Re: Case No. TA-2000-453, Tariff File No. 200001151
MGC Communications, Inc. (CLEC Certificate)

Dear Mr. Roberts:

Please find enclosed for filing in the above-referenced case and tariff file an original and eight copies of substitute Original Title Sheet and tariff sheet nos. 1, 2, 3, 3.1, 3.2, 12, 25, 25.1, 27, 28, 40, 43, 44, 45, 46, 47, 49 and 50 to replace those same numbered sheets to MO P.S.C. Tariff No. 1 (Basic Local) originally filed. The changes contained in the substitute sheets were requested by Staff. Thank you.

Sincerely,

Brent Stewart

**REGULATIONS AND SCHEDULES
APPLICABLE TO
BASIC LOCAL EXCHANGE SERVICES
WITHIN THE STATE OF MISSOURI**

ISSUED BY

MGC COMMUNICATIONS, INC.

This Tariff contains the descriptions, regulations and rates applicable to the furnishing of facilities-based Basic Local Exchange telecommunication services provided by MGC Communications, Inc., with principal offices at 175 Sully's Trail, Pittsford, NY 14534, (888) 777-5802. This Tariff applies for services furnished within the Company's authorized service area within the State of Missouri. This Tariff is on file with the Missouri Public Service Commission, and copies may be inspected, during normal business hours, at any of the Company's public offices.

The Company and the services offered hereunder have been classified as "competitive" by the Missouri Public Service Commission. Service is provided to Business customers only.

Issued: June 9, 2000

Effective: July 24, 2000

BASIC LOCAL EXCHANGE SERVICES

CALLING AREA MAP

The local calling area for customers in the Exchange areas found on Sheet 3 in this section will be the entire respective LATA in which their premises resides: Kansas City LATA "0524," St. Louis LATA "0520", and St. Louis customers may also call to the "0521" Westphalia LATA at no additional cost. MGC customers may select MGC or any other carrier for their IntraState/InterLATA long distance traffic. Customers selecting MGC as their carrier who are calling outside the local calling area, but within the state, will be charged the IntraState/InterLATA rates found in the Company's IXC Tariff, MO P.S.C. Tariff No. 3.

**MGC's Local Calling Area**

Local Exchange Service will be provided via the Company's facility-based switches using unbundled network elements of Southwestern Bell.*

Shaded areas on map identify the Local Calling Areas for Kansas City in the "0524" LATA, and the "0520" and "0521" LATAs. of St. Louis and Westphalia.

*Initially, the availability of service will be limited to NPA/NXXs in the exchanges where the Company is able to collocate with Southwestern Bell.

SECTION 2 – RULES AND REGULATIONS – CONT'D**2.4 Prohibited Uses**

- 2.4.1 The services the Company offers shall not be used for any unlawful purpose or for any use for which the Customer has not obtained all required governmental approvals, authorizations, licenses, consents and permits.
- 2.4.2 The Company may require applicants for service who intend to use the Company's offering for resale and/or for share use to file a letter with the Company confirming that their use of the Company's offerings complies with relevant laws and regulations, policies, orders, and decisions.
- 2.4.3 The Company may require a Customer to immediately shut down its transmission if such transmission is causing interference to others.

2.5 Liability of the Company

- 2.5.1 The liability of the Company, if any, for damages arising out of mistakes, omissions, interruptions, delays, errors, or defects in transmission during the course of furnishing service shall in no event exceed an amount proportionate to the charge to the Customer for the service during the period when such mistakes, omissions, interruptions, delays, errors, or defects in transmission occurred. The remedy of the Customer with respect to the provision of service by the Company shall be limited to that expressly provided herein to the exclusion of any and all other remedies. No agreement varying or extending such warranties, the remedies expressly provided, or these limitations, will be binding upon the Company unless in writing and signed by the Company and the Customer.
- 2.5.2 The Company shall not be liable for any indirect, special, incidental, punitive, or consequential damages under this tariff including, but not limited to, loss of revenue or profits, for any reason whatsoever, including any delay or interruption of service or any failure in or breakdown of facilities associated with the service; or for any mistakes, omissions, delays, errors or defects in transmission occurring in the course of furnishing service, except as specified herein. The Company's liability for direct damages incurred as a direct consequence of a service interruption or the failure of the Company to perform shall in no event exceed an amount equal to that which the Company would have otherwise paid for the period that the service was not provided during which the Company has failed to perform.

BASIC LOCAL EXCHANGE SERVICES

SECTION 2 – RULES AND REGULATIONS – CONT'D**2.15 Discontinuance of Service by Company (Cont'd)****2.15.7 Restoral of Service**

- A. When service has been discontinued, the Company may charge and collect the restoral charge, if any, set forth in its rules, regulations or terms and conditions of service which are on file with the Commission.
- B. When a Customer's telephone service has been temporarily disconnected for a period of ten (10) calendar days that service will be permanently disconnected, unless special payment arrangements are initiated by the subscriber and agreed to by the Company. Once the service has been permanently disconnected, an application for new service will be required. Prior to the installation of service, payment of delinquent amount due, a reconnection charge, and a deposit may be required.

2.16 Telephone Surcharges/Taxes

In addition to the rates and charges applicable according to the rules and regulations of this Tariff, various surcharges and taxes may apply to the Customer's monthly billing statement. The Customer is responsible for payment of any fees (including franchise and right-of-way fees), charges, surcharges, and taxes (however designated) (including without limitation sales, use, gross receipts, excise, access or other taxes but excluding taxes on the Company's net income) imposed by any local, state, or federal government on or based upon the provision, sale or use of Network Services. Fees, charges, and taxes imposed by the city, county, or other political subdivision will be collected only from those Customers receiving service within the boundaries of that subdivision.

All state and local taxes (e.g., gross receipts tax, sales tax, municipal utilities tax) are not included in the rates in Section 4 of this tariff, but shall be listed as separate line items on the Customer's bill. The Company may adjust its rates or impose additional charges on its customers to recover amounts it is required by governmental or quasi-governmental authorities to collect from or pay to others. The Company may also adjust its rates or impose additional charges to cover the administrative cost of collecting such charges or paying compensation to other entities. Examples of such programs include, but are not limited to, the Universal Service Fund (USF), the Presubscribed Interexchange Carrier Charge (PICC), and compensation to pay telephone service providers for the use of their pay telephones to access the Company's services.

All charges and fees subject to Missouri Public Service Commission jurisdiction, except taxes and franchise fees, will be submitted to the Missouri Public Service Commission for prior approval.

Pittsford, New York 14534

BASIC LOCAL EXCHANGE SERVICES

SECTION 3 – DESCRIPTION OF SERVICE**3.1 Local Exchange Services****3.1.1 General**

The Customer may purchase basic local telecommunications service as well as additional features at the Customer's option.

3.2 Service Offerings**3.2.1 Local Exchange Service**

Local Exchange Services consist of the services offered pursuant to this tariff. Local Exchange Services provide a Customer with a connection to the public switched network which enables the Customer to:

- A. receive calls from other stations on the public switched telephone network;
- B. access interLATA/interstate, and international calling services provided by the Company or by other certificated common carriers;
- C. access the Company's operator and customer service center for service related assistance; access toll-free telecommunications services such as 800 NPA; and access 9-1-1 service for emergency calling. There is no charge for accessing 9-1-1 service.
 1. The Company is obligated to supply the E-911 service provider in the Company's service area with information necessary to update the E-911 database at the time the Company submits Customer orders to the local exchange company whose service is being resold pursuant to these tariffs.
 2. At the time the Company provides basic local service to a Customer by means of a cable pair the Company leases from the incumbent LEC, or over any other exclusively owned facility, the Company will be obligated to make the necessary equipment or facility additions in the 9-1-1 service provider's equipment in order to accurately and properly update the database for 9-1-1.
 3. The Company will be obligated to provide facilities to route calls from the end users to the proper Public Safety Answering Point. The Company recognizes the authority of the 9-1-1 Customer to establish service specifications and grant final approval or denial of service configurations offered by the Company.
 4. The Company will collect 9-1-1 surcharges and remit all surcharge revenue to the appropriate governmental entity pursuant to RSMo 190.310.

Effective: July 24, 2000

Kent F. Heyman
Sr. Vice President, General Counsel
175 Sully's Trail
Pittsford, New York 14534

BASIC LOCAL EXCHANGE SERVICES

SECTION 3 – DESCRIPTION OF SERVICE – CONT'D**3.2 Service Offerings (Cont'd)****3.2.1 Local Exchange Service (Cont'd)**

Local Exchange Services can be used to originate calls to other telephone companies' caller-paid information services (e.g. NPA 900, NXX 976, etc.). Calls to those numbers and other numbers used for caller-paid information services can be blocked by the Company's switch at the Customer's request. MGC does not charge for any blocking service.

Local Exchange Service provides an individual access line for the transmission of two-way switched voice or data communication within a local calling area. The individual access line is the connecting facility between a Customer's premises and a serving central office that provides Customer access to the switched network for placing and receiving calls. The individual access line also enables the Customer to access the service of long distance carriers. The Company will allow Customers the choice of both intraLATA and interLATA interexchange carriers.

3.2.2 Non-Recurring, Recurring Charges and Surcharges

- A. The Company assesses non-recurring Service Connection Charges and Monthly Recurring Charges, as well as End User Common Line Charges and applicable governmentally imposed surcharges and taxes. Provisions regarding taxes and surcharges are set forth in Section 2.16.
- B. Rates and charges are as specified in Section 4. All rates and charges are subject to such changes and modifications as the Commission may, from time to time, direct in the exercise of its jurisdiction.

3.3 Service Charges**3.3.1 Charges for Establishing Service**

Service Connection Charges are non-recurring charges which apply to ordering, installing or changing of local telephone service. One or more Service Connection Charges may apply to each Customer order depending upon the work functions performed. Work functions that cause the application of Service Connection Charges are specified below.

BASIC LOCAL EXCHANGE SERVICES

SECTION 3 – DESCRIPTION OF SERVICE – CONT'D**3.8 Central Office Features (Cont'd)**

3.8.9 Three-Way Calling - Allows the addition of a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The initiator of the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. The feature may be used on both outgoing and incoming calls.

3.8.10 Repeat Dialing – Permits the Customer to have calls automatically redialed when the first attempt reaches a busy number. The line is checked every 45 seconds for up to 30 minutes and alerts the Customer with a distinctive ringing pattern when the busy number and the Customer's line are free. The Customer can continue to make and receive calls while the feature is activated.

3.8.10 Return Call – Allows the Customer to return a call to the last incoming call whether answered or not. If the line is busy, Return Call places your call next in line and rings you back when the line is no longer busy.

3.9 Advanced Custom Calling Features

3.9.1 Caller ID - The Company will offer Caller ID Service where facilities and operating conditions permit and where the Company receives the telephone number of the party that originated the call from the carrier(s), if any, that delivered the call to the Company. Caller ID Service allows the Customer, using Customer Premises Equipment of the Customer's choice, purchased at the Customer's expense, to display the Calling Party Directory Name and Number (CPN) on incoming telephone calls. When a Caller ID is activated on a Customer's line, the CPN of incoming calls appears on the Customer's display unit during the first long, silent interval of the ringing cycle.

Per line blocking will be available upon request, at no charge, only to the following entities for lines over which the official business of the agency is conducted, including those at the residences of employees/volunteers, where an executive officer of the agency registers a need for blocking and provides the required certification to the Company:

- A. private, nonprofit, tax exempt, domestic violence intervention agencies; and
- B. federal, state, and local law enforcement agencies.

BASIC LOCAL EXCHANGE SERVICES

SECTION 3 – DESCRIPTION OF SERVICE – CONT'D**3.10 Miscellaneous Services (Cont'd)****3.10.3 Vanity Number Service**

Customers can request/reserve a specific personalized telephone number, other than the telephone number originally offered, if the number is available. The Customer has no proprietary right in the number, and the Company may make such reasonable Changes in the telephone number as the requirements of the service may demand. If the Company finds it necessary to change the Customer's Personalized Telephone Number, the Customer will be allowed to choose another personalized number.

3.10.4 Collocation Space and Charges

The Company offers collocation services to Information Services Providers (ISP). An ISP collocates equipment at the Company's location(s), which is in turn connected to the Company's host switch site for the purpose of transmitting data across a public switched network. These ISPs in turn provide Internet services to end-users that may or may not be customers of the Company.

BASIC LOCAL EXCHANGE SERVICES

SECTION 4 – RATES – CONT'D**4.2 Customer Bills (Cont'd)**

A listing of current charges on a Customer's bill shall include all interexchange services or toll calls which are provided by the Company. The detail portion of the toll bill shall include:

- A. The date and time of placement;
- B. The destination, including city and state;
- C. The telephone number called, including area code;
- D. The rate applied;
- E. The duration; and
- F. The total charge.

Detailed customer billing information required to appear on the Customer's bill shall be retained by the Company for at least eighteen months.

4.3 Late Payment Charges

Bills are due and payable on the due date of the monthly bill, but no less than twenty-one (21) days after the date of the postmark on the bill. Bills may be paid at company offices or authorized agents. Payment made in the Company's night depository shall be deemed received on the next full business day. A late payment charge, as described below, will be applied if payment is not received by the Telephone Company on or before the late payment date which will be prominently displayed on the Customer's bill. The Company shall credit payments within twenty-four (24) hours of receipt to avoid assessing late payment charges incorrectly.

A late payment charge of 1.5 percent is applied to each Customer's bill when the previous month's bill has not been paid in full, leaving an unpaid balance carried forward. The late payment charge is included in the total amount due on the current bill.

4.4 Returned Check Charges

A NSF charge of \$25.00 applies for any negotiable instrument returned by a bank, savings institution, or other eligible institution which is returned by that institution with one of the following instructions: non sufficient funds, uncollectible funds, account closed, account frozen, no account.

BASIC LOCAL EXCHANGE SERVICES

SECTION 4 – RATES – CONT'D**4.5 Telecommunications Relay Service**

The Company through its agreements with Southwestern Bell will provide Telecommunications Relay Service to those customers with disabilities which prevent them from using standard telecommunication facilities.

4.6 Call Blocking Service

Call Blocking Service prevents access to services that accumulate charges on the Customer's bill. The Company offers the following Call Blocking Services at no charge to the Customer:

900/976 Block	3 rd Party Block
Directory Assistance (411) Block	Collect Call Block
International Toll Block	

4.7 Promotional Campaigns

The Company may, upon Commission approval, offer customer-specific rate incentives during specified promotional periods. The Company will provide written notice to the Commission at least seven (7) days prior to the commencement of a promotional program specifying the terms of the promotion, the specific service offered, the location, and the beginning and ending dates of the promotional period.
