AFFIDAVIT OF Raven R. Weaver

STATE OF MISSOURI

COUNTY OF Schuylers

)
) ss.
)

Raven Weaver, first being duly sworn, on his/her oath states:

1) I am the owner of property located at T-666-N
R-15-16-W
with parcel number(s) _____:

2) I engage in the following agricultural and/or ranching practices on this property:

Our family has a cow-calf operation.
We currently own about 150 cows that
are in production. My husband currently
came in to his father's operation. They
currently own 350 cows with that
operation. Both calf-calf operations are
wanting to increase their herd

Attachment D-1

3) If approved, the transmission line route as currently proposed in this case will enter upon my property used for agricultural and/or ranching practices;

4) If approved, the transmission line will infringe upon my ability to engage in agricultural and/or ranching practices on my property described above by:

The ATXI transmission line goes over our working facilities for our cow-calf operation, which is ALL PIPE Corral. It would also affect the operation I am involved in with my father-in-law as well. This would affect the feeding lot, calving barn, & grazing practices. They would also have to ground our waters as well as pipe fences.

My husband & his family have worked very hard in the cattle business as well as to be good stewards of the land. If this line goes through it would be detrimental to our cow/calf operation. Proven statistics show the breed back of cows & milk production would be affected. This is how our family makes a living.

AFFIDAVIT OF Joshua J. Weaver

STATE OF MISSOURI)
COUNTY OF Schuyler) ss.

Joshua J. Weaver, first being duly sworn, on his/her oath states:

1) I am the owner of property located at T-66-N R-15-16-62

2) I engage in the following agricultural and/or ranching practices on this property:

I have a cow-calf operation. Presently I have 150 cows in production. Also I recently came into my Father's operation which we currently run 350 cows which we want to increase to 425 cows.

D-3

3) If approved, the transmission line route as currently proposed in this case will enter upon the property used for agricultural and/or ranching practices;

4) If approved, the transmission line will infringe upon my ability to engage in agricultural and/or ranching practices on the property described above by:

The ATXL transmission line goes over our working facilities for our cow-calf operation, which is all pipe corral. It also would affect the operation I am involved in with my father as well. This would affect our feeding lot, calving barn, and grazing practices. We would have to ground our waterers as well as pipe fences.

My family and I have worked very hard in the cattle business as well as to be good stewards of the land. If this line goes through it would be detrimental to our cow/calf operation. Proven statistics show that breed back of cows and milk production would be affected. This is how we make our living and the financial results could be disastrous!

File No. EA-2015-0146

AFFIDAVIT OF Johns Joint Living Trust

STATE OF MISSOURI

COUNTY OF Schuyler

ss.

WJ Johns, first being duly sworn, on his/her oath states:

1) I am the Trustee of property located at
T-65-N, R-17-15-W Sec 31

2) I engage in the following agricultural and/or ranching practices on this property:

Our farm is now cropped with Corn, Soybeans, wheat & hay by a renter, Mr. Kevin King. On this farm he uses GPS & precision farming practices for application of chemicals, fertilizer, & seed. He also plants corn with this kind of equipment. There are metal fences, gates, and electric fences, some that will run parallel to the proposed lines. There have been two proposed paths on this farm for the line. One path takes the line less than 120 feet from the 2 story farm home, the other path parallels the west property line running over CRP ground, Terraces in a field and a large pond used for both water & recreation.

There are 3 tracts of CRP on the farm, the last running into the year 2023.

3) If approved, the transmission line route as currently proposed in this case will enter upon my property used for agricultural and/or ranching practices;

4) If approved, the transmission line will infringe upon my ability to engage in agricultural and/or ranching practices on my property described above by:

My renter & I are concerned about using GPS and Precision Farming equipment around these lines. Tall Equipment under the line has 4 wheel drive tractors & large combines are also a big concern. Custom applicators and aerial applicators are heavy of high voltage lines.

We are very concerned about the farm house & out building not having up to date wiring as they are older buildings that may not be up to today's codes & expensive to change.

We worry also about livestock waters & fencing that could have electrical fields that shock or adversely affect cattle & other animals.

Our renters believes rent may have to be lowered because of field access, possibly not being able to navigate around the metal poles. We also know that completion from large construction equipment & concrete trucks will greatly effect tillage & crop production for a long time in the future.

We have already lost income from renting our farm house. When my son found out that the line might come within 115 ft of the house, he & his wife & 4 year old daughter purchased a home in Kirksville, Mo. They have wanted to buy a parcel of land from the Terriand build a new home with, but possibility of child hood cancer, esp. Leukemia, changed their mind. We feel strongly that all these reasons and many more may drop the value of our over 50 year family farm by 20% to 30% or more. Please consider carefully if this transmission line, with its tax if any benefits to Missouri, is worth the good people of P&H Missouri. Farmers & land owner & home owners.

W R Johnson, Trustee

File No. EA-2015-0146

AFFIDAVIT OF Kevin E Kling

STATE OF MISSOURI

COUNTY OF Adair

ss.

Kevin E Kling, first being duly sworn, on his/her oath states:

1) I am the owner of property located at

28686 state HWY A Greenup, Mo. 63546
T-63-64-N R-14-W Section 19

2) I engage in the following agricultural and/or ranching practices on this property:

I am the renter of these properties - Roger
Billington, Adair County T-63-64-N, R-14-W, section 30,
Shanna Myers Schuyler County T-64-N, R-14-15-W
sections Land 6, Johns Joint Living Trust, Schuyler
County, T-65-N, R-14-15-W, Section 31,

On these farms I use GPS and precision
farming practices for the application of chemical,
fertilizer, and seed, either using my own equip-
ment or hiring custom applicators. Electric
fencing is used for livestock control,

3) If approved, the transmission line route as currently proposed in this case will enter upon my property used for agricultural and/or ranching practices;

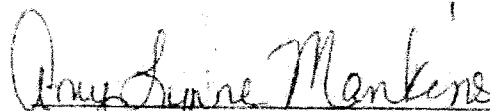

4) If approved, the transmission line will infringe upon my ability to engage in agricultural and/or ranching practices on my property described above by:

Land values will decrease, aerial applications of fields will not be possible, the use of GPS and precision farming equipment will not be possible, electric fencing cannot be used, one field on the Myers rental property will be useless and will result in a loss of income for the owner and me, future building of grain bins or farm structures will not be possible, I am very concerned about the health risks for my family and me.

AFFIDAVIT OF Patrick E. Weaver

STATE OF MISSOURI)
COUNTY OF Schuyler) ss.

Patrick E. Weaver, first being duly sworn, on his/her oath states:

1) I am the owner of property located at 15282 Weaver Ave. Gledwood, Mo 63541

with parcel number(s) T-66-N R-15-16-W Section 16-17-19-20-21-30

2) I engage in the following agricultural and/or ranching practices on this property:

Own and operate a 350 Head Cow calf operation with expansion goal of 425 Head.

_____;

3) If approved, the transmission line route as currently proposed in this case will enter upon my property used for agricultural and/or ranching practices;

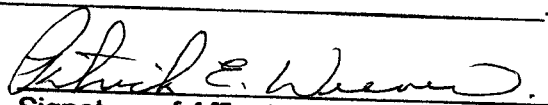

4) If approved, the transmission line will infringe upon my ability to engage in agricultural and/or ranching practices on my property described above by:

The proposed 345,000 volt line with option of going to 700,000 volts will run through the calving pasture which will affect the calving barn, feed lot and "Our Home".

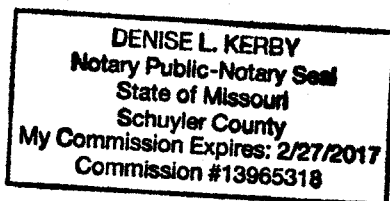

All buildings, four cattle waterers, all pipe fences, conventional fences and electric fences will have to be special grounded to code for stray voltage.

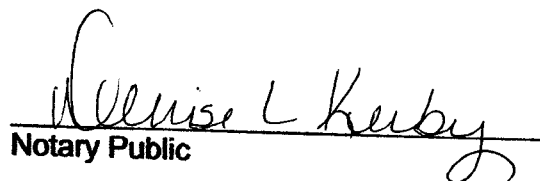

We will have to be near this proposed line 24 hours per day. This could affect not only our health but the health of our children, grand-children and neighbors.

The financial loss of our cattle operation could be devastating but how can you put a price on someone's health?

AFFIDAVIT OF John Robert Dodson

STATE OF MISSOURI)
COUNTY OF Schuyler) ss.

John Robert Dodson, first being duly sworn, on his/her oath states:

1) I am the owner of property located at Hwy 136/63 SW & Hwy 63/MACOMBEROSA DR LANCASTER, MO. 63548 with parcel number(s) 6-8.0-27-000-000-5.0 68.0-34-000-000-1.0

2) I engage in the following agricultural and/or ranching practices on this property:

- CRP
- pastureland leased to tenant

3) If approved, the transmission line route as currently proposed in this case will enter upon my property used for agricultural and/or ranching practices;

4) If approved, the transmission line will infringe upon my ability to engage in agricultural and/or ranching practices on my property described above by:

THE larger portion of my ground affected is in the ERP program. The line plans to run diagonally across this area. It would be impossible during construction to access the line without causing damage to the entire ERP section of ground. In addition, no one has been able to tell us how our government contract would be impacted if this line is allowed to cross this property.

I have a farm lease on the pastureland. My renter grazes and breeds livestock. I have read studies that suggest exposure to high voltages could cause behavioral issues in cattle and negatively affect breeding practices. During the construction process, where is my renter supposed to keep his cattle? I could lose a good renter in this process.

File No. EA-2015-0146

AFFIDAVIT OF Frank Miller

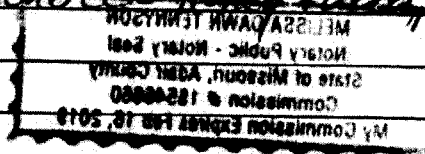

STATE OF MISSOURI)
COUNTY OF Scott) ss.

Frank Miller, first being duly sworn, on his/her oath states:

1) I am the Co-owner of property located at 22703 Miller Ave, Queen City, MO 63561
T65N, R14W, S30

2) I engage in the following agricultural and/or ranching practices on this property:

We rent farm house out to families that typically have children. We also rent farmland that is used for crop production, hay, and fall cattle grazing. Cattle are controlled by using electric, portable fencing. The cattle use ponds with waterers available. Row crops consist of corn/soybean rotation. Our farm also has bee hives that are managed by Hollenback Honey Farms, Kirksville, MO

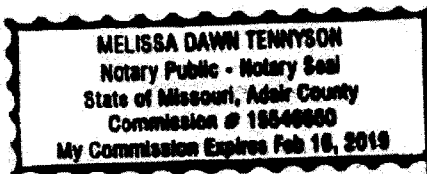

3) If approved, the transmission line route as currently proposed in this case will enter upon the property used for agricultural and/or ranching practices;

4) If approved, the transmission line will infringe upon my ability to engage in agricultural and/or ranching practices on the property described above by:

Construction of the transmission line will cause problems with our renters' row crop production by diminishing the amount of tillable acreage. The extremely high voltage will create a risk for farm machinery including large tractors and combines to operate under the power lines. Cattle will also graze the same land under the lines that can cause health problems and risk of shock. We use electric fencing which could malfunction due to interference from power lines. Our farm has been in our family for over 160 years and the transmission line will bring down property values that we will never be able to get back!

Maintain and Otherwise Control and Manage a)
345,000-volt Electric Transmission Line from Palmyra,)
Missouri, to the Iowa Border and Associated Substation)
near Kirksville, Missouri.)

AFFIDAVIT OF WILLIAM F. SANDERS

STATE OF MISSOURI)
COUNTY OF SCHUYLER) ss.

WILLIAM F. SANDERS, first being duly sworn, on his/her oath states:

1) I am the owner of property located at
Road 230, Queen City, Mo 63561
PARCEL # 15-D3.0-05-000-000-003.00 5 N EAST PRAIRIE
RANGE 14-15-20

2) I engage in the following agricultural and/or ranching practices on this sec 31
property:

CRP + leased for hunting

3) If approved, the transmission line route as currently proposed in this case will enter upon the property used for agricultural and/or ranching practices;

4) If approved, the transmission line will infringe upon my ability to engage in agricultural and/or ranching practices on the property described above by:

It could infringe upon our CRP Income
AND the PRACTICES we HAVE to CARRY OUT
IN ORDER to meet CRP RULES, set by the
GOVERNMENT. IF it would go from the CRP
PROGRAM AND BACK INTO FARMING, we don't
KNOW how the towers would effect the
FARMING PRACTICES.

There is no way to know how a high voltage
line will effect our hunting PRACTICES.

AFFIDAVIT OF ELOISE SIDWELL

STATE OF MISSOURI

COUNTY OF SCHUYLER

ss.

ELOISE SIDWELL, first being duly sworn, on his/her oath states:

1) I am the OWNER of property located at
10-3.0-07-000-000-6.0, 11-10-12-000-000-5.0, 10-4.0-17-000-000-3.0
10-4.0-18-000-000-3.0, 10-4.0-19-000-000-2.0

2) I engage in the following agricultural and/or ranching practices on this property:

I RENT PASTURE FOR CATTLE GRAZING.
WE CONTRACT DEER AND TURKEY HUNTS.
OUR HUNTERS HAVE TRAVELED FROM OVER
26 STATES TO HUNT THIS PROPERTY. MANY HAVE
BEEN REPEAT CUSTOMERS FOR YEARS AND
PROVIDE A CONSIDERABLE AMOUNT OF REVENUE
EACH YEAR. WE HAVE OVER 100 ACRES
ENROLLED IN A FEDERAL CONSERVATION
RESERVE PROGRAM.

3) If approved, the transmission line route as currently proposed in this case will enter upon the property used for agricultural and/or ranching practices;

4) If approved, the transmission line will infringe upon my ability to engage in agricultural and/or ranching practices on the property described above by:

MARCIA TALLMAN MARTIN
NOTARY PUBLIC - STATE OF MISSOURI
SCHUYLER COUNTY
MY COMMISSION EXPIRES: 8/9/2018
COMMISSION # 14469573

Marcia Tallman Martin
Notary Public

The power line will cross over 100 acres of my best farm land in a diagonal line. That 100 acres is enrolled in a Conservation Reserve Program. I have been informed that if I sell an easement we may have to repay years of CRP payments to the federal government. If we raise crops on those acres the utility company can drive through our crops to reach the easement to perform maintenance. The utility company may use chemicals and herbicides under the power line that will affect any future crops grown on the surrounding acres. Power line poles on this property will restrict and impair the use of farm equipment to plant and harvest crops. The compacting of the land by large construction and maintenance equipment will reduce the ability of that land to grow crops and pasture. This will permanently reduce the value of those acres and their productivity.

The line will also cross my 900 acres of continuous pasture so that land cannot be rented for grazing. The construction will require taking down our fences. Ameren representatives have stated that we will have to "move" our cattle. We do not have any place to move the cattle to. The construction of cross fences by us to keep our cattle in will result in much additional expense. The maintenance of the power line after construction may result in allowing our cattle to leave the property. This will discourage future pasture renters. Ameren has no intention to reimburse us for the lost pasture rent and any additional expense we must incur.

This farm is also rented for deer and turkey hunting. Hunters from over 26 states have hunted here and many have been repeat customers for years. They provide a considerable amount of revenue each year. We face possible hunt cancelations due to the disruption of this property's

natural state. Hunters will find other locations not involved in the construction and maintenance of a large power line project.

My spouse and I are both in our 90's and confined to a nursing home. If we lose this farm revenue we may not be able to pay our nursing home expenses. This may result in forcing us to sell our farm. The farm will sell at a significant reduction in value due to the presence of the power line.
