BASIC LOCAL TELECOMMUNICATIONS SERVICES

SECTION 4 - SERVICE DESCRIPTIONS AND RATES**4.1 Description of Service**

The Company's Local Exchange Service enables Customer to:

- Place or receive calls to any calling Station in the local calling area, as defined herein;
- Access basic 911 Emergency Service if available in Customer's area;
- Where available, place or receive calls to toll free 8XX telephone numbers.

The Company's service cannot be used to originate calls to other telephone companies' caller-paid information services (e.g., 900, 976).

4.1.1 Basic Local Service

Basic Local Service is a service that is available for access by subscribers on a full time basis. Basic Local Service provides Customer with a single, voice-grade communications channel and access to unlimited local calls, "911" and/or "E 911" calls, if available in the Customer's area, and toll free (e.g. "800" or "888") calls.

Basic Local Service does not include any long distance service or other toll services. The following types of calls and services will be blocked by the Company through the ILEC's switch: interLATA, intraLATA, interstate, and international (e.g. "1+" or "0+"); collect calls; operator-assisted calls; third number billed calls; or any service that may be billed to Customer's telephone number (e.g. "900" and "976" calls).

4.1.2 Service Area

Where facilities are available, the Company's service area incorporates the geographic regions and exchanges currently served by incumbent local exchange carriers, including Southwestern Bell Telephone Company.

4.1.3 Local Calling Area

Local calling areas will be identical to the local calling areas of the incumbent local exchange carriers from which the Company purchases services, as those local calls areas are defined in the tariffs of the incumbent local exchange carrier that have been filed with the Commission.
