

Summary of Tour
Labadie Plant in Labadie, MO
Monday, March 7, 2011 at 10:00 a.m.

Meeting with the Missouri Public Service Commission (MPSC) Commissioners, the Office of Public Counsel (OPC), and Department of Natural Resources – Division of Energy (DNR)

Attendees from the Missouri Public Service Commission (MPSC):
Commissioner Robert Kenney
Advisor Janet Wheeler
General Counsel Shelley Bruegemann,

Attendees from the Office of Public Counsel (OPC):
Marc Poston

Attendees from the Department of Natural Resources:
Division of Energy Deputy Director Andrea Kliethermes,

Attendees from Ameren Missouri:
Vice President Mark Birk
Director David Fox,
Manager David Strubberg

Mark Birk welcomed the visitors to the Labadie Coal Plant. He gave a general overview of Labadie stating it began operation in 1970 and currently produces 2,406 MW. It is the largest power plant for the Ameren Missouri system and consists of four low sulfur coal burning steam electric generating units.

A tour of the plant was given and general questions about the plant operations were answered.

The attached 40th anniversary brochure was given to each attendee.
