

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI**

In the Matter of the Application of Confluence Rivers)
Utility Operating Company, Inc., for Certificates of) File Nos. WA-2023-_____
Convenience and Necessity to Provide Water and) SA-2023-_____
Sewer Service in an Area of Lincoln County, Missouri.)

APPLICATION AND MOTION FOR WAIVER

COMES NOW Confluence Rivers Utility Operating Company, Inc. (“Confluence Rivers”) pursuant to Sections 393.170, RSMo, 20 CSR 4240-2.060, 20 CSR 4240-3.305, 20 CSR 4240-3.600, and 20 CSR 4240-4.017, and for its *Application and Motion for Waiver*, states as follows to the Missouri Public Service Commission (“Commission”):

I. Introduction

1. Confluence Rivers is a Missouri corporation with its principal office and place of business at 1630 Des Peres Rd., Suite 140, St. Louis, MO 63131. Confluence Rivers is a Missouri corporation in good standing. A certified copy of Confluence Rivers’ certificate of good standing was filed in File No. WM-2018-0116 and is incorporated herein by reference.

2. Confluence Rivers provides water service to approximately 4,443 customers and sewer service to approximately 4,602 customers in the State of Missouri, pursuant to certificates of convenience and necessity previously granted by the Commission. Confluence Rivers is a “water corporation,” a “sewer corporation,” and a “public utility,” as those terms are defined in Section 386.020, RSMo, and is subject to the jurisdiction and supervision of the Commission as provided by law.

3. Confluence Rivers has no overdue Commission annual reports or assessment fees. There is no pending action or final unsatisfied judgment or decision against Confluence Rivers

from any state or federal agency or court which involves customer service or rates, which action, judgment or decision has occurred within three years of the date of this Application.

4. Communications regarding this application should be addressed to the undersigned counsel and to:

Josiah Cox
Confluence Rivers Utility Operating Company, Inc.
1630 Des Peres Rd., Suite 140
St. Louis, MO 63131
Phone: (314) 380-8544
E-mail: jcox@cswrgroup.com

II. The Proposed Sale Transaction

5. Confluence Rivers proposes to acquire all or substantially all of the water and sewer system assets of the currently unregulated systems of Glenmeadows Water and Sewer LLC. Confluence Rivers seeks Certificates of Convenience and Necessity (“CCN”) to operate the systems and provide service to the public.

6. The Glenmeadows Water and Sewer, LLC (“Glenmeadows”) is a limited liability company formed in 2020 that is active with the Missouri Secretary of State. Glenmeadows provides water and sewer services to approximately 230 customers in Lincoln County, Missouri. There is no other same or similar water or sewer service available in the area served by Glenmeadows.

5. The water system consists of a single deep water well at the northwest corner of the subdivision, just off East State Highway U. The site is equipped with three 11,500-gallon hydropneumatic pressure tanks, which operate at a pressure range between 40 and 60 psi, with an approximate elevation of 610.00 feet. The central tank is equipped with a pressure switch, and the system is pressurized by a 2 HP compressor. Water is drawn from the well using a 60 HP, 380-

gpm capacity Grundfos submersible well pump set approximately 440 feet deep, running on three phase power at 230 Volts with a Franklin motor. The system is currently not equipped with a disinfection process. The well site operates under permit number MO-6031360.

5. The sewer system operates under NPDES Permit number MO-0128171. The existing facility has a design capacity of 80,000 gpd and an annual average daily flow of 37,000 gpd according to the NPDES permit. The subdivision serviced by the plant is fully built out. There is no flow data available for the system, but based on the total number of residential connections, the average daily flow for the Glen Meadows wastewater facility is estimated to be approximately 64,000-81,000 gpd on average.

6. On February 25, 2022, Central States Water Resources, Inc. (“CSWR”) entered into a *Purchase and Sale Agreement* with Glenmeadows. A copy of the *Purchase and Sale Agreement* is attached as **Appendix A-C** and marked Confidential in accordance with Commission Rule 20 CSR 4240-2.135(2)(A)(3) and (6), as it contains market specific information and information representing strategies employed in contract negotiations. CSWR proposes to purchase substantially all the water and sewer system assets of Glenmeadows, as specifically described in, and under the terms and provisions of, the *Purchase and Sale Agreement*.

III. Certificates of Convenience and Necessity

7. Pursuant to Section 7.04 of the *Purchase and Sale Agreement*, CSWR plans to assign its rights under the agreement to Confluence Rivers at closing.

8. Confluence Rivers requests permission, approval and a CCN to construct, install, own, operate, maintain, control and manage water and sewer systems for the public in an area of Lincoln County, Missouri, as an addition to its existing service territories. A legal description of

the area sought to be certificated is attached hereto as **Appendix B**. A map of the area sought to be certificated is attached as **Appendix C**.

9. Attached hereto and marked as **Appendix D-C** is a list of ten residents or landowners within the proposed service area. **Appendix D-C** has been identified as “Confidential” in accordance with Commission Rule 20 CSR 4240-2.135(2)(A)(1), as it contains customer-specific information.

IV. Additional Information

11. Attached hereto and marked as **Appendix E-C** are feasibility studies for the Glenmeadows water and sewer systems for which Confluence Rivers seeks CCNs, including estimates of the number of customers, expenses and revenues during the first three years of operation by Confluence Rivers. **Appendix E-C** has been identified as “Confidential” in accordance with Commission Rule 20 CSR 4240-2.135(2)(A)(3) and (6), as it contains market specific information and information representing strategies employed in contract negotiations. To provide service to the proposed areas, Confluence Rivers will purchase existing water and sewer systems and will not construct systems. Thus, Confluence Rivers asks for a waiver of any requirement to provide plans and specifications related to the construction of the distribution and collection systems.

12. Confluence Rivers is not aware of any franchises or permits from municipalities, counties, or other authorities that would be required in order to provide service in the requested areas.

13. The sale and purchase of the referenced assets should have no impact on the tax revenues of relevant political subdivisions, as Confluence Rivers and the seller are private entities

and their status as taxpaying entities will not change as a result of these transactions.

V. Tariff/Rates

14. Confluence Rivers proposes to adopt the existing rates of Glenmeadows and utilize the rules governing the rendering of service that are currently found in Confluence Rivers' existing PSC MO No. 12 tariff for water and its existing PSC MO No. 13 tariff for sewer, until such time as the rates and rules are modified according to law.

15. The current water rates for Glenmeadows are approximately: \$27.50. The current sewer rates for Glenmeadows are: \$27.50.¹

16. The current rates for these systems do not reflect the current cost of providing service. Additionally, these systems will require investment after the purchase by Confluence Rivers that will necessarily result in a request for a rate increase of some amount.

VI. Public Interest

17. The grant of the requested CCNs (and approval of the underlying transactions) is in the public interest and will result in regulated water and sewer services provided to the current and future residents of these service areas. The systems would be acquired by Confluence Rivers, a Missouri public utility, and be subject to the jurisdiction of the Commission. As it has demonstrated to the Commission in past cases, Confluence Rivers, with the support and assistance of its affiliates, is fully qualified, in all respects, to own and operate the water and sewer systems for which the certificates are sought. Confluence Rivers' successful operation of other water and sewer systems in Missouri demonstrates its ability to provide safe and reliable service to customers and to comply with the Commission's rules, regulations, and decisions governing the ownership

¹ Confluence Rivers understands that the Glenmeadows customers pay a monthly bill of \$55, for water and sewer combined.

and operation of such systems. Confluence Rivers also has the financial strength and resources necessary to make expenditures and investments required to maintain the systems.

VII. Motion for Waiver

18. Commission Rule 20 CSR 4240-4.017(1) requires “[a]ny person that intends to file a case shall file a notice with the secretary of the commission a minimum of sixty (60) days prior to filing such case.” Because it did not file such a notice within the time period prescribed by that rule, Confluence Rivers seeks a waiver of the 60-day pre-filing notice requirement.

19. Under Rule 20 CSR 4240-4.017(1)(D), a waiver of the pre-filing notice requirement may be granted for good cause. In this regard, Confluence Rivers declares, as verified below, that it has had no communication with the Office of the Commission (as defined in 20 CSR 4240-4.015(10)) within the prior 150 days regarding any substantive issue likely to be in this case. Good cause for the requested waiver exists in accordance with Commission Rule 20 CSR 4240-4.017(1)(D) (“Good cause for waiver may include, among other things, a verified declaration from the filing party that it has had no communication with the office of the commission within the prior one hundred fifty (150) days regarding any substantive issue likely to be in the case....”)

20. Therefore, as authorized by Rule 20 CSR 4240-4.017(1)(D), Confluence Rivers moves for a waiver of the 60-day notice requirement and acceptance of this application at this time.

WHEREFORE, for the reasons previously stated, Confluence Rivers respectfully requests the Commission issue an order:

(A) Waiving the 60-day notice requirement of Rule 20 CSR 4240-4.017(1) for good cause shown;

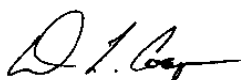

(B) Granting Confluence Rivers a CCN authorizing it to install, acquire, build, construct, own, operate, control, manage, and maintain water and sewer systems for the public

within the specified areas currently served by Glenmeadows Water and Sewer, LLC;

(C) Authorizing Confluence Rivers to acquire the water and sewer system assets of Glenmeadows Water and Sewer, LLC, as described in this Application; and,

(D) Granting such other relief as may be deemed necessary and appropriate to accomplish the purposes of the agreements and the Application and to consummate related transactions in accordance with the agreements.

Respectfully submitted,

Dean L. Cooper MBE #36592
