Re: Case No. TO-2004-0207 In the Matter of a Commission Inquiry into the Possibility of
Impairment without Unbundled Local Circuit Switching When Serving the Mass Market

Dear Secretary Roberts:

U. S. TelePacific Corp. dba TelePacific Communications has just received the Commission's Order in the referenced Case. Although the company is a certificated competitive local exchange carrier in Missouri it is not operating and has no equipment or facilities and no customers in Missouri. The Company has no schedule at this time for the provision of local exchange service in the State. Consequently, the Company requests that it be allowed to withdraw as a party to this proceeding and relieved of any obligation to respond to current and any future data requests so that it can focus its resources on responding to similar requests in the states in which it is operating. In the alternative, if the Commission determines that the Company must remain a party to this proceeding, the Company would like this letter to serve as a response to any and all data requests in this proceeding.

Please advise me as soon as possible of the disposition of this request. I can be reached at telephone number 213-213-3288 or via e-mail to jdelahanty@telepacific.com.

Very truly yours,

Jane Z. Delahanty
Assistant Vice President, Regulatory Affairs
