Fidelity Communication Services I, Inc. - Local Exchange Tariff and Re: **Intrastate Access Tariff**

Dear Mr. Roberts,

Enclosed are the original and five (5) copies of the Fidelity Communication Services I, Inc. ("Fidelity") Local Exchange Tariff, PSC MO. NO. 1 and Intrastate Access Tariff, PSC MO. NO. 2. The proposed effective date for each tariff is June 1, 2000. The tariffs are filed as a result of the certification of Fidelity as a competitive local exchange company in Case No. TA-2000-191 on December 2, 1999. A copy of these tariffs will be made available to all parties of record in this matter who request same. The tariffs filed herewith contain 109 and 17 pages, respectively.

We have enclosed one extra copy of each tariff which we would appreciate being date stamped upon receipt and returned to the undersigned in the envelope provided.

Thank you for your attention to this matter.

Yours very truly,

GREENSFELDER, HEMKER & GALE, P.C.

ACCESS TARIFF CONCURRENCE

Intrastate Access Services

A. Access Tariff Concurrence

Access services are those services which are described in the Access Services Tariff of Fidelity Telephone Company. These services are offered by the Company to intrastate interexchange customers (ICs) in accordance with the rules and regulations specified in the Access Services Tariff of Fidelity Telephone Company except for those items listed in section 5.D. as exceptions and approved by the Missouri Public Service Commission, and in any amendments thereto and authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for access services of Fidelity Telephone Company. Rates for these services are set out in the following pages of this concurrence.

B. Provision of Services

The Company, to the extent that such services are or can be made available with reasonable effort and after provisions have been made for the Company's telephone exchange services, will provide to an intrastate IC, upon reasonable notice, services of the type offered in Fidelity Telephone Company's Access Services Tariff pursuant to the terms and conditions specified therein except for those items listed in section 5.D.as exceptions and at the rates specified in the following pages of this concurrence. The Company's concurrence in Fidelity Telephone Company's Access Services Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company.

Issued: April 3, 2000 Issued By:

John Colbert, Senior Vice President Fidelity Communications Services I, Inc. 64 N. Clark Sullivan, MO 63080

ACCESS TARIFF CONCURRENCE – Continued

Intrastate Access Services - Continued

C. Cancellation Rights

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

D. Exceptions to the Access Services Tariff of the Fidelity Telephone Company

- 1. The Company will not apply provisions of the Minimum Monthly Charge set out in Section 6.5.4 of the Fidelity Telephone Company tariff.
- 2. Switched Access local transport as described in Section 6.1.3(A) of the Fidelity Telephone Company tariff will be distance sensitive for FGC and FGD calls. To determine the mileage to be billed, compute the mileage using the V&H coordinates method, as set forth in the NATIONAL EXCHANGE CARRIER ASSOCIATION TARIFF – WIRE CENTER & INTERCONNECTION INFORMATION. When the calculation results in a fraction of a mile, always round up to the next whole mile before determining the mileage and applying the rates.
- 3. The Company includes nonrecurring (one-time) charges for specific activities in conjunction with the installation of service (to include engineering), changes to an existing Switched Access Arrangement or activation/deactivation of a Carrier Identification Code (CIC).
 - a. Switched Access Ordering charges are associated with the work performed by the Company in connection with the receiving, recording and processing of customer service requests. There are two types of service order charges.
 - 1) Initial Ordering Charge Switched Access

This charge applies on a per Access Service Request (ASR) basis, including requests to add additional lines or trunks to activate an existing trunk as a result of additional trunks or BHMCs ordered for an existing service. Additionally, this would include the activation/deactivation of a Carrier Identification Code (CIC).

2) Subsequent Ordering Charge – Switched Access

This charge applies on a per ASR basis for modifications to an existing service. This would include activities such as:

- Changes and/or additions to end office services optional arrangements (changes in hunt group or screening arrangements).

ACCESS TARIFF CONCURRENCE – Continued

Intrastate Access Services - Continued

- D. Exceptions to the Access Services Tariff of the Fidelity Telephone Company
 - 3, Cont'd
 - a. Cont'd
 - 2) Cont'd
 - The combination or splitting of FGA hunt groups.
 - A move to a new point of termination within the same customer designation location.
 - A change for rating purposes from one type of Transport to another (i.e. Switched to Special).
 - The activation or deactivation of 900 SAC NXX codes on a per tandem level basis.
 - The addition of Calling Party Number (CPN) Parameter, Carrier Selection Parameter, (CSP), and Charge Number (CN) Parameter when ordered subsequent to the provision of SS7 out of band signaling.
 - Changes in FGD switched access and 800 SAC Access signaling from multifrequency address signaling to SS7 out of band signaling.
 - 3) Administrative changes will be made without charge to the customer.

b. Design Change Charge

A design change is any change to a pending ASR or a change to an existing service which requires engineering review or changes. Design changes may include the addition or deletion of End Office service Optional Arrangements or changes in the signaling arrangements associated with the Interface Arrangements. Design changes do not include a change of Switched Access Interface Arrangement or facility type, Interexchange Customer Designated Location, end user premises, end office switch, or Feature Group type. Changes of this nature will require the issuance of a new ASR and the cancellation of the original ASR with the appropriate cancellation charges applied.

The Company will review the requested change, notify the customer whether the change can be accommodated and if a new service date is required. If the customer authorizes the Company to proceed with the design change, a Design Change Charge will apply.

Issued: April 3, 2000 Issued By:

ACCESS TARIFF CONCURRENCE – Continued

Intrastate Access Services – Continued

- D. Exceptions to the Access Services Tariff of the Fidelity Telephone Company
 - 3. Cont'd
 - b. Cont'd

The Design Change Charge will apply on a per ASR per occurrence basis for each request requiring a design change. The Design Change Charge is in addition to any Switched Ordering charges associated with the change requested. When the design change is on a pending ASR, the Initial Ordering Charge – Switched Access will apply. If the design change is to an existing service, the Subsequent Ordering Charge – Switched Access will apply.

- 4. The Company includes nonrecurring (one-time) charges for specific work activity, (i.e., installation of service or change to an existing service). The types of nonrecurring charges that apply for Special Access Service are listed below.
 - a. Special Access Ordering Charges are associated with the work performed by the Company in connection with the receiving, recording and processing of customer service requests. There are two types of service ordering charges.
 - Initial Ordering Charge Special Access, applies on a per Access Service Request (ASR) basis, including those requests to add additional termination to an existing service.
 - Subsequent Ordering Charge Special Access, applies on a per ASR basis for modifications to an existing service. This would include activities such as:
 - Additions of supplemental features and multiplexing arrangements.
 - Changes in the type of transport rate option from Switched to Special transport for the FGA or FGB Switched Access.
 - b. Design Change Charge applies when a customer requests a design change to the service ordered. A design change is any change to a pending ASR for Special Access Service which requires engineering review. Design changes include such things as the addition or deletion of supplemental features of changes in the terminating options. Design changes do not include a change or Interexchange Customer Designated Location (CDL) or end user premises when its serving wire center changes or Special Access service type (e.g., 2-wire to 4wire Voiceband or Voiceband to Program Audio, etc.). Changes of this nature will require the issuance of a new ASR and the cancellation of the original ASR.

.

ACCESS TARIFF CONCURRENCE – Continued

Intrastate Access Services – Continued

- D. Exceptions to the Access Services Tariff of the Fidelity Telephone Company
 - 4. Cont'd
 - b. Cont'd

The Company will review the requested change, notify the customer whether the change scan be accommodated and specify if a new service date is required. If the customer authorizes the Company to proceed with the design change, a Design Change Charge will apply.

The Design Change Charge will apply on a per ASR per occurrence basis, for each ASR requiring a design change.

- 5. Miscellaneous charges Premium charges will apply all day Sunday and on all Telephone Company approved holidays.
- 6. Primary Interexchange Carrier (PIC) Change Charge

A Primary Interexchange Carrier is available for Inter and IntraLata services. The end user customer may choose a carrier for Inter and/or IntraLata MTS services. Should the end user or agent change the carrier of choice, a PIC change charge and the appropriate local tariff service order charges will be applicable. See PIC change charge at Section 6.E.5.

Initial end user and agent selection of a PIC by ballot or appearing on an IC list will not incur a charge. A change of PIC selection prior to the end office conversion will not incur a charge. Notification of a change in a PIC may be coordinated by the end user or agent with either the IC selected or the Company.

Should an end user or agent dispute authorization of the change in PIC assignment and if the IC cannot produce a letter of agency or confirmation from the end user or agent , the IC will be billed a change charge (see Section 6.E.6) for restoring the end user's or agent's prior IC assignment. If the IC produces the letter of agency or confirmation of choice within 15 days of the Company request, the end user or agent will be billed two PIC charges in lieu of charges to the IC. Charges are only applicable if a change in an end user's or agent's IC selection has actually been implemented in the switch.

End users and agents who fail to select an IC will be served by the Company's long distance affiliate.

7. The Company will not apply the CCL additive as set out in section 3.7(E) of the Fidelity Telephone Company tariff.

Effective: June 1, 2000

C. Special Access Service

Rates for Dedicated Access, Private Lines and Centrex services will be determined on an Individual Case Basis (ICB). ICB rates will be structured to recover the Company's cost of providing the services and will be made available to customers in a non-discriminatory manner. Terms of specific ICB contracts will be made available to the Missouri Public Service Commission Staff upon request on a proprietary basis.
