Subject: Pleading to Reject Application for Certification
Of Big Island Water and Sewer Company
Reference: Case NO. WC-2006- 0082
Attention: Honorable Colleen Dale
Secretary Chief Regulatory Law Judge

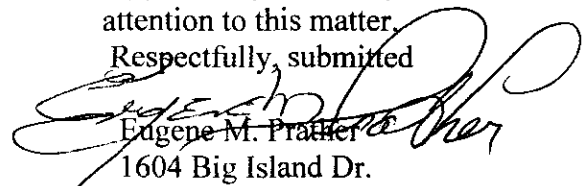

FILED

AUG 21 2006

Missouri Public
Service Commission

I the following interveners in the referenced case, respectively submit this pleading to reject the application for certification of Big Island Water and Sewer Company to construct, install, own, operate, control, manage and maintain a water and sewer system located in an unincorporated area, known as Big-Island, in Camden, County Missouri. My pleading is supported by previous submittals of documentation showing citations that required rework of construction, improper installation of both water and sewer lines, unauthorized operation of utility system, and changes in provided agreements with home owners for solicitation of funds. Further, if the application for certification is approved it appears that a conflict of interest would exist due to the water and sewer systems and the real estate developments being controlled by the same principles. I respectfully request that this pleading be granted and that receivership be appointed to an independent that will provide for operation of the water and sewer systems under the guidelines of the Public Service Commission.

I appreciate your timely
attention to this matter.
Respectfully, submitted

Eugene M. Pratter
