A. Beginning on Page 4, Line 2, of his Direct Testimony, Mr. Bossert states,
"At this time I recommend that KCPL's allocation for the City LIWAP be increased to
** **". The Commission Order in KCPL's last rate case, Case No.
ER-2010-0355 (Commission Order), states that "The Commission determines that
KCP&L and GMO shall: continue their respective low-income weatherization programs
at their current levels of funding" (p. 182, first full paragraph). Earlier in the
Commission Order, the Commission notes on p. 179, that "Staff recommended that
KCP&L and GMO be required to continue to provide annual funding for low income
weatherization programs in the amounts of \$573,888 and \$150,000, respectively."
(emphasis added)

- Q. What portion of the \$573,888 was allocated to KCMO under the KCP&L regulatory plan that was the basis for the \$573,888?
- A. In the KCP&L regulatory plan, Appendix C, ** _____ ** of the \$573,888 was allocated to KCMO for low-income weatherization. In the Staff Report, *Revenue Requirement Cost of Service*, Staff recommended that KCPL continue to fund low income weatherization at \$573,888 annually (Schedule HEW 1) and that the Demand Side Management Advisory Group (DSMAG) be consulted by KCPL in determining the allocation of funds to the weatherization agencies. A revised version of Schedules HEW 1, 2, and 3 are included with this rebuttal testimony as Rebuttal Schedules HEW 1, 2, and 3. The amounts in the Rebuttal Schedules for 2011 and 2012 reflect amounts for low income weatherization provided by KCPL in DR responses to Staff and MDNR.

23 24 Dr. Adam Bickford regarding KCPL Weatherization Program Design and Operation do you wish to address? A. Beginning on page 5, line 24, of his Direct Testimony, Dr. Bickford states that "We are raising our concerns about KCP&L's weatherization program in this case

Weatherization tariff". Dr. Bickford is referring to KCPL tariff sheet No. 43H, Schedule LIW. On page 6, line 8, of his Direct Testimony, Dr. Bickford concludes "Consequently,

because resolution of these issues may require modification of KCP&L's Low-Income

we are asking the Commission to order KCP&L to change its allocation method for

weatherization funds and to allow KCP&L to increase the amount of money collected

from ratepayers to fund its weatherization program to weatherize more homes."

Staff agrees with the recommendation that a new tariff needs to be filed. KCPL never filed a tariff in compliance with the Commission Order in the previous rate case. However, regarding the issue of increased funding, Staff recommends KCPL fund the low income weatherization program annually at the level provided in the Commission Order in KCPL's last rate case, \$573,888. Fully funding and allocating this amount would significantly increase the amount available for low income weatherization. Also, any of the \$573,888 funds not provided to the Weatherization Agencies in a year should be available in subsequent years.

Q. To what other portion of the Direct Testimony submitted by MDNR witness Dr. Bickford regarding the KCPL allocation method of low income weatherization funds does Staff wish to address?

A. Beginning on page 9, line 12, of his Direct Testimony, Dr. Bickford states, "There is no indication that CAAs [community action agencies] are made aware of total amount of money KCP&L has available to distribute." Staff agrees with this observation. KCPL is not operating the low income weatherization program in compliance with the Commission Order in the previous rate case. KCPL did not file a revised Schedule LIW tariff sheet subsequent to the last rate case to establish procedures for the operation of the low income weatherization consistent with the provisions of the Commission Order.

4. STAFF RECOMMENDATION

- Q. What is your recommendation regarding the Direct Testimonies of KCMO witness Douglas L. Bossert and MDNR witness Dr. Bickford?
- A. My recommendation is for the Commission to reiterate and clarify its Order from the previous rate case. This following recommendation modifies the Staff recommendation included in my testimony in the *Staff Report, Revenue Requirement Cost of Service*, filed August 2, 2012. The auditors assigned to this case have verified that KCPL has not included the amount of \$573,888 in revenues used to calculate rates subsequent to the previous rate case (Case No. ER-2010-0355). The unfunded amounts in Schedules HEW 1 and HEW 3 do not represent funds accruing to KCPL, and there is no monetary carryover. Therefore Staff recommends that the Commission Order:
 - 1) KCPL include \$573,888 annually in revenues and rates for low-income weatherization. Any of the \$573,888 funds (plus any interest or return earned thereon) which is not provided to the Weatherization Agencies in a year should be available in subsequent years.

11

- 2) KCPL consult the KCP&L DSM Advisory Group (DSMAG) on the allocation and distribution of low-income weatherization funds;
- 3) KCPL provide quarterly reports to the DSMAG on the allocation and distribution of funds to the KCPL Weatherization Agencies¹;
- 4) As long as the KCPL low-income weatherization program is funded in rates the program should not be included in any subsequent filing under the Missouri Energy Efficiency Investment Act (MEEIA); and
- 5) KCPL file tariff sheets that revise Tariff Sheet Nos. 43H, 43I, 43I.1, and 43I.2 to comply with the Order in from this case.
- Q. Does this conclude your Rebuttal Testimony?
- A. Yes, it does.

¹ These may be submitted in EFIS as a non-case related submission
