Subject: RE: MAWC
Importance: High

This is a problem. All the information that has been reviewed is about Am. Water corporate in N.J. There is no listing of the salaries of the Mo. American Water Co. officers. This is info that they always use to provide in the past. They also use to release the salaries of all employees who made over 50,000. This information is relevant only to a point. We need the MO information too.

Janson-

I just quickly looked at the SEC filing with the AWC information. I thought you guys wanted Missouri specific information. I don't see anything other than AWC's top 5 execs. Is that acceptable?
