APPLICATION

Touchtone Communications Inc. ("Applicant" or "TTCI"), a
Delaware Corporation, files this verified application
respectfully requesting that the Missouri Public Service
Commission ("Commission") issue an order that:

- (a) grants Applicant a Certificate of Service Authority to
provide resold and facilities-based/UNE Basic Local
Telecommunications Services in Portions of the State of
Missouri pursuant to Sections 392.455 and 392.420 -
.44055 of the Revised Statutes of Missouri (RSMo) 1994
and Sections 392.410 and .450, RSMo Supp. 1996.
- (b) grants competitive status to Applicant pursuant to
Section 392.361 RSMo Supp 1996., and classifies the
Applicant's services as competitive.
- (c) waives certain Commission rules and statutory
provisions pursuant to Section 392.420, RSMo Cum. Supp.
1996.

In support of its request, Applicant states:

1. The legal name and principal office or place of business of the Applicant are:

Touchtone Communications Inc.

16 South Jefferson Road

Whippany, New Jersey 07981

(973) 739-9300 (Phone)

(973) 739-9366 (Fax)

A copy of Applicant's Certificate of Incorporation, and certificate of authority from the Missouri Secretary of State to transact business in Missouri are attached hereto as Exhibit I.

2. The name and address of Applicant's in-state attorney is:

Judith A. Rau, Esq.

Rau & Rau

119 E. Mill Street

Waterloo, Illinois 62298

3. Applicant proposes to provide resold and facilities-based/UNE basic local telecommunications service as a separate and distinct service within portions of the State of Missouri. Applicant is willing to comply with all applicable Commission rules and is willing to meet all relevant service standards, including, but not limited to, billing, quality of service and tariff filing and maintenance. Applicant proposes to provide services to prospective customers in exchanges currently served by Southwestern Bell Telephone Company, United Telephone Company of Missouri d/b/a Sprint, and CenturyTel as set forth in the list of exchanges attached hereto as Exhibit II. Applicant will give consideration to equitable access for all Missourians, regardless of where they might reside or their income, to affordable telecommunications services in the proposed service area as set forth in Exhibit II, in accordance with applicable law.

When it initiates service in Missouri, Touchtone Communications Inc., (TTCI) proposes to offer resold local exchange services and local services utilizing unbundled network elements through commercial agreements. Such services will be provided by utilizing the facilities of incumbent local exchange carriers ("LECs"). Initially, the services TTCI intends to offer are likely to be those local exchange telecommunications services offered by incumbent local exchange carriers in the proposed service area. TTCI intends to provide local exchange services that may include but are not limited to the following:

- * Basic Residential Exchange Services
- * Residential Custom and Class Features (call waiting, caller ID, call forwarding, call blocking, speed calling, etc.)
- * Basic Business Exchange Services
- * Business Customer Calling and Class Features
- * Adjunct Provided Features (voice messaging, etc.)
- * Business and Residential Ancillary Services (911, E911, 411, Relay Service, directory listing, directory assistance, etc.)
- * Centrex
- * DSL and ISDN
- * DID Trunks and Lines
- * Private Lines

TTCI does not initially intend to install any switching

equipment for the provision of local exchange service in the State of Missouri, but may install such equipment in the future.

If TTCI installs facilities in Missouri, it will probably use the following or a similar configuration of equipment: TTCI will provide voice and high speed data services through a combination of the latest technology switching and transport media comprised of the Lucent Technology 5 ESS Generic 13 switch module, ADSL/SDSL transport and Internet service equipment and the latest Optical multiplexer DAC's configurations. The switching system consists of a central processing and control complex capable of interconnection as a peer to the incumbent as well as competitive local exchange companies. The hub portion of the switch will interconnect with the public switched network on Signaling System 7 ("SS7") or Feature Group D ("FGD") facilities. The system's remote module capability will allow properties to be served in a manner that provides the exchange of appropriate signaling, control and calling/caller information to the network in accordance with network standards and specifications. Additionally, these services will be delivered over a combination of delivery mechanisms through incumbent local carriers' unbundled loop network, both copper and fiber and transport networks, as well as via TTCI constructed facilities.

4. Applicant has the experience in the telecommunications industry and the technical and financial resources to provide telecommunications services within Missouri. A brief description

of the qualifications and experience of the key management employees is attached hereto as Exhibit III, along with a description of the Applicant's telecommunications background. A copy of the financial information to demonstrate Applicant's financial ability to provide service is attached hereto as Exhibit IV.

Applicant is currently authorized in Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin and Wyoming to provide local exchange and/or interexchange services. Applicant is in the process of applying for authorization to provide competitive local exchange and interexchange services in the 48 contiguous states and Hawaii. Applicant has not been denied authority for any of the services for which it seeks authority in this Application.

5. Applicant hereby respectfully requests a temporary waiver of 4 CSR 240-3.510 (1) (C) that requires Applicant to file a draft tariff simultaneously with this application until Applicant has executed interconnection agreements with the incumbent LECs and those agreements have been approved by the Commission. Applicant will file its tariff with an effective date of at least 45 days after filing.

6. Applicant hereby respectfully requests classification as a competitive telecommunications company within the State of Missouri and receive a lesser degree of regulation as permitted by Sections 392.361 and 392.420 RSMo. Applicant also requests that its services be classified as competitive. Applicant believes that its proposed services will be subject to sufficient competition to justify a lesser degree of regulation. Granting of this application will allow greater price and service options for telephone users.

7. Applicant also respectfully requests, pursuant to Section 392.420 RSMo (Cum. Supp. 1992), that the Commission waive the application of the following rules and statutory provisions as it relates to the regulation of Applicant:

Statutes

392.210.2 Establish Uniform System of Accounts for Annual reports

392.240(1) Setting just and reasonable rates

392.270 Ascertain Property values

392.280 Establish Depreciation accounts

392.290 Issuance of securities

392.300.2 Acquisition of stock

392.310 Issuance of stock and debt

392.320 Stock Dividend Payment

392.330 Issuance of securities, debts and notes

392.340 Reorganization(s)

Commission Rules

4 CSR 240-10.020 Depreciation fund income

4 CSR 240-3.550(5)C) File Exchange boundary maps with Commission

4 CSR 240-30.040 Uniform System of Accounts

The above-referenced rules and statutory provisions have been waived to other carriers in prior cases.

8. Applicant, pursuant to Section 386.570, Cum. Supp. 1992, will comply with all applicable Commission rules except those which are specifically waived by the Commission pursuant to a request filed by the Applicant.

9. All inquiries, correspondence, communications, pleadings, notices, orders and decisions relating to this case shall be addressed to:

lsteinhart@telecomcounsel.com (Email)

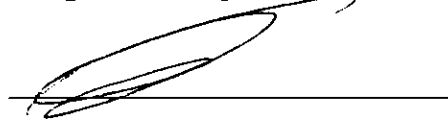

10. The Applicant has no pending actions or final unsatisfied judgments or decisions against it from any state or federal agency or court which involve customer service or rates, which action, judgment or decision has occurred within three (3) years of the date of this application. No Commission annual reports or assessment fees are overdue.

11. TTCI submits the following arguments to demonstrate that the public interest will be served by the approval of this Application:

The grant of a certificate to provide competitive basic local telecommunications services to the Applicant will serve the public interest. The Applicant's presence in the market will expand customer choice for telecommunications service. The increased competition brought by the Applicant to the market will have the effect of improving the quality of telecommunications services in Missouri and decreasing the cost of such services through increased innovation and efficiency. The result will be beneficial to economic development in Missouri. The granting of a certificate to the Applicant will contribute to the availability of reasonably affordable local exchange services in the State of Missouri.

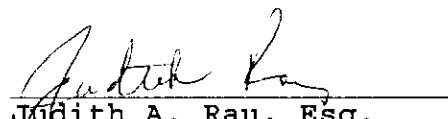

WHEREFORE, Applicant, Touchtone Communications Inc., respectfully requests that the Missouri Public Service Commission grant it a certificate of service authority to provide resold and facilities-based/UNE Basic Local Telecommunications Services within portions of the State of Missouri. Applicant also respectfully requests classification as a competitive telecommunications company and requests that its services be classified as competitive. In addition, Applicant respectfully requests a waiver of the above-referenced rules and statutory provisions and a temporary waiver of the tariff filing requirement.
