Comes now **American Long Lines, Inc.** ("Applicant" or "American"), by and through counsel, and pursuant to Sections 392.361, 392.410, 392.420, 392.430, 392.440 RSMo 2000, and 4 CSR 240-2.060(6), files this Verified Application requesting that the Missouri Public Service Commission (hereinafter "the Commission") issue an order that:

- (a) grants Applicant a certificate of service authority to provide intrastate resold, interexchange and non-switched local exchange telecommunications services, as herein more specifically defined, pursuant to Chapter 392 RSMo;
- (b) grants competitive status to Applicant and Applicant's requested services; and
- (c) waives certain Commission rules and statutory provisions pursuant to Sections 392.420 and 392.361 RSMo 2000, consistent with the Commission's past treatment of other certificated providers of competitive interexchange/dedicated private line telecommunications services.

In support of its request, Applicant states that:

1. American is a privately-held corporation incorporated under the laws of the state of Pennsylvania and is duly authorized by the Missouri Secretary of State to do business in Missouri. Pursuant to the relevant provisions of 4 CSR 240-2.060, a certificate of authority from the Missouri Secretary of State's Office is attached hereto and incorporated herein by reference as **Appendix A**. Questions concerning Applicant's ongoing operations should be directed to Mr. Connor at the above address and phone number. Questions regarding this Application should be directed to Mr. Miller.

3. By this Application, Applicant proposes to provide various types of intrastate interexchange and non-switched private line telecommunications services throughout the state of Missouri on a resold basis. At this time Applicant is seeking authority to provide non-switched, dedicated private line services. Specifically, Applicant seeks authority to provide a full range of "1+" interexchange services, MTS, out-WATS, in-WATS, and Calling Card Services, and where appropriate, non-switched local exchange/private line services. Applicant provides

telecommunications services to **residential and business** customers. Applicant combines high quality transmission services with very competitive rates, flexible end user billing, professional customer service and excellent reporting to create a unique blend which meets individualized needs of such customers. Applicant intends to engage in "switchless resale". Applicant will arrange for the traffic of underlying subscribers to be routed directly over the networks of Applicant's network providers. Pursuant to 4 CSR 2.060 (6)(C) Applicant has attached an tariff adoption notice to this application as **Appendix B**.

4. Applicant requests that it and all its services proposed herein be classified as competitive. Applicant's proposed services herein fall within the category of the types of services which have routinely been authorized by the Commission for numerous other competitive carriers upon verified application without the need for evidentiary hearings. Applicant's proposed services will be subject to sufficient competition to justify a lesser degree of regulation; granting this Application will allow greater price and service options for telecommunications customers and will be in the public interest. Granting Applicant's requested competitive classifications is consistent with past Commission treatment of other competitive certificated interexchange/private line carriers and will encourage competition consistent with the public policy of Federal Telecommunications Act of 1996 and Chapter 392 RSMo.

5. Applicant is willing to comply with all applicable Commission orders, rules and regulations. Applicant requests however, pursuant to Section 392.440 RSMo 2000, that the Commission at minimum waive the application of the following rules and statutory provisions as they relate to the regulation of Applicant to the extent that they previously and routinely have been waived for other certificated competitive interexchange/private line carriers:

4 CSR 240-33.030	--minimum charges rule
4 CSR 240-35	--bypass reporting

6. Applicant is financially capable of providing the services proposed. Applicant also possesses the necessary technical and managerial expertise and experience necessary to provide the services it proposes to offer at standards that will meet or exceed all service standards established by the Commission.

7. Pursuant to 4 CSR 240-2.060 (1) (H), Applicant states that it is a competitive telecommunications company.

8. Pursuant to 4 CSR 240-2.060 (1) (K), Applicant states that it does not have any pending action or final unsatisfied judgments or decisions against it from any state or federal agency or court which involve customer service or rates, which action judgment or decision has occurred within three (3) years of the date of this Application.

9. Pursuant to 4 CSR 240-2.060 (1) (L), Applicant states that no Commission annual report or assessment fees are overdue.

WHEREFORE, Applicant respectfully requests that the Commission: (1) expeditiously grant it a certificate of service authority to provide intrastate, resold interexchange and non-switched local exchange telecommunications services within the State of Missouri; (2) grant Applicant and its proposed services competitive status; and (3) waive the application of the above-referenced statutes and Commission rules; all consistent with past Commission practice and the Commission's treatment of other certificated, competitive providers of intrastate interexchange and non-switched local exchange telecommunications services.
