SECTION 3. DESCRIPTION OF SERVICES AND RATE SCHEDULE**3.1 Timing of Billing**

On direct dialed outbound and inbound calls provided pursuant to this Tariff, and except as otherwise stated in this tariff, chargeable call duration accrues from the time the called party answers, as indicated by Carrier's receipt of answer supervision, until one of the parties hangs up, as detected by Carrier's equipment.

Carrier may receive answer supervision signaling directly from local exchange carriers, may employ software answer supervision, or may receive answer supervision from other interexchange carriers. These other interexchange carriers may themselves employ either local exchange carrier-provided answer supervision or some other method of determining called party on-hook or off-hook status.

3.2 Dedicated Access to Long Distance

This service provides a dedicated circuit from the Customer's telecommunications network to Teleglobe's long distance network. Calls are billed in 6 second increments after an 18 second minimum call duration.

Rate per minute: \$0.10

3.3. Additional Services

Teleglobe may provide other Services at the Customer's request, subject to Customer-specific contractual arrangements.

3.4 ICB Pricing for Private Line Services

Private line services will be made available to customers in a nondiscriminatory manner. Rates for interexchange and local exchange dedicated access, private line, non-switched services will be determined on an Individual Case Basis (ICB). ICB rates will be structured to recover the Company's cost of providing the service and will be made available to the Missouri Public Service Commission Staff upon request on a proprietary basis. ICB rates will not be used for switched services.
