- (a) grants Applicant certificate of service authority to provide intrastate interexchange and non-switched local exchange telecommunications services, pursuant to Chapter 392 RSMo;
- (b) grants competitive status to Applicant and Applicant's requested services;
- (c) waives certain Commission rules and statutory provisions pursuant to Sections 392.420 and 392.361 RSMo, consistent with the Commission's past treatment of other certificated providers of competitive interexchange telecommunications services; and
- (d) approves Applicant's proposed tariff which will be late-filed separately.

In support of its request, Applicant states that:

1. Applicant is a foreign limited liability corporation formed and operating under the laws of the State of Nevada and is duly authorized to transact business in the State

of Missouri. The character of the business performed by Applicant is telecommunications. Pursuant to the relevant provisions of 4 CSR 240-2.060, a certificate of registration from the Missouri Secretary of State's Office is attached hereto and incorporated herein by reference as **Appendix A**. Questions regarding Applicant's proposed tariff should be directed to Ms. Young.

5. By this Application, Applicant proposes to provide various types of intrastate interexchange and non-switched local exchange (dedicated private line) telecommunications services throughout the state of Missouri. Specifically, Applicant seeks authority to provide a full range of "1+" interexchange services, MTS, out-WATS, in-WATS, and Calling Card Services and, where appropriate, non-switched local exchange/private line services. Applicant will provide telecommunications services to residential and business customers.

6. Applicant acknowledges 4 CSR 240-3.510(1)(C), which requires that a tariff must be filed with the Commission and approved before service can be provided. Applicant will promptly file its proposed tariff containing the rules, conditions and description of services and rates with a forty-five (45) day effective date as soon as possible, pursuant to 4 CSR 240-3.510(2). Applicant respectfully requests approval of its proposed tariff concurrently with the approval of certificate of service authority.

7. Applicant requests that it and all its services proposed herein be classified as competitive. Applicant believes that the highly developed state of the interexchange and local exchange telecommunications services market in Missouri and nationwide ensures that its proposed services will be subject to sufficient competition to warrant a less rigorous degree of regulation.

8. As a new market entrant, Applicant requests streamlined regulatory treatment afforded similarly situated telecommunications carriers in Missouri. Likewise, to the extent the Commission has granted other competitive interexchange carriers waiver of certain of the Commission's rules and regulations, Applicant respectfully requests that it be granted the same waivers.

9. Consistent with the Commission's treatment of other certificated telecommunications companies, Applicant respectfully requests that, pursuant to §392.361.5 and §392.420, RSMo, the following statutes and regulations be waived with respect to its interexchange service offerings:

STATUTES

§ 392.210.2	--	Uniform System of Accounts

RULES

4 CSR 240-10.020	--	Depreciation Fund Income
4 CSR 240-30.040	--	Uniform System of Accounts

10. Applicant will comply fully with all applicable Commission rules except those that are specifically waived by the Commission pursuant to the Company's request herein. To the extent that the Commission may modify its waiver policies, Applicant respectfully reserves the right to amend its waiver requests accordingly.

11. Pursuant to 4 CSR 240-2.060 (1) (K), Applicant states that it does not have any pending action or final unsatisfied judgments or decisions against it from any state or federal agency or court which involve customer service or rates, which action, judgment or decision has occurred within three (3) years of the date of this Application.

12. Pursuant to 4 CSR 240-2.060 (1) (L), Applicant states that no Commission annual report or assessment fees are overdue.

13. Applicant is financially capable of providing the services proposed. Applicant also possesses the technical and managerial expertise and experience necessary to provide the services it proposes to offer at standards that will meet or exceed all service standards established by the Commission.

14. Applicant submits that the public interest will be served by Commission approval of this application because Applicant's proposed services will create and

enhance competition and expand customer service options consistent with the legislative goals set forth in the federal Telecommunications Act of 1996 and Chapter 392 RSMo. Prompt approval of this application also will expand the availability of innovative, high quality, and reliable telecommunications services within the State of Missouri.

WHEREFORE, CommPartners, LLC, respectfully requests that the Commission: (1) grant it certificate of service authority to provide intrastate interexchange and non-switched local exchange telecommunications services within the State of Missouri; (2) grant Applicant and its proposed services competitive status; (3) waive the application of the above-referenced statutes and Commission rules; and (4) approve its proposed tariff, which will be submitted separately.
