RULES AND REGULATIONS (cont.)

(29) Conversion Rules and Regulations

(a) Definitions

(1) Building Conversion - The placement, connection and testing of interior pipe, fittings, and/or orifice(s) in an existing building from the point of connection to and into a customer unit where propane is used.

(2) Building Installation - The placement, connection and testing of existing or new interior pipe and fittings in an existing building from the point of connection to and into a customer unit where propane is not used.

(3) Commercial Customer - One who uses or will use natural gas in a business establishment for the primary purposes of space heating or cooling, water heating, the operation of appliances, and/or meets the tariff specifications.

(4) Customer Unit - An approved device or appliance designed to consume energy and produce heat according to the manufacturer's design and operating specifications. Approved units are listed in Sheet No. 67.

(5) Industrial Customer - One who uses or will use natural gas in a business establishment for the primary purpose of producing and/or manufacturing a product and meets Large Volume Service (LVS) tariff specifications, including annual usage greater than 150,000 Ccfs (per Tariff Sheet No. 2).

(6) Point of Connection - Generally described as the connection of inside pipe to the service line at a building entrance near the service meter.

(7) Residential Customer - One who uses or will use natural gas for the primary purposes of space heating or cooling, water heating and/or other appliances in a dwelling place.

(8) Upgrade (of Approved Customer Units) - The installation of replacement parts other than those contained in a standard orifice conversion kit.

(9) Large General Service - One who uses or will use natural gas in a business establishment and meets the Large General Service (LGS) tariff specifications, including annual usage of greater than 30,000 Ccfs (per Tariff Sheet No. 2.1).

RULES AND REGULATIONS (cont.)

(b) General Terms

(1) The Company performs building installations and conversions where feasible and only according to local, state and federal codes and regulations. Also, the Company reserves the right to inspect and test all installations and conversions performed by other providers.

(2) Installations and conversions are performed for residential, commercial and industrial customers. Unit conversions are limited to the availability to standard orifice conversion kits and/or to specific qualifications of the Company's personnel. The Company will not convert customer units in any manner that adversely affects the safety of the unit.

(3) When customer units require conversion by certified manufacturer's personnel, the Company will assist such activity whenever possible to provide for safe and timely conversions.

(4) Where feasible, the point of connection (building entrance) will be located near the service meter.

(5) After installation or conversion and connection to the service meter, customers are billed for gas usage according to the rates and regulations specified in the tariff.

(c) Charges

(1) Installations and unit conversions (including pipe, fittings, standard orifice kits and labor) requested by the residential and commercial customer are billed at "no charge" under certain conditions and as specified on Sheet 65.

(2) Installations and unit conversions (including pipe, fittings, standard orifice kits and labor) requested by industrial customers are billed according to charges specified on Sheet No. 66.

RULES AND REGULATIONS (cont.)

(a) During distribution line construction, the Company will notify potential customers (building owners) of the availability of natural gas service. To become eligible for a no charge conversion, potential customers must sign a service order, requesting conversion or installation of approved units, as specified on Sheet 67.

(b) No-charge installations and conversions for residential and commercial customers are limited to those for which Company expenditures will be less than \$200.00 in total (per customer) for labor, pipe, fittings, appliance regulators, standard orifice conversion kits and all other necessary materials for approved units.

(c) No-charge installations and conversions for single family buildings are limited to one occupied building for each building lot.

(d) The building owner of multi-family dwellings will be responsible for notifying occupants of the conversion or installation.

(e) Installation and conversion costs (for approved units) in excess of \$200.00 for residential and commercial customers may be performed by the Company at its sole election and, if so performed, will be recovered by the Company via a pro rata monthly charge added to the customer's monthly gas bill for a period of up to 24 months.

(3) Where conditions are feasible and qualified personnel are available, the Company may install concealed piping, additional piping and special conversion kits. Under these circumstances, customers will be billed according to labor rate and other charges specified on Sheet No. 66.

RULES AND REGULATIONS (cont.)

Typically, the Company will adjust the average billing during the fourth and eighth months of each twelve month period under the Plan, if the recalculated average payment amount reflects an increase of \$5.00 or more. Settlement of accounts will occur when participation in the Plan is terminated. No interest shall be due from or payable to the customer on the difference between actual and average usage.

(37) Promotional Practices

In compliance with rules prescribed by 4 CSR 240-14.010(1), a schedule is herein set forth prescribing all promotional practices being engaged in by the utility as of the effective date which are not in violation of 4 CSR 240-14.

Conversion Policy

A variance to 4 CSR 240-14.020(5) was granted by the Missouri Public Service Commission in Case No. GR-94-127, and extended in Case No. G0-98-172. This promotional practice is being provided on a uniform basis to the residential and commercial classes of customers as described in the terms and conditions contained in Section 29 - Free Conversion Rules and Regulations of Southern Missouri's Natural Gas Tariff Number 1.

The purpose of this promotional practice is to encourage the connection of more customers, some of whom may not be able to afford the conversion, and should result in safer, more cost-saving construction and lower rates to all customers. This promotional practice is provided by the Company pursuant to its Tariff Sheets No 63-67.

The program will conclude on December 31, 2009, unless it is extended by the Company before that date.
