**Re: SBC's Material Data Requests to Missouri CLECs; Case No. TO-2004-0207**

Mr. Gryzmala,

Please be advised that we have received your data request in the above mentioned case currently pending in the state of Missouri. Although CCC has a CLEC certificate in Missouri, it was only granted less than six months ago, and CCC's presence is so de minimus, 114 local lines as of October 30, 2003, that it cannot provide any relevant information to the Commission. Further, CCC does not have any switching, transport or loop facilities in Missouri that could either be used by itself or by another carrier to provide local services. As such, CCC has no information which would assist SBC and will not be providing any responses.

This letter is also to serve as notice that CCC has no intention of participating in the above listed Case. If you have any questions regarding this matter, please feel free to contact me at your earliest convenience.

Very truly yours,

Robert A. Bye  
General Counsel
