Missouri Public  
Service Commission

TO: PSC

FROM: Cindy Collier *C. Collier*  
Alderman, City of Brunswick, MO

DATE: March 30, 2010

RE: MO-AWC Rate Increase Request

Please accept the following petitions in protest of the most recent request for MO-AWC rates.

The simple fact is MO-AWC may be eligible for said rate increase, but the residents of Brunswick, MO cannot afford the rate increase in particular our senior citizens who have a fixed income.

The City of Brunswick would lose water company customers because of its high cost plus its poor quality.

Witness Exhibit No. 1  
Date 3-30-10 Reporter ST  
File No. WR-2010-0131

We, the undersigned customers of the MO-American Water Co., Brunswick, MO, are strongly opposed to the recently requested rate increase submitted to the Public Service Commission.

Does each district submit a budget each year?  
If so, how much is allocated for maintenance & repair in the Brunswick district?

One of the representatives stated each district stands alone financially, meaning income doesn't go to finance other districts & visa versa.

If so is this district financially sound?

418 customers ave. 65<sup>¢</sup>/mo. x 12 mo. = \$321,040/yr.  
(stated by President)

(Engineering)

A Rep. stated they spent \$600,000 on improvements last year alone. Is this district bankrupt?

Did they have this amount in the budget, if not, where did the funds come from? Other districts? Profits from past years.

36% increase in 2008, now 27% increase asked for in 2010.  
(Requested in Oct. 2009) decision in 11 Mar. (by Sept 2010)

Is each district required to be audited each year?

Does this district have grant reserves?

Is District 13 (Brunswick) required to present financial records to substantiate (ie. Budget, <sup>and actual</sup> repair <sup>and maintenance</sup> costs)?

Can they produce cost of production / gal.

Analogy - a teenager has car, gets his parents always pay for fixing. He has part job, new hub caps, motor overhaul. Doesn't worry about price or paying, because his parents always come thru.

@collage

PSC meets in Warrensburg March 30, (6:00)  
Mexico - April 5 30 min. consult  
(community center w/telecom)

PSC - Mo. 900

Filed for increase in Oct. 09' (will be granted in 11 mos)  
Asking for 27% - State for resale - 20% decrease  
Last increase was Nov. 08' = 36%

This District can purchase H<sub>2</sub>O from another supplier,  
3<sup>02</sup> or less / 1000 gal. for an outlay of \$600-\$700,000 from  
Carroll County.

as much  
They then won't need maintenance on pumps, use only  
for emergency (Cost savings)!

Then Rural customers can be regained with  
good quality and competitive prices, 420 customers

City has 418 customers,

It seems Mo. American should seek grant funds  
to purchase H<sub>2</sub>O from Carroll County and decrease Bruns.  
water bills substantially.
