

If LHO is not ^{or to} a party of these
proceeding, why did public council
come to us and hold hearing and
not answer our questions or get the
answers to our questions. We were told
he was only there to document our
question and the answers would be
forth coming at a later date and
prior to this hearing which never
has happened.

Before hearings there was time for
Q & A - but I wasn't at the Columbia
Hearings - if promises were made

Promises were made that were never
fulfilled to answer our questions prior
to this meeting. Please Public Council
did not have sufficient facts and figures
about the case so most of our directed
questions could not be formulated
and public council never gave us
another hearing with any more
facts
