Company, Inc., for a Certificate of ) **File No. WA-2023-0003**  
Convenience and Necessity and )  
Associated with the Acquisition of Certain )  
Water Assets )

**CORRECTED ORDER DIRECTING NOTICE,  
SETTING DEADLINES FOR INTERVENTION REQUESTS,  
AND DIRECTING STAFF RECOMMENDATION**

Issue Date: July 6, 2022

Effective Date: July 6, 2022

This corrected order addresses and corrects a statement made in error regarding Tan Tar A's existing rates.

On July 1, 2022, Confluence Rivers Utility Operating Company, Inc. (Confluence Rivers) filed an application (Application) that seeks permission and approval for the acquisition of, and a certificate of convenience and necessity (CCN) to install, own, acquire, construct, operate, control, manage, and maintain a water system within the specified areas currently served by Tan Tar A State Road, LLC (Tan Tar A), located in Camden County. Confluence Rivers also requests waiver of the Commission's rule requiring sixty days' notice prior to filing an application. Confluence Rivers proposes to purchase substantially all of the water system assets of the currently unregulated Tan Tar A, excepting the Margaritaville Lake Resort.

Confluence Rivers filed its *Amendment to Application* (Amendment) on July 6, 2022. That Amendment corrected a statement in the Application regarding the existence of Tan Tar A's water rates. Paragraph 19 of the Application is corrected to state

that Tan Tar A has no rates for the area in question, and thus Confluence Rivers proposes to adopt the rates that it attached as Appendix G. The Commission notes that the proposed rates were correct in the Application; only the reference to them being the existing rates of Tan Tar A was incorrect. This Corrected order similarly corrects the statement regarding the water rates to be adopted. The Commission will consider the Application, as amended by the Amendment.

As Tan Tar A does not have rates in the subject area, Confluence Rivers proposes rates set forth in Appendix G of the Application. Further, Confluence Rivers proposes to utilize the rules governing the rendering of water service that are currently found in Confluence Rivers' existing tariffs for water service for the Osage area, PSC Mo No. 24. Confluence Rivers also requests a waiver of the 60-day notice requirements of 20 CSR 4240-4.017(1).

The Commission will direct that notice of the application be given to the county commission of Camden County, to local newspapers, and to members of the General Assembly representing residents of Camden County. The Commission will set a deadline for interested parties to intervene. The Commission will also direct the Staff of the Commission (Staff) to file a recommendation with regard to the application.

**THE COMMISSION ORDERS THAT:**

1. The Commission's Data Center shall provide a copy of this order and the application to the county commission of Camden County.
2. The Commission's Public Policy and Outreach Division shall make notice of this order available to the members of the General Assembly representing residents of Camden County, and to the media serving those areas.

3. Any application to intervene shall be filed no later than August 5, 2022.
4. Staff shall file a recommendation regarding the application, or a request for additional time, on or before August 23, 2022.
5. This order shall be effective when issued.

**BY THE COMMISSION**

A handwritten signature in black ink that reads "Morris L. Woodruff". The signature is written in a cursive, flowing style.

Morris L. Woodruff  
Secretary

Charles Hatcher, Senior Regulatory  
Law Judge, by delegation of authority  
pursuant to Section 386.240, RSMo 2016.

Dated at Jefferson City, Missouri,  
on this 6<sup>th</sup> day of July, 2022.

**BEFORE THE PUBLIC SERVICE COMMISSION  
OF THE STATE OF MISSOURI**

In the Matter of the Application of Confluence Rivers )  
Utility Operating Company, Inc., for a Certificate ) File Nos. WA-2023-\_\_\_\_\_  
of Convenience and Necessity and Associated with the )  
Acquisition of Certain Water Assets )

**APPLICATION AND MOTION FOR WAIVER**

**COMES NOW** Confluence Rivers Utility Operating Company, Inc. (“Confluence Rivers”) pursuant to Section 393.170, RSMo, 20 CSR 4240-2.060, 20 CSR 4240-3.600, and 20 CSR 4240-4.017, and for its *Application and Motion for Waiver*, states as follows to the Missouri Public Service Commission (“Commission”):

**I. Introduction**

1. Confluence Rivers is a Missouri corporation with its principal office and place of business at 1630 Des Peres Rd., Suite 140, St. Louis, MO 63131. Confluence Rivers is a Missouri corporation in good standing. A certified copy of Confluence Rivers’ certificate of good standing was filed in File No. WM-2018-0116 and is incorporated herein by reference.

2. Confluence Rivers provides water service to approximately 4,300 customers and sewer service to approximately 4,400 customers in several counties in Missouri. Confluence Rivers is a “water corporation,” a “sewer corporation,” and a “public utility,” as those terms are defined in Section 386.020, RSMo, and is subject to the jurisdiction and supervision of the Commission as provided by law.

3. Confluence Rivers has no overdue Commission annual reports or assessment fees. There is no pending action or final unsatisfied judgment or decision against Confluence Rivers

from any state or federal agency or court which involves customer service or rates, which action, judgment or decision has occurred within three (3) years of the date of this Application.

4. Communications regarding this application should be addressed to the undersigned counsel.

## **II. The Proposed Sale Transactions**

5. Confluence Rivers proposes to acquire all or substantially all of the water system assets (excepting the Margaritaville Lake Resort) of the currently unregulated systems of Tan Tar A State Road, LLC. Confluence Rivers seeks a Certificate of Convenience and Necessity (“CCN”) to operate the system and provide service to the public.

## **III. Tan Tar A State Road, LLC**

11. Tan Tar A State Road, LLC (“Tan Tar A”) is a limited liability company organized and existing under the laws of the State of Delaware in 2017 and listed as active with the Missouri Secretary of State. Tan Tar A provides water services to approximately 400 residential and non-residential customers in Camden County, Missouri.

12. On November 15, 2021, CSWR entered into an *Agreement for Sale of Utility System* with Tan Tar A. A copy of the *Agreement for Sale of Utility System* is attached as **Appendix A-C** and marked Confidential in accordance with Commission Rule 20 CSR 4240-2.135(2)(A)(3) and (6), as it contains market specific information and information representing strategies employed in contract negotiations. CSWR proposes to purchase substantially all of Tan Tar A’s water system assets serving Camden County, excepting the Margaritaville Lake Resort, as specifically described in, and under the terms and provisions of, the *Agreement for Sale of Utility System*.

13. Pursuant to Paragraph 19 of the *Agreement for Sale of Utility System*, CSWR plans to assign its rights under the agreement to Confluence Rivers at closing. **Appendix B** verifies the authority of Josiah Cox, the President of Confluence Rivers, to enter into the *Agreement for Sale of Utility System* and seek Commission approval of the transaction.

14. Confluence Rivers requests permission, approval and a CCN to construct, install, own, operate, maintain, control and manage the water system for the public in Camden County, Missouri, as an addition to its existing service territories. A legal description of the area sought to be certificated is attached hereto as **Appendix C**. A map of the area sought to be certificated is attached as **Appendix D**.

15. Attached hereto and marked as **Appendix E-C** is a list of ten (10) residents or landowners within the proposed service area. **Appendix E-C** has been identified as “Confidential” in accordance with Commission Rule 20 CSR 4240-2.135(2)(A)(1), as it contains customer-specific information.

#### **IV. Additional Information**

16. Attached hereto and marked as **Appendix F-C** is the feasibility study for the unregulated water system for which Confluence Rivers seeks a CCN, including estimates of the number of customers, expenses and revenues during the first three (3) years of operation by Confluence Rivers. **Appendix F-C** has been identified as “Confidential” in accordance with Commission Rule 20 CSR 4240-2.135(2)(A)(3) and (6), as it contains market specific information and information representing strategies employed in contract negotiations. To provide service to the proposed areas, Confluence Rivers will purchase an existing water system and will not construct systems. Thus, Confluence Rivers asks for a waiver of any requirement to provide plans

and specifications related to the construction of the distribution and collection systems.

17. Confluence Rivers is not aware of any other water service available in the service area requested. Confluence Rivers is not aware of any franchises or permits from municipalities, counties, or other authorities that would be required in order to provide service in the requested area.

18. The sale and purchase of the referenced assets should have no impact on the tax revenues of relevant political subdivisions, as Confluence Rivers and the sellers are private entities and their status as taxpaying entities will not change as a result of these transactions.

#### **V. Tariff/Rates**

19. Confluence Rivers proposes to adopt the rates for the unregulated Tan Tar A system that are attached hereto as **Appendix G** and to utilize the rules governing the rendering of service that are currently found in Confluence Rivers' existing Commission-approved tariffs for water service for the Osage area (PSC Mo No. 24 (Osage)), until such time as the rates and rules are modified according to law.

#### **VI. Public Interest**

20. The grant of the requested CCN (and approval of the underlying transaction) and the proposed transfer is in the public interest and will result in regulated water services provided to the current and future residential and non-residential customers in the service area. The system would be acquired by Confluence Rivers, a Missouri public utility, and be subject to the jurisdiction of the Commission to own and operate the water system for which approval is sought. As it has demonstrated to the Commission in past cases, Confluence Rivers, with the support and assistance of its affiliates, is fully qualified, in all respects, to own and operate the water system

for which the certificate is sought. Confluence Rivers' successful operation of other water and sewer systems in Missouri demonstrates its ability to provide safe and reliable service to customers and to comply with the Commission's rules, regulations, and decisions governing the ownership and operation of such systems. Confluence Rivers also has the financial strength and resources necessary to make expenditures and investments required to maintain the system.

### **VII. Motion for Waiver**

21. Commission Rule 20 CSR 4240-4.017(1) requires "[a]ny person that intends to file a case shall file a notice with the secretary of the commission a minimum of sixty (60) days prior to filing such case." Because it did not file such a notice within the time period prescribed by that rule, Confluence Rivers seeks a waiver of the 60-day pre-filing notice requirement.

22. Under Rule 20 CSR 4240-4.017(1)(D), a waiver of the pre-filing notice requirement may be granted for good cause. In this regard, Confluence Rivers declares, as verified below, that it has had no communication with the Office of the Commission (as defined in 20 CSR 4240-4.015(10)) within the prior 150 days regarding any substantive issue likely to be in this case. Good cause for the requested waiver exists in accordance with Commission Rule 20 CSR 4240-4.017(1)(D) ("Good cause for waiver may include, among other things, a verified declaration from the filing party that it has had no communication with the office of the commission within the prior one hundred fifty (150) days regarding any substantive issue likely to be in the case....")

23. Therefore, as authorized by Rule 20 CSR 4240-4.017(1)(D), Confluence Rivers moves for a waiver of the 60-day notice requirement and acceptance of this application at this time.

**WHEREFORE**, for the reasons previously stated, Confluence Rivers respectfully requests the Commission issue an order:

(A) Waiving the 60-day notice requirement of Rule 20 CSR 4240-4.017(1) for good

cause shown;

(B) Granting Confluence Rivers a CCN authorizing it to install, acquire, build, construct, own, operate, control, manage, and maintain a water system for the public within the specified areas currently served by Tan Tar A State Road, LLC

(C) Authorizing Confluence Rivers to acquire the system assets of Tan Tar A State Road, LLC, as described in this Application;

(D) Authorizing Confluence Rivers to enter into, execute, and perform, in accordance with the terms described in the agreements attached to this application, and take any and all other actions that may be deemed necessary and appropriate to accomplish the purposes of the agreements and the Application and to consummate related transactions in accordance with the agreements; and,

(E) Granting such other relief as may be deemed necessary and appropriate to accomplish the purposes of the agreements and the Application and to consummate related transactions in accordance with the agreements.

Respectfully submitted,

Dean L. Cooper MBE #36592

**BEFORE THE PUBLIC SERVICE COMMISSION  
OF THE STATE OF MISSOURI**

In the Matter of the Application of Confluence Rivers )  
Utility Operating Company, Inc., for a Certificate ) File Nos. WA-2023-0003  
of Convenience and Necessity and Associated with the )  
Acquisition of Certain Water Assets )

**AMENDMENT TO APPLICATION**

**COMES NOW** Confluence Rivers Utility Operating Company, Inc. (“Confluence Rivers”), pursuant to 20 CSR 4240-2.080(18), and, for its *Amendment to Application*, states as follows to the Missouri Public Service Commission (“Commission”):

1. On July 1, 2022, Confluence Rivers filed an application that seeks permission and approval for the acquisition of, and a certificate of convenience and necessity to install, own, acquire, construct, operate, control, manage and maintain a water system within the specified areas currently served by Tan Tar A State Road, LLC (Tan Tar A), located in Camden County. Since that filing, Confluence Rivers has recognized a matter included in that Application that it needs to amend.

2. Commission Rule 4 CSR 240-2.080(18) provides, in part, that “Any pleading may be amended within ten (10) days of filing, unless a responsive pleading has already been filed . . . .” The date of this filing is within ten days of the filing of the *Application* in this case and no responsive pleading has been filed. Accordingly, Confluence Rivers hereby amends its *Application* as described in the following paragraph.

3. Paragraph 19 of the *Application* discusses Tariffs and Rates. The *Application* erroneously states that Confluence Rivers proposes to adopt the rates utilized by the unregulated Tan Tar A system. The unregulated Tan Tar A system has no rates for the area in question.

Accordingly, Confluence Rivers amends paragraph 19 of its *Application* to state as follows (there is no change to the referenced Appendix G):

19. The unregulated Tan Tar A system has no rates in the area that is the subject of this Application. As a result, Confluence Rivers proposes to adopt the rates that are attached hereto as **Appendix G** and to utilize the rules governing the rendering of service that are currently found in Confluence Rivers' existing Commission-approved tariffs for water service for the Osage area (PSC Mo No. 24 (Osage)), until such time as the rates and rules are modified according to law.

**WHEREFORE**, Confluence Rivers respectfully requests that the Commission recognize the amendment to Confluence Rivers' *Application* described herein.

Respectfully submitted,

Dean L. Cooper MBE #36592
