AFFIDAVIT OF EASLEY FAMILY TRUST  
LEROY EASLEY MANAGER

STATE OF MISSOURI )  
COUNTY OF HOX ) ss.

LEROY EASLEY, first being duly sworn, on his/her oath states:

1) I am the MANAGER, Renter of property located at

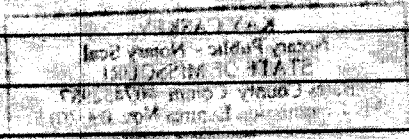

Parcel 1 T61-13-36  
Parcel 2 T60-R12-514 Mauck;

2) I engage in the following agricultural and/or ranching practices on this property:

Parcel 1 Row CRP BEANS.  
WATERWAYS

Depending on final placement of poles, they could be on part that is forest.

Parcel 2 Row crop soybeans

3) If approved, the transmission line route as currently proposed in this case will enter upon the property used for agricultural and/or ranching practices;

4) If approved, the transmission line will infringe upon my ability to engage in agricultural and/or ranching practices on the property described above by:

Parcel #1  
+ #2

The line will make it hard to maneuver around poles in field. It will take extra time and money also.

Laura Eudy  
Signature of Affiant

Subscribed and sworn to before me this 24 day of September, 2015.

Maintain and Otherwise Control and Manage a )  
345,000-volt Electric Transmission Line from Palmyra, )  
Missouri, to the Iowa Border and Associated Substation )  
near Kirksville, Missouri. )

AFFIDAVIT OF Nancy J. Rainey, Trustee  
of Nancy Jean Rainey Living Revocable Trust

STATE OF ~~MISSOURI~~ Oklahoma )  
COUNTY OF Cleveland ) ss.

\_\_\_\_\_, first being duly sworn, on his/her oath states:

1) I am the OWNER of property located at

Sec. 31 Twp. 60 Rng. 11

Map: 15-09.0-00-00 031.007.00.000

2) I engage in the following agricultural and/or ranching practices on this

property:

I cash rent to a tenant for row crop farming.

Large pieces of farm machinery, such as corn pickers, combines, etc. would have a difficult time maneuvering around all the towers, lines, and poles if the transmission lines should go through.

The transmission lines would greatly hinder the application of fertilizer, lime, chemicals, herbicides and insecticides, and even moraso, if guided by G.P.S. equipment.

Any aerial application of fertilizer, pesticides, or crop dusting would not be feasible with the transmission lines and towers and poles.

→ farming operation, but to all future years-from now to eternity.

the beauty of the rural landscape would be ruined. The project lines would be most disastrous to not only my present PERMANENT DAMAGE to not only my farming operation, but to COUNTLESS OTHER FAMILY FARM OPERATIONS!

- 3) If approved, the transmission line route as currently proposed in this case will enter upon the property used for agricultural and/or ranching practices;
- 4) If approved, the transmission line will infringe upon my ability to engage in agricultural and/or ranching practices on the property described above by:

I am the landowner and I rent my land to a tenant for rowcrop farming.

If approved, the transmission line route, as currently proposed, would go diagonally across my land and would be most detrimental to my farming operation.

The number of tillable acres would be greatly reduced. The line would cause my property value to drop immensely!

The line would permanently reduce the amount of income.

The historical nature of my land, which is a Centennial Farm, and a non-replaceable piece of history, would be totally decimated if the transmission line goes diagonally across my land.

The line would interfere with plans of ever putting any improvements on the land in the future. It would also interfere with any recreational use of the land in the future.

The transmission line would pose a potential health hazard for humans, livestock, and wildlife.

Nancy Jean Rainey, Trustee  
Signature of Affiant

Subscribed and sworn to before me this 25<sup>th</sup> day of September, 2015.

Maggie Fitzgerald  
Notary Public

\* There are other damages to the enjoyment of my property and to the income from my property which are not listed herein.

AFFIDAVIT OF Glenn Head

STATE OF MISSOURI )  
COUNTY OF Shelby ) ss.

Glenn Head, first being duly sworn, on his/her oath states:

1) I am the OWNER of property located at WEST OF NOVELTY,

2) I engage in the following agricultural and/or ranching practices on this property:

ROW CROP  
COW CALF OPERATION

3) If approved, the transmission line route as currently proposed in this case will enter upon the property used for agricultural and/or ranching practices;

4) If approved, the transmission line will infringe upon my ability to engage in agricultural and/or ranching practices on the property described above by:

I will lose income on rented ground as it will be worth less per acre.

The lines will directly interfere with my cow calf operation. My BUM advised that the electrical lines will cause cows to produce less milk and be less likely to reproduce. (Having calves every year)

I have tentative plans for a crop dusting operation and it would be hazardous for planes to fly over or under electrical lines.

My renter has advised me that these lines will interfere with his expensive GPS equipment.

Alan Head  
Signature of Affiant

Subscribed and sworn to before me this 24th day of September, 2015.

AFFIDAVIT OF GERALD J PERRY

STATE OF MISSOURI )  
COUNTY OF KNOX ) ss.

GERALD J PERRY, first being duly sworn, on his/her oath states:

1) I am the owner of property located at  
Section 24 Knox Co MO T100-R12-S24  
Salt River Township

2) I engage in the following agricultural and/or ranching practices on this property:  
Raiscorn & Soybeans  
wild life hunting

3) If approved, the transmission line route as currently proposed in this case will enter upon the property used for agricultural and/or ranching practices;

4) If approved, the transmission line will infringe upon my ability to engage in agricultural and/or ranching practices on the property described above by:

The power transmission lines will interfere with the activities on the property by:

Poles impeding with equipment and access.

Compaction from installation will inhibit crop and beneficial plant growth.

EMF will interfere with GPS guided/controlled equipment used by my son and custom applicators.

The right of way will unnecessarily destroy habitat for deer and small game.

The power line will also interfere with cell phone communications that are vital for hunting safety, farm communication & safety.
