COMES NOW the Staff of the Missouri Public Service Commission, on behalf of all parties to the case, and states:

1. On October 11, 2006, the Commission issued an Order Adopting Procedural Schedule which, *inter alia*, directs the parties to file no later than February 22, 2007, a List of Issues and Order of Opening Statements, Witnesses and Cross-Examination.

2. The parties propose the following issue:

Section 392.245.5 (6) RSMo 2005 Supp. provides that the Commission shall, at least every two years, or where an incumbent local exchange telecommunications company increases rates for basic local telecommunications services in an exchange classified as competitive, review those exchanges where an incumbent local exchange carrier's services have been classified as competitive, to determine if the conditions of this subsection for competitive classification continue to exist in the exchange and if the commission determines, after hearing, that such conditions no longer exist for the incumbent local exchange telecommunications company in such exchange, it shall re-impose price cap regulation upon the incumbent local exchange telecommunications company, in such exchange. Do the conditions for competitive classification continue to exist in AT&T Missouri's competitively classified exchanges?
