Case No. WR-2007-0216, et al.

NOTICE REGARDING ISSUES LIST

Issue Date: September 5, 2007

On August 30, 2007, in response to a joint request by the parties, the Commission amended the issue list in this matter. On September 4, the Utility Workers of America Local 335, AFL-CIO ("Local 335") advised the Commission that they had not joined in the request to amend the issues list and consider three issues it raised during the course of this proceeding to be live issues in addition to the currently modified issues list. Those issues are: (1) whether MAWC has provided adequate training of its employees in dealing with asbestos-cement and lead-jointed pipe; (2) whether funds should be allocated to employee training or the removal of asbestos-cement and lead-jointed pipe; and (3) whether MAWC has properly asserted privilege with regard to payroll information. Local 335 reiterates that it does not oppose the Non-Unanimous Stipulation and Agreement filed by the majority of the parties to this action, and acknowledges that any consideration of these issues may not be outcome determinative in this matter.

While the Commission has amended the issues list, it notes that Local 335 is correct in its assertion that it did not join the joint motion for its amendment. The Commission

advises the parties that it will consider all record evidence on the issues identified by Local 335 when issuing its decision in this matter.
