Case No. WC-2006-0128

Public Service Commission

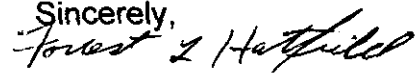

I don't care what you do with my complaint, but still don't think that it was right that the People of Melody Lake Ranch nor the Board of Governors of Melody Lake Ranch were not asked to vote on whether to accept the Franklin County Water and Sewer. Also, the above was not asked to vote on making the Water and Sewer Company an LLC company. I think that the state just doesn't want to be bothered by such a small subdivision and how it should be run. Thanks anyway.
