Hillcrest Manor Homeowner Association

March 5, 2016

Missouri Public
Service Commission

To whom it may concern:

The executive board of the Hillcrest Manor Homeowners Association oppose the severe proposed rate increase for water and sewage services as outlined by Hillcrest Utility Operating Company. With a proposed increase of well over 500%, homeowners in this subdivision will be unable to afford this basic necessity.

We ask that you please reconsider the proposed rate increase to be something that is both manageable by the homeowners as well as sufficient enough to cover the costs of improvements made and general operating expenses of the utility company.

Sincerely,

Hillcrest Manor Homeowners Association
