Velocity The Greatest Phone Company Ever, Inc. ("Applicant" or "Velocity"), a Delaware Corporation, hereby amends its verified application for certification, respectfully requesting that the Missouri Public Service Commission ("Commission") include among the relief granted pursuant to the application a certificate of service authority to provide nonswitched local exchange service. In support of the Amendment, Velocity states the following:

1. Velocity filed its application on October 13, 2009. Upon review of the application, the Commission's Staff called to Velocity's attention the absence of a request for certification to provide nonswitched local exchange service pursuant to Ch. 392.410.1 and .430, RSMo, and 4 CSR 240-3.510. Velocity hereby amends and supplements its application to request such certification.

2. In so amending its application, Velocity incorporates the material provided in the application to demonstrate that Velocity has the technical, managerial, and financial resources to provide nonswitched local exchange services in a reliable and efficient manner.

Wherefore, Velocity amends its application to request certification to provide nonswitched local exchange service, in addition to all other relief requested in the that application.

**Respectfully submitted,**
