ORDER SETTING DEADLINE FOR FILING STATUS REPORT

Issue Date: May 25, 2016

Effective Date: May 25, 2016

On May 24, 2016, the Staff of the Missouri Public Service Commission filed *Staff's Status Report* stating that Staff made preliminary observations of Osage Water Company's plant facilities and options to provide service to additional customers. Staff states that Osage Water Company will conduct an investigation to determine the capacity of its facilities to add connections. Once the investigation is complete, Staff states that a report will be issued with recommendations for necessary improvements and cost estimates for those improvements.

Since the investigation is ongoing, Staff recommends the Commission order Osage Water Company to file a status report once the feasibility report is completed. Staff suggests Osage Water Company provide the Commission with a copy of the investigation report, along with the company's plan in response. The Commission finds Staff's recommendation to be reasonable and will direct Osage Water Company to file a status report.

THE COMMISSION ORDERS THAT:

1. No later than August 24, 2016, Osage Water Company shall file a status report with the Commission that provides a copy of the report described in the body of this order and the company's plan of action.
2. This order shall be effective when issued.
