Call anyone in Kansas,
Missouri and the United States,
talk as long as you want,
call as frequently as you like

Talk as long as you want. Don't be bound by traditional telephone rate plans that fluctuate by the time of day or day of the week. Instead, pay the same price no matter how often, how long, when or where you call.

And the savings don't stop there. **International calls, Directory Assistance and Operator Services** are billed separately at rates that are competitive with other major carriers.

Call Waiting, Caller ID and Call Waiting ID at no extra charge

Get the most convenient, most popular calling features — Call Waiting, Caller ID and Call Waiting ID — without paying extra charges.

Call Waiting lets you answer a second call when you're on the phone. With the press of a button, put your first caller on hold and connect with the second one.

Caller ID lets you know who is calling before you pick up the phone, so you only answer the calls you choose to.

[Back to Top](#)

Call Waiting ID combines Call Waiting and Caller ID when you're on the phone to show you the name and number of your second caller.

One bill for local and long-distance calls, Cable and High-Speed Internet

One convenient bill, one dependable company. No matter where you call in Kansas, Missouri, and across the United States, you'll pay the same rate each month, so your bill is easy to understand.

And with one bill for Standard Cable, High-Speed Internet, Local and Long-Distance service, if you ever have questions, you know who to call: Time Warner Cable.

Note: Digital Phone does not include back-up power, and in the case of a cordless phone, should there be a power outage, Digital Phone, including the ability to access 911 services will not be available until the power is restored.

Time Warner Cable Kansas City Calling Features

No extra charge!

Digital Phone convenient calling features are easy to use. To learn how, click on the names below.

**Call Waiting****Caller ID****Call Waiting ID**

Call Waiting

When you're on the phone, hear when another caller is trying to reach you.

When a second call comes in, the caller hears normal ringing while you hear a special tone.

To answer a second call:

Press and quickly release the "switchhook" or "flash" button on your phone. While you talk with one caller, the other caller is automatically put on hold. Each conversation is private.

To alternate between calls:

Press and quickly release the "switchhook" or "flash" button again to return to the first call.

To end either call:

Hang up. Your phone will ring right away, and when you answer it, you'll be connected with the other call.

To cancel Call Waiting:

Dial *70, wait for a dial tone and dial your number. You must do this for each call you wish to cancel call waiting for.

Caller ID

See who's calling before you answer the phone.

After the first ring, the name and telephone number of the person calling you automatically appears on your Caller ID screen.

Note:

- If you see "Private" or "P", the caller may have blocked the display of their name and number by pressing *67 before placing the call.
- If you see "unknown name", "unknown number", "out of area" or "O", the caller is in an area that does not support this service.
- You need a Caller ID display telephone or an add-on display to see Caller ID.

Call Waiting ID

When you're on the phone and another call comes in, see who is trying to

reach you.

Combine Caller ID with Call Waiting and take control of your calls. A special tone alerts you when a second call comes in, and you see the name and number of the caller.

UNLIMITED CALLING

No Surprises.
