COMPANY SERVICES

Aggregation and Transport of Emergency Telecommunications

NextGen provides aggregation and transport of emergency communications for local telephone companies, Integrated Voice over Internet Protocol (I-VoIP) companies, mobile communications companies and telemetric and Private Switch 911 applications (collectively or individually “the Customer”). NextGen does not provide service to end-users; rather, NextGen provides service to other companies that enable those companies to provide emergency communications to end-users. NextGen manages and transmits location and calling number data, and call routing management for the delivery of emergency communications to Public Safety Answering Points throughout Missouri. NextGen does not provide local or interexchange telecommunications services nor does NextGen provide exchange access service. However, in order to aggregate and transport emergency communications and/or calling data, NextGen may require interconnection and co-location in the same manner as is made available to other local exchange carriers. NextGen also manages Pseudo Automatic Number Identification (“pANI”) numbering resources.

NextGen concurs in the telephone exchange boundary maps of Missouri incumbent local exchange carriers. To the extent applicable, NextGen recognizes Missouri Public Service Commission Rule 4 CSR 240-34 – Emergency Telephone Service Standards. Facilities used in the provision of NextGen’s services are constructed to meet specifications negotiated by the Company and the Customer on an Individual Case Basis. All charges are offered to Customers in writing and on a nondiscriminatory basis. Copies of NextGen’s service contracts will be made available to the staff of the Missouri Public Service Commission as requested on a proprietary basis.

Service is provided pursuant to contracts negotiated with the Customer. Service descriptions and rates are included in contracts along with terms and conditions of service, payment requirements, and limitations of liability. NextGen does not charge Public Safety Answering Points for NextGen’s services.
