Service providers choosing to build their own network usually build
8 very high capacity, state of the art networks. UNE providers have the advantage
9 that they can pick and choose whatever network elements they need to serve a
10 particular customer. This allows these providers to create a high quality network
11 at a much lower capital investment level. Given that UNE providers use network
12 elements already in place, they can also expand their service areas very quickly.
13 They also have the option to develop their own systems to provide new highly
14 profitable advanced calling features, such as caller ID, or three way calling.

15
16 Resellers purchase SWBT's services on a wholesale basis at a discount and then
17 provide the service to their end users. These providers offer their customers the
18 same services as SWBT and can enter the market without the burden of network
19 investment.

20
21 As wireless service grows in popularity, more and more people are displacing
22 their usage away from traditional landline networks and towards these wireless
23 services. Wireless service providers are now offering packages with a large

1 number of included minutes including local and long distance. According to a
2 recent report by the FCC, 20 million wireless subscribers have "free" long
3 distance. (FCC's Sixth Annual Report on the state of competition in the wireless
4 Marketplace). Wireless plans also provide free calling to a number of users, or
5 sharing a block of minutes between phones. These types of plans are increasingly
6 making wireless service an attractive alternative to landline local service.

7
8 Fixed wireless providers use mostly microwave technologies to offer residential
9 and business users high-grade voice quality and high bandwidth network
10 connectivity. These providers maintain an advantage of quick installation time
11 and extensive coverage using a low cost solution. With the high bandwidth
12 available through these systems, service providers are heavily targeting business
13 users to provide service as a replacement to high-speed access trunks as well as
14 voice service. Further, MCI Worldcom and Sprint have bought large amounts of
15 bandwidth to provide these services and are now rolling out total communications
16 solutions utilizing this technology to small business and residential users.

17
18 Cable telephony is another technology which is being used to provide local phone
19 services. Cable providers are now offering a wider range of products and services
20 including traditional telephone service over their cable network. AT&T, the
21 largest cable TV provider in the nation, and other cable providers have expended
22 considerable effort to enhance their networks to allow them to bundle video and
23 data services with new voice offerings. The benefit of these bundled services is

1 the high bandwidth network and ability to offer a wider range of services. Cable
2 companies are positioning themselves to be a one-stop shop for a household's
3 entire entertainment and communications needs. AT&T recently disclosed that it
4 had signed up 500,000 cable TV subscribers to its telephone service by the end of
5 2000¹. According to the National Cable Television Association, at least nine of
6 the nation's largest multiple system operators (MSOs) now offer residential and/or
7 commercial phone service in more than 45 markets, serving more than one
8 million customers. In Schedule 2, I show the growth in telephone service
9 subscribers served by these MSOs.

10
11 Internet Telephony is also making its mark in the telecommunications industry.
12 Internet Telephony is a technology which allows providers to route telephone
13 calls over the Internet. Providers such as Net2Phone and Dialpad.com offer voice
14 communications using Internet technology. The quality and reliability of this
15 technology is improving rapidly, as evidenced by the number of users.
16 Dialpad.com has 9 million users and routes approximately 800,000 calls per day.
17 Also maturing are other packetized solutions that can transmit voice services,
18 such as pure Voice over IP (VoIP) and Voice over broadband connections such as
19 DSL or Cable Modems (Voice over Broadband (VoB)). The Yankee Group has
20 estimated that by 2005 there will be well over 1.6 million VoB connections in the
21 U.S. With these newer services being able to support more than one voice grade
22 connection in addition to high speed data services, they are providing a

¹ Dow Jones News Service - 12/07/2000.

1 competitive threat to primary access lines and additional lines used for additional
2 voice service or for dial up access to the internet.

3
4 Finally, more communication is being done by means of non-voice services, such
5 as email, Instant messaging, and e-commerce. As more and more business is
6 conducted on the Internet or over some other form of e-commerce (electronic
7 means), it greatly reduces the need for phone conversations related to such
8 processes as order taking, shipping arrangements, and delivery status reporting.
9 Email has become the primary means for official communication in the work
10 place. Email allows for convenient distribution of messages and documents to a
11 large number of recipients. Instant messaging (IM) is also displacing phone calls
12 by emerging as a "chat" tool in the residential market and a quick and efficient
13 communications device in the business market that enables work group members
14 to stay in touch in real time. About 61 million people, or roughly half the online
15 population, use instant messaging, according to research firm Jupiter Media
16 Metrix. According to Jupiter Media Metrix, the number of IM users could grow
17 to 151 million by 2003².

18
19 **Q. Please expand on how wireless service has become a comparable alternative**
20 **to the traditional services offered by SWBT.**

21 A. Wireless carriers are now serving 109 million subscribers throughout the nation
22 (1.8 million in MO) and subscribership has been growing by about 20% per year.
23 (Schedule 3) According to a recent Yankee Group Study, 16.5% of all voice

1 traffic is now transmitted over wireless networks and 3% of wireless users do not
2 have a landline telephone. A much greater percentage of customers are using
3 their wireless phones for calls that previously would have been made on their
4 landline telephone. These numbers are echoed in the FCC's Sixth Annual Report
5 on the state of competition in the wireless marketplace, which corroborates the
6 3% total displacement figure. According to the FCC report, 12% of respondents
7 in the FCC study purchased a mobile phone instead of an additional landline.
8 (Schedule 4) FCC chairman Michael Powell recently acknowledged the
9 substitutability of wireless service for landline voice service when he stated:
10 "And I will tell you, we underestimate the value of wireless, as a substitute for
11 local services. I make many calls on my wireless phone, sitting in the driveway of
12 my house, the front yard while I'm gardening, and I haven't picked up the phone
13 in a hotel in five years, because I use my wireless phone. That's all coming out of
14 what would have been a traditional call by a local company or an incumbent."
15 (FORRESTER RESEARCH TELECOM FORUM, Q & A with Chairman Powell
16 May 21, 2001). As the capabilities of new wireless phones and other wireless
17 devices expand and with the arrival of 3rd Generation wireless systems, (which
18 among other things will allow high speed access to data via a wireless phone), we
19 are likely to see these numbers accelerate at even faster rates. Additionally,
20 wireless services will become even more reliable and wireless providers will be
21 able to offer location-based services.

² South Florida Sun-Sentinel - 06/10/2001.

1 **Q. Can you please explain other forms of communication that people use instead**
2 **of traditional telephone service?**

3 **A. Technology has provided additional means of communication that serve as a**
4 **substitute for SWBT's telecommunications services. Communications in general**
5 **is changing to include more alternatives to the telephone, such as email and**
6 **messaging. Information Technology research firm IDC has estimated that there**
7 **are more than 35 BILLION emails sent each day. Up until a few years ago, many**
8 **of these messages would likely have been telephone conversations. Not only are**
9 **we communicating by different means but also new integrated platforms are**
10 **starting to offer more advanced voice services. AOL and Microsoft have voice**
11 **applications in their software and plan to offer traditional voice service via their**
12 **computer software packages. Microsoft recently announced that its upcoming**
13 **Windows XP operating system will include not only Voice and Instant message**
14 **capabilities but also Video Conferencing and collaboration on shared files and**
15 **applications. In addition, this new technology will be able to support a number of**
16 **Vertical features such as caller ID and voice mail. Having a market leader and**
17 **giant like Microsoft moving towards the vision of pulling communications away**
18 **from traditional landline telephone service is indication that the "future" of**
19 **telecommunications is here today. A company with Microsoft's talent and**
20 **financial resources would only be expected to pursue strategies that are likely to**
21 **be very successful. Furthermore, the fact that Microsoft is already advertising its**
22 **MSN voice services on television (Schedule 5) is a reflection of where**
23 **communications is going; it is evident that communications is moving to an all-**

1 integrated platform providing a wider range of advanced services from which
2 customers can choose.
3

4 **Q. Does the Commission regulate the alternatives that you have described?**

5 A. Not to a significant degree. While the Commission does have regulatory
6 authority over some of the alternatives such as CLECs and Interexchange Carriers
7 (IXCs), the Commission does not regulate alternative technologies such as
8 wireless services, cable TV providers, satellite-based services, and Internet-
9 enabled communication including Internet telephony, email, instant messaging
10 and e-commerce applications.
11

12 **Q. Does the Commission typically regulate CLECs' and IXCs' prices?**

13 A. No. CLECs and IXCs have very broad pricing flexibility.
14

15 **Q. Do CLECs and IXCs have to become certificated to provide**
16 **telecommunications services in Missouri?**
17

18 A. Yes. There are over 145 CLECs certificated to provide local services in Missouri
19 and over 600 IXCs certificated to provide interexchange services in Missouri.
20 Lists of such CLECs and IXCs are attached as Schedules 6 and 7.
21

22 **Q. Are CLECs and IXCs required to file tariffs with the Commission?**

1 A. Yes. CLECs and IXC's are required to file tariffs with the Commission describing
2 the services they provide including the terms, conditions and prices for those
3 services.

4
5 **Q. Are there a significant number of CLECs who have approved tariffs to**
6 **provide service throughout SWBT's exchanges in Missouri?**

7 A. Yes. In Schedule 8, I have identified by exchange, the number of CLECs that
8 have tariffs indicating they provide service in that exchange. Schedule 9 provides
9 a map summarizing the number of CLEC tariffs by exchange. These Schedules
10 reflect that there is at least 52 CLECs in every SWBT exchange whose tariffs
11 indicate they are authorized to provide service in those exchanges. Schedule 10
12 provides some sample tariffs filed by a few CLECs. Other SWBT witnesses
13 reference particular sections of these tariffs to demonstrate that CLECs provide
14 services that are substitutable or functionally equivalent to SWBT's services at
15 reasonably comparable rates, terms and conditions.

16
17 **Q. What are the main points the Commission should understand from your**
18 **testimony?**

19 A. The Commission should understand the broad picture of the rapidly changing
20 nature of communications, including:

- 21 • Recognizing the various alternatives to traditional landline competition
22 evidenced by a growing number of service providers and emerging services,
23 such as Wireless and Internet-based communication.

- 1
- 2 • Realizing from personal and work experience that the means of
- 3 communications are evolving and the need to stay competitive is now greater
- 4 than ever. Customers in SWBT's territory have had many choices for years in
- 5 selecting their service provider ranging from established companies using
- 6 similar technologies (e.g., CLECs, IXC's) to entrants using a wider range of
- 7 technologies (e.g., wireless providers).
- 8 • Understanding that email and other non-voice services are often replacing
- 9 "telephone calls," and can do so at a significantly lower price to the consumer.
- 10 These technologies, including instant messaging, are becoming increasingly
- 11 popular.
- 12 • Understanding that the traditional telephone market is changing very rapidly
- 13 and cannot be measured by the same metrics as only a few years ago. As
- 14 technologies converge and become transparent, it is critical that SWBT have
- 15 the freedom to compete on a level playing field. Open competition in a
- 16 market place where all providers are on equal footing will lead to new
- 17 innovation and more customer choice.
- 18

19 **Q. Does this conclude your testimony?**

20 A. Yes, it does.

Thomas G. Anvin

Experience

2000 – Present SBC Communications Chicago, IL

Associate Director Competitive Intelligence

Identify, analyze and report competitive threats and opportunities to SBC's core and emerging business. Use numerous internal and external data sources to provide competitive analysis to top management as well as the corporate population in whole. Understand and define the competitive dynamics in the larger telecommunications marketplace, proactively identify competitive threats, create analysis with broad strategic implications, and recommend strategies to strengthen SBC's position in the industry in advance of projected competitive moves. Also responsible for competitive reviews/analyses, financial analyses, geographic and industry structure analyses.

1996 – 2000 Ameritech Information Center Hoffman Estates, IL

Research Manager

- Complete business research requests for internal clients, including Ameritech Corporate Strategy, Regulatory, and International units. Worked effectively in a very fast-paced, high-pressure environment. Served as team leader. Gained extensive knowledge of the telecommunications industry.

Education

1992 – 1996 Augustana College Rock Island, IL

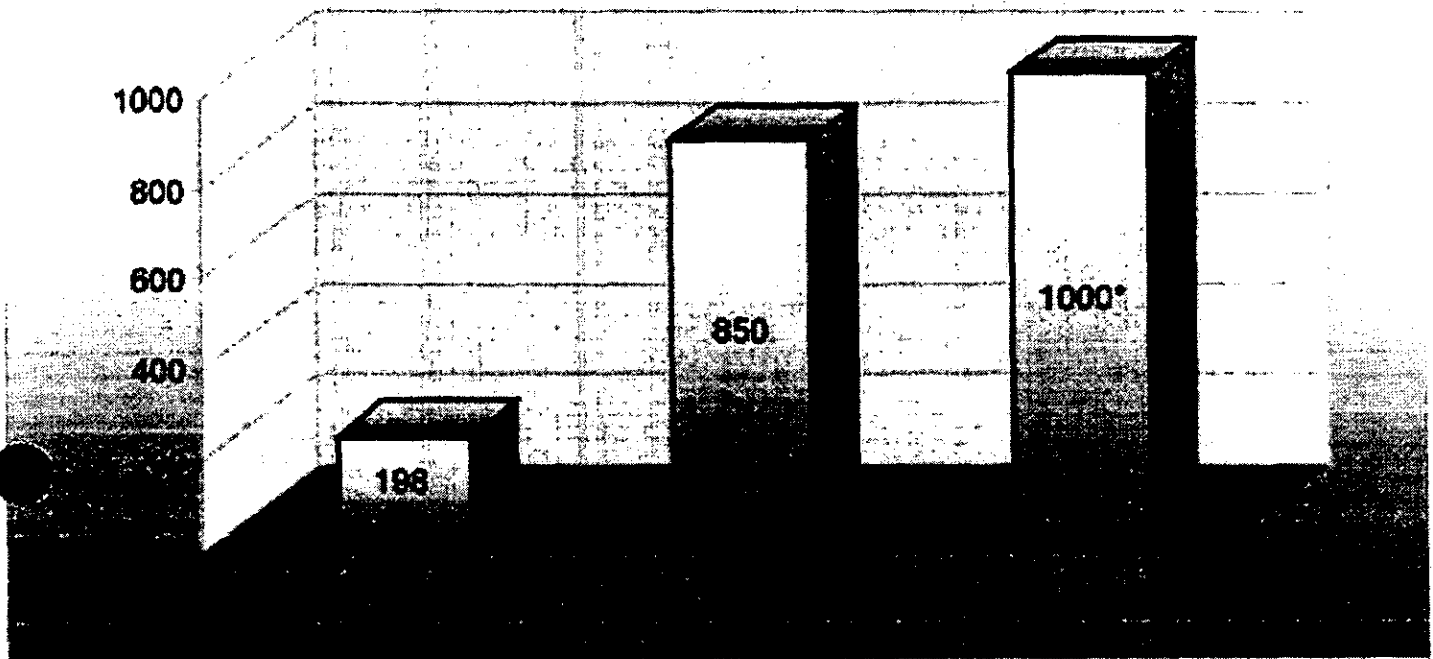

B.A., Business Administration

Report to Congress

Sixth Annual CMRS Competition Report

June 20, 2001

Wireless vs. Wireline

- “Cord-Cutting”
 - 3 Percent of mobile telephony subscribers rely on their wireless phones as their only phone
 - 12 percent of those surveyed purchased a wireless phone instead of installing an additional wireline phone
- “Technology Substitution”
 - BellSouth exiting the payphone business in part due to business lost to wireless phones
 - 20 million mobile phone subscribers have free long distance

EXPLANATION OF SYMBOLS

When changes are made on any tariff page, a revised page will be issued cancelling the tariff page affected; such changes will be identified through the use of the following symbols:

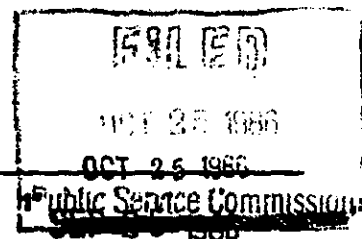

- (C) - To signify changed regulation or rate.
- (D) - To signify discontinued rate or regulation or text.
- (I) - To signify increase.
- (M) - To signify **matter** relocated with no change.
- (N) - To signify new rate, regulation, and/or text.
- (R) - To signify reduction.
- (T) - To signify a change in text but no change in rate or regulation.
- ((Z)) - To signify a correction.

The above symbols will apply except where additional symbols are identified ~~at the~~ bottom of an individual page.

GENERAL RULES AND REGULATIONS1. APPLICATION OF TARIFF

The regulations set forth herein apply to intrastate services furnished within the State of Missouri by LDD, Inc., hereinafter referred to as Carrier, subject to the jurisdiction of the Missouri Public Service Commission.

These tariffs cancel and supersede all other tariffs of the Carrier issued and effective prior to the effective dates shown on individual sheets of this Tariff.

When services and facilities are provided in part by Carrier and in part by other companies, the regulations of the Carrier apply to that portion of the service or facilities furnished by it.

Public Service Commission2. TERRITORY

Inter-city Telecommunications Services are available for origination from the city of Cape Girardeau, local directory calling areas of Cape Girardeau, Sikesron and Perryville, Missouri, and Anna, Illinois, and may terminate at any point within the State of Missouri. Calls may also be placed from other points in the state through calls placed to an inbound WATS number. All calls are handled through a carrier leased switch in Cape Girardeau, Missouri.

3. TERMS AND CONDITIONS3.1 Definitions

Certain terms used in this tariff are defined as follows:

Carrier

The term "Carrier" means LDD, Inc.

Commercial Service

The phrase "Commercial Service" means telecommunications services provided to a customer for use primarily or substantially of a business, professional, institutional or other occupational nature.

Day

The term "Day" means 8:00 a.m. to, but not including, 5:00 p.m., local time at the originating city on Monday through Friday, excluding Carrier-specified holidays.

Evening

The term "Evening" means 5:00 p.m. to but not including 11:00 p.m. local time at the originating city on Sunday through Friday and anytime on Carrier-specified holidays except when a lower rate would normally apply.

Exchange Area

A geographically defined area wherein the telephone industry through the use of maps or legal descriptions sets down specified areas where individual telephone exchange companies hold themselves out to provide communication services.

Holidays

The term "Holidays" means all ~~Carrier-specified holidays~~ New Year's Day, President's Day, ~~Independence Day~~, Labor Day, Thanksgiving Day and Christmas Day.

EFFECTIVE

3. TERMS AND CONDITIONS (Continued)3.1 Definitions (Continued)Local Access Transport Area (LATA)

The phrase "Local Access Transport Area" means a geographical area established by the U. S. District Court for the District of Columbia in Civil Action No. 17-49, within which a local exchange company provides communication services.

Night/Weekend

The words "Night/Weekend" mean 11:00 p.m. to but not including 8:00 a.m. local time in the originating city, anytime on Saturday, and all day Sunday except 5:00 p.m. to but not including 11:00 p.m.

Normal Work Hours

The phrase "Normal Work Hours" means the time after 8:00 a.m. and before 5:00 p.m., Monday through Friday excluding holidays.

Regular Billing

The words "Regular Billing" mean a standard bill sent in the normal Carrier billing cycle. This billing consists of one bill for each account assigned to a subscriber.

Subscriber

The term "Subscriber" means the person, firm, company, corporation or other entity which contracts for service under this tariff and is responsible for the payment of charges as well as compliance with Carrier's regulations pursuant to this tariff.

Switch

The term "Switch" means an electronic device which is used to provide circuit routing and control.

3. TERMS AND CONDITIONS (Continued)
3.2 Responsibilities of the Carrier

(a) The service provided consists of the use of facilities made available by Carrier for telephone communication between different exchange areas. The Carrier does not undertake to accept, transmit or deliver messages. The service provided does not include person-to-person, collect, conference or other communication links requiring operator assistance.

(b) Carrier is a reseller of long distance services. Carrier leases WATS lines and other facilities from other telephone companies and offers to sell to subscribers the right to use those facilities on an as needed basis. The service provided by Carrier is non-exclusive. Carrier's customers can and do have access to other long distance carriers.

(c) The obligation of Carrier to provide service is dependent upon its ability to procure facilities which are required to meet the subscriber's order for service. Carrier will make reasonable efforts to secure the necessary facilities as provided for in these tariffs.

3.3 Liability of Carrier

(a) Because the subscriber has the exclusive control of his communications over the facilities provided to him by Carrier, and because of the inability to provide error-free service over the telecommunication facilities provided, the services provided are subject to the terms and conditions contained in these tariffs.

(b) The subscriber assumes all risks for damages arising out of mistakes, omissions, interruptions, delays, errors, or defects in transmission or from failure or defects in equipment and facilities furnished by Carrier occurring in the course of providing service.

OCT 25 1986

EFFECTIVE

3. TERMS AND CONDITIONS (Continued)3.3 Liability of Carrier (continued)

(c) If service is interrupted or the subscriber receives a poor connection on a call, other than as a result of negligence or willful act of the subscriber, ~~an allowance or credit in the amount that would normally be given to the subscriber.~~ ~~In order to be entitled to such a credit or allowance, the subscriber shall notify Carrier of the disconnect or poor connection within the current billing period for the call.~~

(d) The liability of Carrier for damages arising out of mistakes, omissions, interruptions, delays or errors or defects in transmission occurring in the course of furnishing service and not caused by negligence of the customer shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistakes, omissions, interruptions, delays or errors or defects in transmission occur.

(e) Carrier shall be indemnified and held harmless by the subscriber against any and all claims for libel, slander or copyright infringement arising directly or indirectly from the material transmitted over the facilities of Carrier or the use of same by subscriber, and also against claims for patent infringement arising from combining with, or using in connection with, facilities furnished by Carrier and apparatus, equipment and systems provided by the subscriber, and against all other claims arising out of any act or omission of the subscriber in connection with the services and facilities provided by Carrier.

3.4 Use of Service by the Subscriber

(a) The service is provided for use by the subscriber and may be used by others when so authorized by the subscriber, providing that all such usage shall be subject to the provisions of Carrier's filed tariffs.

3. TERMS AND CONDITIONS (Continued)**3.4 Use of Service by the Subscriber (cont.)**

(b) Service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes, but is not limited to, the following:

(1) The use of profane or ~~obscene~~ language in communications over Carrier's facilities.

(2) A call or calls, anonymous or otherwise, if made in a manner which could reasonably be expected to frighten, abuse, torment or harass another.

(3) For any unlawful purpose.

(4) Use of service in any manner that would violate any rule or regulation or contract provision regulating the relationship between Carrier and those who supply the facilities that Carrier makes available to its subscribers.

(5) The use of service or facilities of the Company to transmit a message or to locate a person or otherwise to give or obtain information without payment of the charge applicable for service.

(6) The obtaining, or attempting to obtain, or assisting another to obtain or to attempt to obtain service by rearranging, tampering with or making connection with any facilities of the Carrier, or by any trick, scheme, false representation or false credit device, or by or through any other fraudulent means or device whatsoever with intent to avoid the payment, in whole or in part, of the regular charge for such service.

(7) The use of the service in such manner as to interfere unreasonably with the use of the service by one or more other customers.

3. TERMS AND CONDITIONS (Continued)3.5 Application for Service

(a) Applications for service may be made orally or in writing. These applications become contracts upon the establishment of service.

(b) Any change in rates or regulations prescribed by the Missouri Public Service Commission modifies the terms and regulations of contracts to the extent of such change.

(c) Carrier may require any subscriber to sign an application form furnished by Carrier and to establish credit as provided in these rules, as a condition precedent to the initial establishment of service. Carrier's acceptance of an order for service to an applicant whose credit has not been established may be subject to the provisions of these tariffs relating to the establishment of credit.

3.6 Advance Payments

At the time an application for service is made, an applicant may be required to pay an amount equal to at least one month's service and/or service connection charges, which may be applicable. The amount of the first month's service is credited to the customer's account on the first bill rendered.

3.7 Billing and Payment of Charges

(a) Unless a subscriber's bill has a zero balance, he will receive a bill each month. Fixed charges will be billed in advance. Toll charges will be billed in arrears. Special billing arrangements may be provided for service to governmental agencies.

(b) A subscriber is responsible for all charges in conjunction with the use of his authorized access number and for all charges for service provided to him by Carrier.

3. TERMS AND CONDITIONS (Continued)**3.7 Billing and Payment of Charges (cont.)**

(c) Bills are due as specified on the bill and may be paid at any business office of the Carrier or at any agency authorized by Carrier to receive payment.

(d) For billing of any fixed charges, service to be established on the day that Carrier notifies the subscriber of installation.

(e) Payment of commercial bills is due upon receipt. Payment of residential bills is due as provided in the Public Service Commission's billing practices rule. Subscriber will be billed for all usage beginning immediately upon access to service. For the purpose of computing charges, a month is considered to consist of thirty (30) days.

(f) Subscribers billed by local exchange telephone companies on behalf of Carrier are responsible for any late payment charges that the local exchange telephone company may employ in its billing process.

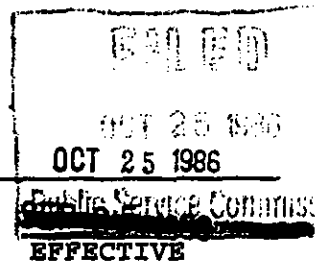

(g) Retroactive billing adjustments may be made for a period not to exceed three (3) years.

3.8 Establishment and Furnishing Service - Commercial Only**.1 Deposits**

(a) Each commercial applicant for service may be required to establish credit. Any applicant whose credit has not been duly established may be required to make a deposit to be held as a guarantee of payment of charges at the time of application. In addition, an existing commercial subscriber may be required to make a deposit or increase a deposit presently held.

(cont.)**RECEIVED**

SEP 25 1986

(b) A deposit will not exceed the estimated charges for two (2) months' service plus installation. It shall be returned:

Public Service Commission

(1) When an application for service has been cancelled prior to the establishment of service. The deposit will be applied to any charges applicable in accordance with the tariff and the excess portion of the deposit will be returned.

(2) At the end of six (6) months of satisfactory credit history, or

(3) Upon the discontinuance of service. Carrier will refund the subscriber's deposit or the balance in excess of unpaid bills for the service.

(a) The fact that a deposit has been made in no way relieves the subscriber from complying with the regulations with respect to the prompt payment of bills on presentation.

(d) On deposits held thirty (30) days or more, simple interest at the rate of nine per cent (9%) per annum shall be credited annually to the account of the subscriber or paid upon the return of the deposit, whichever occurs first. Interest will not accrue on any deposit after the date on which a reasonable effort has been made to return it to the subscriber.

(e) In lieu of a deposit, Carrier may accept a written guarantee. The limit of the guarantee will not exceed the amount of a cash deposit.

(f) A guarantor will be released upon satisfactory payment of all undisputed charges during the last twelve billing periods. Payment of charge is satisfactory if received prior to the date upon which the charge becomes delinquent provided it is not in dispute.

3. TERMS AND CONDITIONS (Continued)3.8 Establishment and Furnishing of Service-Commercial Only
(cont.).2 Cancellation of Service

(a) Carrier, by mailing a notice to the subscriber five (5) days before the date of cancellation by first class mail, may cancel the application for service ~~without incurring any liability to the subscriber~~ for any of the following reasons.

(1) Non-payment of any sum due to Carrier for service for more than thirty (30) days beyond the date of rendition of the bill for such service; or

(2) A violation of or failure to comply with any regulation governing the furnishing of service; or

(3) An order of a court or other government authority having jurisdiction which prohibits Carrier from furnishing service.

(4) Failure to post a required deposit or guarantee.

(5) Material misrepresentation of identity in obtaining service or the use of service in a matter that in the opinion of Carrier constitutes fraud or abuse.

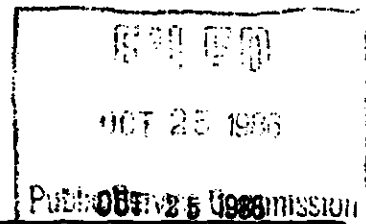

(6) Incurring charges not covered by a deposit or guarantee and evidencing an intent not to pay such charges when due.

(b) A subscriber may cancel the service of Carrier at any time by verbal or written notice.

(c) A cancellation of service by either Carrier or the subscriber shall not affect the subscriber's obligation to pay for all use of Carrier's facilities by the subscriber or anyone using subscriber's access code prior to the time at which Carrier received notice of cancellation.

3. TERMS AND CONDITIONS (Continued)3.9 Establishment and Furnishing Service-Residential **only**

.1 Deposits and Guarantees

(a) Carrier may require an applicant for service to post a deposit if:

(1) The applicant is unable to establish that he had a previous account with a telephone utility for a period of at least twelve (12) months for which all undisputed charges were satisfactorily paid; or

(2) The applicant has not previously had telephone service for a twelve (12) month period and does not meet at least two of the following criteria:

- (i) Home ownership, excluding mobile homes
- (ii) Vehicle ownership - car or truck
- (iii) Is fifty or more years of age
- (iv) Has been employed two (2) years or more with the current employer
- (v) Has an existing loan from a financial institution not considered delinquent by the creditor.

(b) A present subscriber may be required to post a deposit or guarantee as a condition of continued service if undisputed charges in two out of the last twelve billing periods have become delinquent or the subscriber has had service discontinued for non payment of an undisputed delinquent charge at any time during the preceding twelve billing periods.

(c) No deposit or guarantee or additional deposit or guarantee will be required by the Carrier because of race, sex, creed, national origin, marital status, age, number of dependents, condition of physical ~~handicap~~, ~~source~~, of income, or geographical area of residence.:

3. TERMS AND CONDITIONS (Continued)3.9 Establishment and Furnishing of Service-Residence
(Cont.)

(d) The amount of deposit for a new applicant will be twice the average monthly bill for all residence subscribers. If, within the first six (6) months of establishing service, the subscriber incurs service charges in any one billing period which are greater than 400% of the amount of deposit previously required, an additional deposit may be required.

(e) The amount of deposit for a present subscriber will be twice that subscriber's average monthly billing. The average monthly billing will be based on the actual billing for the immediate months preceding the request for the deposit, not to exceed twelve months.

(f) On deposits held thirty days or more, simple interest at the rate of nine per cent per annum shall be credited annually to the account of the subscriber or paid upon the return of the deposit, whichever occurs first. Interest will not accrue on any deposit after the date on which a reasonable effort has been made to return it to the subscriber.

(g) An applicant for service, or a present subscriber, may satisfy a deposit requirement by providing a Contract of Guaranty in the amount not to exceed the requested deposit, from a present subscriber with at least two years of established service whose service has not been suspended for nonpayment within the last twelve months. The guaranty contract shall be on a form provided by the Carrier which shall include Carrier's right to transfer charges to the limit of the guaranty, from a defaulted bill of the subscriber, from whom a deposit or a Contract of Guaranty was required, to the guarantor's account or accounts and the further right to suspend a guarantor's service. A guarantor shall be released upon satisfactory payment by the subscriber of all undisputed charges during the last twelve billing periods.

3. TERMS AND CONDITIONS (Continued)3.9 Establishment and Furnishing of Service-Residential Only
(cont.)

(h) The fact that a deposit has been made, or a guaranty provided, shall in no way relieve the subscriber from his responsibility to pay undisputed charges or their becoming delinquent nor constitute a waiver or modification of the provisions set forth in this Tariff providing for the temporary suspension of service or the termination of the service for nonpayment of undisputed delinquent charges.

(i) Upon termination of the service, the amount of the deposit with accrued interest, shall be applied in payment of any unpaid charges for service and the balance, if any, shall be returned to the subscriber within twenty-one (21) days of the rendition of the final bill.

(j) Upon satisfactory payment of all undisputed charges during the last twelve billing periods, the deposit, with accrued interest, will be promptly refunded or credited against charges stated on subsequent bills. Payment of a charge is satisfactory if received prior to the date upon which the charge becomes delinquent provided it is not in dispute. The Carrier may withhold refund of a deposit pending the resolution of a dispute with respect to charges secured by such deposit.

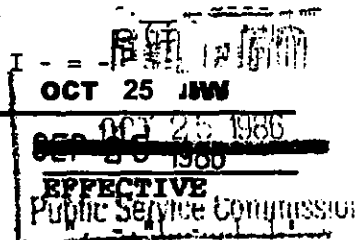

(k) Each subscriber posting a deposit will receive a receipt-in writing at that time or within ten days.

(l) Carrier will provide means whereby a person entitled to a refund of a deposit is not deprived of the refund even though he may be unable to produce the receipt for the deposit provided he can produce identification to ensure that he is the person entitled to the refund.

(m) Carrier will permit a subscriber, concurrent with the beginning of service, to post a deposit in two equal monthly installments or as otherwise agreed

(Cont.)**

(n) A guarantor will be released upon satisfactory payment of all undisputed charges during the last twelve billing periods. Payment of a charge is received prior to the date upon which the charge becomes delinquent provided it is not in dispute.

.2 Discontinuation of Service

(a) Carrier may discontinue service upon five (5) days written notice under the following circumstances:

(1) Nonpayment of an undisputed delinquent charge.

(2) Failure to post a required deposit or guarantee.

(3) Failure to substantially comply with the terms of a settlement agreement.

(4) Material misrepresentation of identity in obtaining telephone utility service or the use of the service in such a manner that, in the opinion of the Company, constitutes abuse or fraud.

(5) As provided by state or federal laws.

(6) Failure to abide by the terms of this tariff.

(7) Incurring charges not covered by a deposit or guarantee and evidencing an intent not to pay such charges when due.

(8) Upon written objection to the furnishing of a service made in writing by or on behalf of any governmental law enforcement agency acting within its jurisdiction on the grounds that such service is, or will be, used for an illegal purpose.

3.10 Interruption of Service

It shall be the obligation of the subscriber to notify Carrier of any interruption in service or of any poor connections or disconnects. Credits will be given for disconnected calls or calls where poor connections obstruct communication. Credits will not be given for wrong numbers.

SEP 25 1986
ISSUED

Cape Girardeau, MO 63701

EFFECTIVE

3. TERMS AND CONDITIONS (continued)3.11 Mileage

Mileage used in these tariffs is calculated based on V and H coordinates as obtained by reference to A T & T Tariff FCC No. 10.

Method of Calculation

The airline mileage between two carrier service locations is calculated as follows

$$\text{Mileage} = \frac{\sqrt{(V1 - V2)^2 + (H1 - H2)^2}}{10}$$

where V1 and H1 are the V and H coordinates of point 1 and V2 and H2 are the coordinates of point 2.

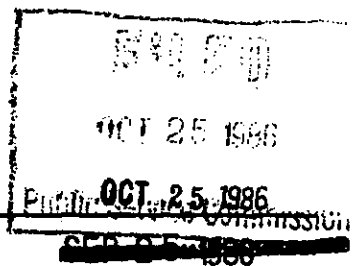

The mileage is rounded up to an integer value to determine the airline mileage.

4. DESCRIPTION OF SERVICE

Carrier provides a dial-up interexchange service which is available for subscriber use twenty-four (24) ~~hours~~ ^{days}, seven (7) days a week. ~~Access to the service is obtained by dialing a seven (7) digit access number or an 800 inward WATS number. Either of these numbers will produce a dial tone. The subscriber then dials 1 plus the area code and the local number. This will cause a "stutter dial tone." The subscriber then enters his authorization number and the call is completed. The subscriber uses a connection through the local exchange network to shared off-net access lines to originate calls anywhere within the State of Missouri to any other point within the State. Charges are based on the distance and duration of the call as well as the time of day and day of the week when the call is placed.~~

A Remote 800 number access is provided as a customer convenience. The fee on calls coming into and terminating in the Cape, Sikeston, Perryville and Anna, Illinois local exchanges on the 800 number will be charged at a day rate of fifty cents ~~(\$.50)~~ per minute and an evening rate after 5:00 p.m. of thirty cents ~~(\$.30)~~ per minute. Calls coming into these local exchanges but terminating in an area other than ~~Cape, Sikeston, Perryville and Anna, Illinois~~, areas on the 800 number will be charged at a day rate of fifty cents ~~(\$.50)~~ per minute and an evening rate of thirty cents ~~(\$.30)~~ per minute PLUS the LDD ~~interLATA~~ or LDD ~~intraLATA~~ scheduled tariff rates for the time that the call was made. The additional 800 charge will be identified on the subscriber's statement as a REMOTE 800 Service Charge.

A direct dial 1 plus equal access service is also provided.
