INTEREXCHANGE SERVICES TARIFF

SECTION 3- SERVICE DESCRIPTIONS AND RATES (cont'd.)

**3.5 Miscellaneous Rates and Charges**

**3.5.1. Administrative Charge**

There will be a non-recurring charge of \$10.00 to establish or change service. This charge will be waived in the event a customer is establishing service at the same time as he or she is activating new PhonePLUS service with the Company or is switching from Basic Prepaid Service to PhonePLUS service at the same time.

**3.5.2. Public Pay Telephone Surcharge**

To recover the Company's expenses to comply with the FCC's payphone compensation plan, an undiscountable per-call charge is applicable to all interstate, intrastate and international calls that originate from a domestic pay telephone used to access the Company's services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies to the use of the instrument used to access the Company's service and is unrelated to the Company service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the # key).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay telephone Surcharge may be billed on a subsequent invoice after the company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

Rate per Call:           \$0.35
