Subject: Comments on the RES workshop

Dear Mike Taylor,

Please find the comments of the Vote Solar Initiative on the most recent draft of the Renewable Energy Standard proposed rule. Vote Solar is a non-profit organization with members throughout Missouri and the U.S. We have been involved with solar and RES design for over eight years in many states. We have been asked by our members in Missouri to offer our expertise and offer comments on the rulemaking process. I am pleased to have this opportunity to provide comments. I also offer any assistance I can to you or your staff with data analysis or modeling.

Best regards,
Claudia Eyzaguirre
