November 2, 2011

Missouri Gas Utility, Inc. is required to file tariff sheets in compliance with the order granting the certificate of convenience and necessity in Case No. GA-2012-0044. This filing is to show the rates and conditions under which natural gas service will be offered in the expansion of its Southern Service Area. This expansion was for installations in four sections in Benton County and is surrounded by existing MGU service territory where MGU currently holds a certificate for natural gas service from the Commission.

Changes were made to the following sheets:

| Current Tariff Sheet | New Tariff Sheet | Concerning |
|----------------------------|-----------------------------|-------------------|
| Third Revised Sheet No. 3A | Fourth Revised Sheet No. 3A | Map |
| First Sheet No. 3B | Second Revised Sheet No. 3B | Map |
| Third Revised Sheet No. 4A | Fourth Revised Sheet No. 4A | Legal Description |

With these additions and corrections, MGU believes that the tariff sheets are now complete and correct.

A handwritten signature in blue ink, appearing to read "Tim Johnston", is positioned above the printed name.

Tim Johnston, P.E.
Executive Vice President
Missouri Gas Utility, Inc.
