Request for Authority to Implement A General Rate     )  
Increase for Water and Sewer Service Provided in     )  
Missouri Service Areas     )     **File No. WR-2011-0337**

**NOTICE REGARDING DISCOVERY CONFERENCE**

Issue Date: August 29, 2011

On August 29, 2011, the Commission convened a discovery conference and took record entries of appearance. After the brief on-the-record portion of the conference concluded, it was brought to the attention of the Regulatory Law Judge that several parties had wished to attend by phone, two of which had established a connection with the Commission's phone bridge. The connection was then established with the other parties in attendance at the Commission; however, the parties on the phone were unable to formally enter their appearances while the court reporter was present. Consequently, the Commission gives notice that in addition to the appearances that will be listed in the transcript from this proceeding, AG Processing, Inc. and the Missouri Industrial Energy Consumers appeared by phone. Additionally BJC HealthCare and the City of Riverside Missouri contacted the RLJ and reported that they had attempted to use the phone bridge but were unable to secure a connection. Again, the Commission gives notice of their appearance for the purpose of addressing discovery issues. All of these parties informed the RLJ that they have no current discovery issues in this matter.
