File No. WU-2020-0417

ORDER GRANTING APPLICATION TO INTERVENE

Issue Date: July 28, 2020

Effective Date: July 28, 2020

On June 26, 2020, Missouri-American Water Company (MAWC) applied for an accounting authority order permitting it to accumulate and defer to a regulatory asset for consideration of recovery in future rate case proceedings all extraordinary costs and financial impacts incurred as a result of the coronavirus (COVID-19) pandemic, plus associated carrying costs. The Commission directed notice and set a deadline of July 16, 2020, for applications to intervene.

On July 17, 2020, the City of Riverside, Missouri filed an application to intervene out of time. Riverside stated that it is a city located within the service area of MAWC and is a customer of MAWC. Riverside further stated it has an interest in the welfare of its citizens who also receive services from MAWC. Riverside stated that its intervention request was late due to a genuine mistake and was not intended to delay the proceedings. Riverside stated that MAWC was not opposed to the grant of the intervention.

More than ten days have passed since the application was filed and no one has responded. After considering the unopposed application to intervene, the Commission finds that Riverside has interests which are different from that of the general public and allowing it to intervene will serve the public interest. Therefore, in accordance with

Commission Rule 20 CSR 4240-2.075(3), the Commission will grant the application to intervene.

THE COMMISSION ORDERS THAT:

1. The application to intervene of the City of Riverside, Missouri, is granted.
2. This order shall be effective when issued.
