

DATA INFORMATION REQUEST
Missouri-American Water Company
WU-2017-0296

Requested From: Tim Luft
Date Requested: 8/2/17

Information Requested:

Reference direct testimony of Naumick p. 13, lines 11-12 wherein the witness refers to "a range of national experts". Provide the names of the "national experts" forming the basis of the witness's statement.

Requested By: Timothy Opitz – Office of Public Counsel – timothy.opitz@ded.mo.gov

Information Provided:

Please see attachment OPC0040.

Gary A. Naumick is a participant in the Lead Service Line Removal Collaborative that has brought together stakeholders from the areas of public health, justice and sustainability, national associations, non-profits, environmental groups and utilities. The goal of the Lead Service Line Replacement Collaborative is to accelerate voluntary lead service line replacement in communities across the United States.

More information and a list of Collaborative members can be found at:

Supplemental Information Provided:

The Company reached out to numerous water professionals to discuss their practices.

The most significant contacts are listed below:

1. Hazen and Sawyer (Hazen Corporate Drinking Water Practice Leader, Director of Drinking Water Process Technology, Senior Principal Engineer and student of Marc Edwards).
2. Cornwell Engineering Group (Richard Brown and David Cornwell publications)
3. Denver Water, Cincinatti Water, DW Water, Green Bay.

In addition, various contacts from the NDWAC Lead and Copper Working Group, Middlesex Water, Aqua, Suez and other utilities members of the NAWC and AWWA participating in the Resolve Collaborative were contacted.

We also reviewed publicly issued letters from EPA to states surrounding guidance for Flint, Michigan. These are available at the EPA website.
