Re: Case No. TA-2000-453, Tariff File Nos. 200001151 and 200001152
MGC Communications, Inc. (CLEC Certificate)

Dear Mr. Roberts:

Please find enclosed for filing in the above-referenced case an original and eight (8) copies each of: 1) substitute Original Title Sheet and substitute tariff sheet nos. 3.2, 4, 7, 11, 26, 42, 43 and 47 to MO P.S.C. No. 1 (Basic Local, file #200001151); and 2) substitute tariff sheet nos. 49, 57 and 58 to MO P.S.C. No. 2 (Access Tariff, file #200001152) to replace those same numbered tariff sheets currently on file. The changes contained in these substitute sheets were requested by Staff. Thank you.

Sincerely,

Brent Stewart

BASIC LOCAL EXCHANGE SERVICES

APPLICATION OF TARIFF

This tariff sets forth the service offerings, rates, terms and conditions applicable to the furnishing of resold and facilities-based Basic Local Exchange Services by MGC Communications, Inc. ("MGC" or the "Company"), operating as a competitive telecommunications company, to Customers within the State of Missouri.

Service is provided to Business customers only.

The rates, rules, terms and conditions herein apply for Basic Local Exchange Services furnished within the Southwestern Bell exchanges where facilities and operating conditions permit the furnishing of such services.

The rates and rules contained herein are subject to change pursuant to the rules and regulations of the Missouri Public Service Commission.

Issued: June 9, 2000

Effective: July 24, 2000

BASIC LOCAL EXCHANGE SERVICES

SECTION 2 – RULES AND REGULATIONS – CONT'D**2.2 Limitations (Cont'd)**

- 2.2.2 In all cases of assignment or transfer, the written acknowledgment of the Telephone Company is required prior to such assignment or transfer which acknowledgment shall be made within fifteen (15) days from the receipt of notification. All regulations conditions contained in this tariff shall apply to such assignee or transferee. Such transfer or assignment shall only apply where there is no interruption of the use or location of the service or facilities.

The assignment or transfer of services does not relieve or discharge the assignor or transferor from remaining jointly liable with the assignee or transferee for any obligations existing at the time of assignment or transfer.

- 2.2.3 The use and restoration of services shall be in accordance with Part 64, Subpart D, Appendix A, of the Federal Communications Commission's Rules and Regulations, and 4 CSR 240-32 of the Missouri Public Service Commission's rules, which specify the priority system for such activities.

- 2.2.4 The services offered under this Tariff are subject to the ability to secure and retain without unreasonable expense, suitable facilities and rights for construction, and subject to the provisions of this Tariff.

- 2.2.5 Subject to compliance with the above-mentioned rules, where a shortage or availability of facilities or equipment exists and is insufficient to meet the service requirements of a Customer either for temporary or protracted periods, the services offered herein will be provided to customers on a first-come, first-served basis per date of service order.

2.3 Use

- 2.3.1 Services provided under this tariff may be used for any lawful purpose for which the service is technically suited.

BASIC LOCAL EXCHANGE SERVICES

SECTION 2 – RULES AND REGULATIONS – CONT'D**2.19 Service Implementation**

Absent a promotional offering, a non-recurring service installation charge, as set forth in Section 4 of this Tariff, will apply to new service orders or to orders to change existing services.

2.20 Restoration of Service

A non-recurring restoration charge applies to the restoration of suspended service and facilities because of nonpayment of bills and is payable at the time that the restoration of the suspended service and facilities is arranged. The restoration charge does not apply when, after disconnection of service, service is later re-installed. The charge may found in Section 4.1 in this tariff.

2.21 Application of Credits for Interruptions in Service

2.21.1 Credits for interruptions in service, for which charges are specified on the basis of per minute of use, or on the usage of a fraction of a minute, shall in no event exceed an amount equal to the initial period charge provided for under this Tariff. Credits for interruptions in service that is provided and billed on a flat rate basis for a minimum period of at least one (1) month, beginning on the date that the billing becomes effective, shall in no event exceed an amount equivalent to the proportionate charge to the Customer for the period of service during which event that gave rise to the claim for a credit occurred. A credit allowance is applied on a pro rata basis against the rates specified hereunder and is dependent upon the length of the interruption. Only those facilities that are interrupted will receive a credit.

2.21.2 For calculating credit allowances, every month is considered to have thirty (30) days.

2.22 Local Number Portability

Pursuant to the decision in F.C.C. 95-116, the Company shall permit a Customer to whom the Company has furnished a Local Exchange Service telephone number to "port" such number to a new provider of such service through the use of the remote call forward ("RCF") capability of the Company's switch.

2.23 Number Intercept

Pursuant to 4 CSR 240-32.050(5), at the Customer's request, the Company will, for thirty (30) days, provide the Customer with an intercept recording referring callers to another number. This service is available to customers at no charge for the first thirty (30) days.

BASIC LOCAL EXCHANGE SERVICES

SECTION 3 – DESCRIPTION OF SERVICE – CONT'D**3.9 Advanced Custom Calling Features (Cont'd)****3.9.1 Caller ID (Cont'd)**

The Company will not transmit to the Customer the telephone number or name of a calling party that has blocked the display of such information. The Company's provision of this service is subject to the jurisdiction and decisions of the Missouri Public Service Commission.

3.9.2 Call Trace/Anonymous Calls

Customers receiving annoying or anonymous calls may request (1) a telephone number change, which will be provided at no charge by the Company or (2) the capability to utilize Call Trace on a per activation basis, as needed. Call Trace allows the Customer to dial a code (*57) to automatically request that the following information be recorded:

- The originating telephone number
- The date and time of the call
- The date and time call trace was activated

When Call Trace successfully identifies a calling number, a recording instructs the Customer to call a toll-free number, which will activate a Voice Response script and assist the Customer in establishing an open file. Should the Customer decide to prosecute the call originating party, the Customer should contact the Company for further instructions. Activation of Call Trace never authorizes the Company to provide the called party with the name or telephone number of the calling party. In the event that Call Trace is not available or is unable to resolve the case, it may be necessary to place a manual trap on the Customer's telephone line.

3.10 Miscellaneous Services**3.10.1 900/976 Blocking**

Calls to caller-paid information services (e.g. 900, 976), can be blocked by the company's switch and will be offered at no charge in all exchanges where facilities and conditions permit. If per line blocking is not available in a particular switch (either of the Company or the underlying LEC if service is provided via resale), then all 900/976 calls will be blocked at that switch. MGC does not charge for blocking or unblocking of 900/976 calls.

BASIC LOCAL EXCHANGE SERVICES

SECTION 3 – DESCRIPTION OF SERVICE – CONT'D**3.10 Miscellaneous Services (Cont'd)****3.10.2 Toll Restriction Service**

Toll Restriction Service enables a Customer, by means of Operator identification and/or screening, to:

- A. Restrict outgoing toll calls from station users to only those calls that are charged to the called telephone, a third number, or a calling card account and is available where facilities permit.
- B. Prevent incoming collect and third number billed calls from being billed to the Customer. Operator screening of incoming collect and third number billed calls is limited to operator service providers that access a validation data base and therefore, cannot be guaranteed.
- C. There is no charge to the Customer to have Toll Restriction added or removed from the Customer's line.

3.10.3 Vanity Number Service

Customers can request/reserve a specific personalized telephone number, other than the telephone number originally offered, if the number is available. The Customer has no proprietary right in the number, and the Company may make such reasonable Changes in the telephone number as the requirements of the service may demand. If the Company finds it necessary to change the Customer's Personalized Telephone Number, the Customer will be allowed to choose another personalized number.

3.10.4 Collocation Space and Charges

The Company offers collocation services to Information Services Providers (ISP). An ISP collocates equipment at the Company's location(s), which is in turn connected to the Company's host switch site for the purpose of transmitting data across a public switched network. These ISPs in turn provide Internet services to end-users that may or may not be customers of the Company.

EXCHANGE ACCESS SERVICE TARIFF

3. SWITCHED ACCESS SERVICES (CONT'D)**3.4 Switched Access Elements**

Following are the rate elements which apply to providing Switched Access Service to the Customer.

- Carrier Common Line (described in 3.4.1 following)
- Local Transport (described in 3.4.3 following)
- Local Switching (described in 3.4.4 following)

3.4.1 Carrier Common Line

Carrier Common Line is a usage-sensitive element that provides for the use of end users' Company-provided common lines by customers for access to such end users to furnish intrastate communications.

3.4.2 RESERVED FOR FUTURE USE**3.4.3 Local Transport**

Local Transport provides for transmission facilities between the Customer's premises or collocated interconnection location and the Company's end office switch(es) where the Customer's traffic is switched to originate or terminate its communications.

For purposes of determining Transport mileage measurement, distance will be measured from the wire center that normally serves the Customer's premises to the terminating end office, which may be a Remote Switching Module(s).

EXCHANGE ACCESS SERVICE TARIFF

4. MISCELLANEOUS SERVICES**4.1 Presubscription**

4.1.1 Presubscription is an arrangement whereby a Customer may select and designate to the Company an interexchange carrier (IC) to access, without dialing an access code, for interLATA interstate calls. This IC is referred to as the Customer's Primary Interexchange Carrier (PIC). The Customer may select as its PIC the Company, or any other IC that orders originating Switched Access Service at the end office that serves the end user. After the Customer's initial selection of a predesignated IC, for any additional change in selection, a non-recurring charge, as set forth in Section 4.1.2.A applies.

4.1.2 At the request of a new or existing Customer served by a Feature Group D end office, the Company will provide a list of ICs the Customer may select as their PIC. At no additional charge for the initial selection, the Customer may choose either of the following options:

- Designate an IC as a PIC and dial 101XXXX to reach other ICs.
- Designate that they do not want to be presubscribed to any IC and choose to dial 101XXXX for all calls to all ICs.

New customers subscribing to the Company's Exchange Access Service who do not specify a PIC will be classified as a "No PIC." Subsequent to the installation of Exchange Access Service, and after the Customer's initial selection of a PIC or their choice to not select a carrier, any additional change in selection will incur a nonrecurring charge set forth in Company's Local tariff. This charge is billed to the Customer that is the subscriber to the Exchange Access Service, or upon request by the designated IC, billed to the IC on behalf of the Customer.

Non-recurring Charge

A. Authorized PIC Change

Customer authorized,
Charged to Customer:

\$ 5.00

4.2 Unauthorized PIC Change

If an IC requests a Primary Interexchange Carrier (PIC) change on behalf of a billed party (e.g., Customer), and the billed party subsequently denies requesting the change, and the IC is unable to substantiate the change; then:
