

MO.P.S.C. SCHEDULE NO. 5 1st Revised SHEET NO. 122.14CANCELLING MO.P.S.C. SCHEDULE NO. 5 Original SHEET NO. 122.14APPLYING TO MISSOURI SERVICE AREA**Rider SR - Solar Rebate (SUSPENDED DUE TO COURT ORDER)**

* This Rider SR is suspended because of the June 29, 2011 Judgment of the Circuit Court of Cole County, Missouri in Consolidated Case Nos. 10AC-CC00512, 10AC-CC000513, 10AC-CC00528 and 10AC-CC00536, which declared that the solar rebate provisions of Section 393.1030 are unconstitutional. Consequently, solar rebates are not available to customers at this time. If the customer was notified by Company prior to June 29, 2011, of the approval of the solar system design submitted with the customer's net metering application, and otherwise meets all conditions necessary to receive payment of a solar rebate under this rider, then said customer will receive the solar rebate due for the customer's qualifying solar system; customers who were not so notified by Company prior to that date will not receive a solar rebate.

Purpose

The purpose of the Solar Rebate Rider is to implement the solar rebate established through §393.1030 RSMo and to establish the terms, conditions and procedures which Company will rely on in accepting rebate applications and authorizing rebate checks to eligible participants.

Availability

All retail customers of Company are eligible for the rebate with the following limitations and conditions:

- The retail customer must be an active account on the Company's utility system and in good payment standing.
- The solar electric system must be permanently installed on the retail customer's premise.
- The retail customer must declare the installed solar electric system will remain in place on the account holder's premise for the duration of its useful life which shall be deemed to be a minimum of ten (10) years.
- The solar modules and inverters shall be new equipment and include a manufacturers warranty of ten (10) years.
- The maximum rebate for each premise is \$50,000 irrespective of the number of meters/service points serving the premise.
- The solar electric system or expansion of an existing solar electric system must not become operational until after December 31, 2009. Company will not accept any applications for rebates until January 1, 2010.
- The solar electric system shall meet all requirements of 4 CSR 240-20.065 and Company's "Electric Power Purchases from Qualified Net Metering Units" tariff.

Rebate Application

Company will not accept rebate applications which are incomplete or which are not accompanied by or preceded by an "Interconnection Application/Agreement for Net Metering Systems with a capacity of 100 kW or less". Both the Rebate Application and the Net Metering Application/Agreement can be obtained from Company's web site www.ameren.com.

Customer will be notified in writing, by letter or email, that the rebate application 1) has been accepted or 2) notified of the deficiency resulting in the rebate application not being accepted. Applications accepted by Company will expire after twelve (12) months if the customer has not satisfied the terms of Company's "Electric Power Purchases from Qualified Net Metering Units" tariff or if the solar electric system has not become operational.

*Indicates Addition.

ELECTRIC SERVICE

MO.P.S.C. SCHEDULE NO. 5 1st Revised SHEET NO. 122.15CANCELLING MO.P.S.C. SCHEDULE NO. 5 Original SHEET NO. 122.15APPLYING TO MISSOURI SERVICE AREA**Rider SR - Solar Rebate (cont.)**
(SUSPENDED DUE TO COURT ORDER)Rebate Payment

The amount of the rebate will be \$2.00 multiplied by the combined DC rating of the solar module(s) in Watts from the manufacturer's specification sheet(s).

A rebate payment will not be issued until:

- 1) an Interconnection Application/Agreement for Net Metering Systems with Capacity of 100 kW or Less has been executed by the customer and Company,
- 2) a complete Missouri Solar Electric Rebate Application has been accepted by Company and
- 3) the solar electric system is operational.

Suspension of Rebate Payment

In certain circumstances, Company may be limited in the total amount of rebates that can be issued in a given year in order to comply with the provision of §393.1030 RSMo which limits the retail rate impact resulting from the statute. In the event that Rebate Payments are suspended in a particular year, Company will notify each affected rebate applicant. The accepted but suspended Rebate Applications will be processed in chronological order based on the date the solar electric system became operational.

Solar Renewable Energy Credits (SREC's)

Customer retains ownership of all SREC's created by the operation of the solar electric system.
