Selecting Your Local Telephone Company

Customers now have choices for local telephone service. New state and federal laws allow companies to compete to be your provider of local telephone service. This is a natural progression of competition that began several years ago. In addition to existing local telephone companies, the following companies have received authorization from the Kansas Corporation Commission, or have authorization pending, to provide local service in your area and requested that their listings appear in this SBC Kansas directory. Consult the white or yellow pages for additional information.

Purchasing local service from one of these companies does not require a customer to purchase terminal equipment or long distance service from the same company. Discounted local service rates (Kansas Lifeline Service) are available to qualified low-income households from any of these companies offering residential service.
