P200900634	Patty	Miller	Sedalia	MO	(cld) I think the requested increase is absolutely ridiculous. I don't see any improvements that are being done. You can't ever talk to the man when you call. Any time the man needs to do repairs he has to go Elm Hills Mobile home park to find out where all the shut offs are. If they don't even know where the lines are its pretty bad. I understand going up but I don't understand doubling a bill.	CLD	Discussed rate case over the telephone.
