Case No. WR-2017-0139

NOTICE OF EXTENSION

COMES NOW the Staff of the Missouri Public Service Commission (Staff), by and through counsel, and for its Notice of Extension in this matter hereby states:

1. Stockton Hills Water Company, Inc. (Stockton) filed its Request for Increase in Annual Water System Operating Revenues on November 14, 2016.

2. Pursuant to 4 CSR 240-3.050(12), Staff and the Company may agree to extend the dates applicable to a small utility rate case for up to 60 days from those mandates set out in 4 CSR 240-3.030 small utility rate case procedure.

3. The parties' settlement negotiations are progressing, and Staff and the Company believe that a short extension will be beneficial to those endeavors.

4. Stockton and Staff mutually agree to a five (5) day extension of the 150 day deadline. The Office of Public Counsel has been notified of the agreement.

5. Therefore, Staff submits this Notice of Extension as the written agreement pursuant to 4 CSR 240-3.050(12), and attached to this Notice includes an updated Small Rate Case Timeline to reflect this five (5) day extension of the 150 day deadline.

WHEREFORE, Staff prays that the Commission will accept this Notice of Extension; and grant such other and further relief as the Commission considers just in the circumstances.

Respectfully submitted,

/s/ Jacob T. Westen

Set out on the following pages is the activities timeline pertaining to the processing of the above-referenced small utility revenue increase request. This timeline assumes that the Staff's investigation of the revenue increase request will result in a conclusion that an increase in the subject utility's operating revenues is needed, that at least the Utility and Staff will reach an agreement regarding the overall resolution of the request without the need for time extensions, and that the request will be resolved without an arbitration process being used or an evidentiary hearing being held. For cases where an arbitration process is going to be used or an evidentiary hearing is going to be held, it is anticipated that a procedural schedule will be set when that becomes known. In such instances, the 9-month and 11-month deadlines will need to be considered in setting the procedural schedule.

The schedule set out in the timeline establishes the Target Due Date for the completion of certain activities needed to process the request in a timely manner. Extensions of the disposition agreement filing deadline, which is 150 days after the date the utility files its request, and certain other deadlines are allowed (and under some circumstances are required) and if executed will result in changes to the timeline. Agreements for such extensions, which are limited to a maximum of 60 days, will be reduced to writing and filed in the case file, along with an updated timeline.

The entries in the Target Day column represent the number of days from the date the utility filed its request. The entries in the Target Due Date column show the date when the Target Day hits the calendar. To determine the entries for the Calendar Due Date column, Target Due Dates falling on a weekend or a holiday are moved to the next regular working day, except that the effective dates for pending revised tariff sheets cannot be adjusted.

Activities needed from this point forward vary based on the approach taken by the OPC. The next three sections set out the activities needed based on the different OPC approaches that are possible.

This section pertains to the situation where the Utility, Staff & OPC reach an agreement on the overall disposition of the request, and is thus based on the fact that the Utility will not send out a second customer notice. In this situation, a minimum of 30 days is needed between the filing date and the proposed effective date of the Utility's tariff revisions. The dates shown assume that the Utility will make a 30-day tariff filing on Day 155.

This section pertains to the situation where only the Utility and Staff reach an agreement on the overall disposition of the request, and is thus based on the fact that the Utility will send out a second customer notice. This section is also based on the assumption that the OPC will not request a local public hearing. In this situation, a minimum of 45 days is needed between the filing date and the proposed effective date of the Utility's tariff revisions. The dates shown assume that the Utility will make a 45-day tariff filing on Day 155.

This section pertains to the situation where only the Utility and Staff reach an agreement on the overall disposition of the request, and is thus based on the fact that the Utility will send out a second customer notice. This section is also based on the assumption that the OPC will request a local public hearing and that one will be held. In this situation, a minimum of 45 days is needed between the filing date and the proposed effective date of the Utility's tariff revisions. The dates shown assume that the Utility will make a 45-day tariff filing on Day 155. The dates also assume that the tariff revisions will be suspended for 45 days past the proposed effective date, and that the local public hearing will be held 30 days before the end of the suspension period.
