15 Commission, P.O. Box 360, Jefferson City, Missouri, 65102.

16 Q. By whom are you employed and in what capacity?

17 A. I am the Utility Regulatory Engineering Supervisor of the Engineering
18 Analysis Section; Energy Unit; Tariff, Safety, Economic and Engineering Analysis
19 Department; Regulatory Review Division with the Missouri Public Service
20 Commission (Commission).

21 Q. Please summarize your credentials.

22 A. Schedule DIB-1, attached to my testimony, is a summary of my credentials
23 which includes a list of cases in which I have previously testified.

24 Q. Please summarize your testimony.

25 A. Cary G. Featherstone and I sponsor Staff's Cost of Service Report and
26 Accounting Schedules in this rate proceeding that are being filed concurrently with this and
27 Mr. Featherstone's testimony. Staff's Cost of Service Report supports Staff's
28 recommendation of the amount of the rate revenue increase for KCPL based on information
29 through the period ending March 31, 2012 using actual historical information. Staff prepared
its revenue requirement results based on actual results through the March 31, 2012 update

1 period. This rate revenue recommendation is found in Staff's separately filed Accounting
2 Schedules.

3 I present an overview of the results of Staff's review of KCPL's revenue requirement
4 started in response to KCPL's general rate increase request made on February 27, 2012.
5 Several members of the Commission's Staff participated in Staff's examination of KCPL's
6 books and records for all the relevant and material components that make up the revenue
7 requirement calculation. These components can be broadly defined as (1) capital structure
8 and return on investment, (2) rate base investment and (3) income statement results, including
9 revenues, operating and maintenance expenses, depreciation expense, and the taxes related to
10 revenues and these expenses, including income taxes. I provide an overview of the Tariff,
11 Safety, Economic and Engineering Analysis Department's work on revenues, on several
12 specific expense items, and on other miscellaneous topics related to the case. Mr.
13 Featherstone's testimony discusses the other components that make up the revenue
14 requirement.

15 Q. Which members of Staff were assigned to this case?

16 A. Several Staff experts from the Tariff, Safety, Economic and Engineering

10 Each of these Staff experts' work product was used as a direct input to the various
11 adjustments contained in Staff's Accounting Schedules and revenue requirement
12 recommendation, where applicable.

14 A. I am one of two project coordinators assigned to identify the work scope for
15 the case, make Staff assignments, and supervise and oversee all work product development.
16 I specifically supervised all areas assigned to and the responsibility of the Energy Unit.
