

**SEMO ELECTRIC COOPERATIVE
RATE SCHEDULE
RATE 32**

APPROVED 10/21/2019

EFFECTIVE 01/01/2020

APPLICABILITY: Large Commercial**AVAILABILITY:** Available to all large commercial consumers that use between 50 and 250 KW. Subject to the Cooperative's established policies and regulations.**TYPE OF SERVICE:** Single Phase and Three Phase, 60 hertz, at available secondary voltages.

RATE:	Daily Grid Charge	\$1.48
	All KWH used	\$0.06487
	Demand Charge	\$9.00 KW

BILLING DEMAND: The billing demand shall be the maximum KWH demand established by the consumer for any period of 15 consecutive minutes during the month for which the bill is rendered, as recorded or indicated by a demand meter and adjusted for power factor as provided hereafter.**MINIMUM CHARGE:** The minimum monthly charge under the above rate(s) shall be the consumer availability charge plus the demand charge plus all applicable taxes, or the minimum monthly charge established in an "Agreement for Purchase of Power," WHICHEVER IS LARGER.**POWER FACTOR ADJUSTMENT:**

The consumer agrees to maintain unity power factor as nearly as practicable. Demand charges may be adjusted to correct for peak load power factors lower than ninety percent (90%). Such adjustments will be made by increasing the measured demand one percent (1%) for each 1% by which the peak load power factor is less than ninety percent (90%) lagging.

CONTINUITY OF SERVICE:

The Cooperative shall use reasonable diligence to provide a constant and uninterrupted supply of electric power and energy, but if such supply shall fail or be interrupted, or become defective through Act of God, or the public enemy, or by accident, strikes, labor troubles, or by action of the elements, or inability to secure Right-of-Way, or other permits needed, or for any other cause beyond the reasonable control of the Cooperative, the Cooperative shall not be liable therefore.

This rate schedule supersedes all previous rate schedules concerning the types of service indicated.

By order of the Board of Directors
