(S)

6.1 Network Exchange Bundled Service

6.1.1 General

Matrix offers basic local exchange service to former Trinsic Customers only as part of a bundle or package of telecommunications services. All packages include local service, long distance service (interstate and intrastate toll) and selected custom calling features. Voice Mail and Optional Internet access¹ may be available with some packages at an additional charge. The aforementioned services are only available as part of the bundled service offering and are not available on an individual service basis. Customers will be billed directly by the Company. The Company provides Customers with the option of obtaining a Primary Line and Secondary Line per account:

A. Primary Line

The initial residential local exchange access line per account.

B. Secondary Line

The second or additional residential local exchange access line, billed to the same address as the Primary Line, the Secondary Line will share the monthly call allowance with the Primary Line. The Secondary Line does not automatically include or share any Custom Calling Features. Feature packages may be purchased separately.

Should a Customer with both lines opt to disconnect the Primary Line, the remaining Secondary Line will automatically convert to a Primary Line with all features and functionality of such, and at the Primary Line monthly recurring rate.

(S)

¹ Voice mail and Internet access are not regulated by the Commission.

SECTION 6 - PRICE LIST -RATES FOR SERVICES PROVIDED TO FORMER TRINSIC CUSTOMERS

6.1 Network Exchange Bundled Service (Continued)

(S)

6.1.1 General (Continued)

Network Exchange Bundled Service may include the calling features listed below:

These features are offered subject to availability of suitable facilities. Certain features may not be available with all classes of services.

In the event Matrix adds custom calling features to its Network Exchange Bundled Services, such features will be available upon the tariff effective date (where technically feasible) to all new Customers. Existing Customers will be informed of the new features availability but must contact the Company to obtain the new features. Any Service Order Charges, which would normally apply, will be waived.

Call Forwarding - Fixed, Busy Line No Answer - This feature, when activated, redirects attempted terminating calls to another Customer-specified line. Call originating ability is not affected by Call Forwarding - Fixed, Busy Line No Answer. The calling party is billed for the call to the called number. If the forwarded leg of the call is chargeable, the Customer with the Call Forwarding - Fixed, Busy Line No Answer is billed for the forwarded leg of the call. Calls cannot be transferred to an International Direct Distance Dialing number.

Call Waiting with Caller ID with Name - Call Waiting with Caller ID with Name provides a tone signal to indicate to a Customer already engaged in a telephone call that a second caller is attempting to dial in and allows a Customer to see a caller's name and number previewed on a display screen allowing a Customer to prioritize and or screen incoming calls. This feature permits the Customer to place the first call on hold, answer the second call and then alternate between both callers. Cancel Call Waiting (CCW) allows a Call Waiting (CW) Customer to disable CW for the duration of an outgoing telephone call. CCW is activated (i.e., CW is disabled) by dialing a special code prior to placing a call, and is automatically deactivated when the Customer disconnects from the call. In areas where Caller ID with Name is not available, Caller ID, which only displays the callers telephone number will be substituted.

(S)

SECTION 6 - PRICE LIST –RATES FOR SERVICES PROVIDED TO FORMER TRINSIC CUSTOMERS

6.1 Network Exchange Bundled Service (Continued)

(S)

6.1.1 General (Continued)

Network Exchange Bundled Service may include the calling features listed below, (Cont'd):

Call Forwarding - Variable - a Customer activated feature that automatically transfers all incoming calls from the Customer's telephone number to another dialable telephone number until the Customer deactivates the feature. If forwarded to a long distance number the Subscriber will incur the long distance charges.

Call Trace - Allows a called party to initiate an automatic trace of the last call received. Call Trace is available on a usage basis only. After receiving the call which is to be traced, the Customer dials a code and the traced telephone number is automatically sent to the Company for action. The Customer originating the trace will not receive the traced telephone number. The results of the trace will be furnished only to legally constituted law enforcement agencies or authorities upon proper request by them.

Call Blocking- Call Blocking allows the Customer to block calls from different telephone numbers. A screening list is created by Customer either by adding the last number associated with the line (incoming or outgoing) or by pre-selecting the telephone number to be blocked. Callers from such numbers hear an announcement that the calling party is not accepting calls and Customer's phone will not ring. The screening list may be edited and revised at Customer's discretion.

Distinctive Ring: Distinctive Ring is a feature that allows a Customer to have up to two separate phone numbers assigned to one local exchange line. Each telephone number will provide a distinctive ring on an incoming call to allow for identification of the number being called. A distinctive call waiting tone is also provided for each telephone number, where facilities permit and Customers subscribe to Call Waiting. Distinctive Ring is offered subject to availability of suitable facilities.

VIP Alert - Allows a customer to program telephone numbers of selected callers, enabling the customer to distinguish certain incoming calls from all others by a distinctive ring tone.

TRINSIC CUSTOMERS**

6.1 Network Exchange Bundled Service (Continued)

(S)

6.1.1 General (Continued)

Network Exchange Bundled Service may include the calling features listed below, (Cont'd):

Privacy Service- A feature which intercepts calls that are marked "private" and "out of area," or "unavailable" on Caller ID units. When unidentified callers dial the Subscriber's number, they will receive an announcement informing them that the party they are calling does not accept calls from unidentified callers. They will receive a prompt to identify their name or state their intention and the service will then attempt to connect the call. Only if the caller responds will the call be connected. The Subscriber's Caller ID will display the platform number and the name of the service. If the Subscriber chooses not to take the call the caller will hear a message which states the Subscriber is unavailable.

Privacy Service is offered subject to availability of suitable facilities. This service will be provisioned on a line-by-line basis and Customers with more than one line would need to have the service activated on each line if they want the ability to intercept unknown and blocked calls to each line.

Speed Calling - This feature allows a user to dial selected numbers by means of an abbreviated code. This feature is available in either an 8 number or a 30 number capacity. The Speed Calling list can only accommodate a number consisting of 15 digits or less.

Caller ID with Name - allows a Customer to see a caller's name and number previewed on a display screen before the call is answered allowing a Customer to prioritize and or screen incoming calls. Caller ID records the name, number, date and time of each incoming call -including calls that aren't answered by the Customer. Caller ID with Name service requires the use of specialized CPE not provided by the Company. It is the responsibility of the Customer to provide the necessary CPE. In areas where Caller ID with Name is not available, Caller ID, which only displays the incoming telephone number, will be substituted.

Three Way Calling - Permits the Customer to add a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The Customer initiating the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. The feature maybe used on both outgoing and incoming.

6.7.2 Directory Assistance Call Completion

A. Rates

The rates set forth below for DACC are in addition to the Directory Assistance rate, as well as the local or toll usage, if applicable.

Rate Per Call:	<u>Per Call Basis</u> \$0.30
----------------	---------------------------------

Directory Assistance Call Completion (DACC) is a service that provides customers the option of having their local or intraLATA calls automatically completed when they request a telephone listing from the Directory Assistance operator. The call may be completed automatically or by the Directory Assistance operator.

The DACC portion of the call may either be billed in the same manner as the DA portion or alternately billed by using a calling card, billing to a third number, or collect.

There are no allowances for DACC, however, the Directory Assistance portion of the call is still governed by the appropriate call allowance as stated in Section 4.9.1.

A. Description of Service

The three types of DACC offered are as follows:

Fully Automated DACC: The customer receives the requested directory number from an automated voice system. The customer accepts DACC by depressing A1" from a Touch-Tone telephone when prompted by the DACC announcement.

Semi-Automated DACC: The customer receives the requested directory number and then requests the operator to provide call completion to the requested number.

Person-to-Person DACC: The customer receives the requested directory number and then requests the operator to complete the call to a specified person.

SECTION 7.0 – GRANDFATHERED SERVICES

7.2 TrinsicBUSINESS A La Carte Service**

(S)

Trinsic Business A La Carte service is targeted at small business Customers and provides options based on the Customers calling patterns and estimated usage. Customers who subscribe to this service must designate Trinsic as the presubscribed carrier for local calling concurrent with enrollment for this service. TrinsicBusiness A La Carte provides Customers with the option of selecting Trinsic for toll services.

A. Local Exchange Service

There is a one-time charge per line Service Connection Fee for Local Exchange Service¹.

B. Toll Service

.1 Long Distance Service

Long distance service is billed in six (6) second increments.

2. Long Distance Calling Packs

Customers may choose to purchase Long Distance Calling Packs which provide a set number of long distance calling minutes for a flat rate per month. Toll Free Service is not included in Long Distance Calling Packs. Minutes above the purchased Calling Pack are billed in six (6) second increments.

¹Service Connection fee is waived for those customers who retain their existing telephone number when switching their service to Trinsic. The charge will apply if additional lines are transferred to Trinsic after the initial order.

***This service grandfathered effective June 26, 2003 and is available to existing Customers only.*

(S)

SECTION 7.0 – GRANDFATHERED SERVICES, CONT'D.

7.2 TrinsicBUSINESS A La Carte Service, (Cont'd.) **

(S)

C. Toll Free Service

Toll Free Service is available to Customers for incoming calls. Calls originate from any interstate or intrastate location over a toll free number and terminate to a Customer-provided business switched access line. TrinsicBusiness A La Carte Customers who migrate their long distance service to another carrier, but who retain Trinsic as the local service provider will keep Trinsic Toll Free Service until such time as that service is specifically identified as having migrated to another carrier. Call charges are billed to the Subscriber rather than to the originating caller. Rates are neither time-of-day sensitive nor mileage sensitive. Calls are billed in six (6) second increments. Rates are not mileage or time-of-day sensitive. A Monthly Recurring Charge applies in addition to usage rates.

D. Business Network Rate Service

Business Network Rate Service is available to Trinsic business Customers for outbound calling from presubscribed lines. This service allows Trinsic Business A La Carte Customers presubscribed to Trinsic for long distance service to call other Trinsic Customers without depleting the call allowance for the plan the Customer has chosen. Call may be made to other Trinsic business Customers or to Trinsic residential Customers. Calls are billed in six (6) second increments after the initial minimum period of six (6) seconds and originate and terminate on Customer-provided switched access lines. Rates are not mileage or time-of-day sensitive.

7.2 TrinsicBUSINESS A La Carte Service, (Cont'd.) **

(S)

E. Calling Features

These features are offered subject to availability of suitable facilities. TrinsicBusiness A La Carte may include the calling features listed below:

Call Forwarding - Fixed - Call Forwarding- Fixed, when activated, redirects attempted terminating calls to another Customer-specific line. The Customer may have to activate and deactivate the forwarding function and specify the desired terminating telephone number during each activation procedure. Call originating ability is not affected by Call Forwarding-Fixed. The calling party is billed for the call to the called number. If the forwarded leg of the call is chargeable, the Customer with the Call Forwarding-Fixed is billed for the forwarded leg of the call. Calls cannot be transferred to an International Direct Distance Dialing number.

Speed Calling - This feature allows a user to dial selected numbers by means of an abbreviated code. This feature is available in an 8 number capacity. The Speed Calling list can only accommodate a number consisting of 15 digits or less.

Caller ID - Allows a Customer to see a caller's telephone number previewed on a display screen before the call is answered allowing a Customer to prioritize and or screen incoming calls. Caller ID records the number, date and time of each incoming call - including calls that aren't answered by the Customer. Caller ID service requires the use of specialized CPE not provided by the company. It is the responsibility of the Customer to provide the necessary CPE.

Call Waiting - Call Waiting provides a tone signal to indicate to a Customer already engaged in a telephone call that a second caller is attempting to dial in. This feature permits the Customer to place the first call on hold, answer the second call and then alternate between both callers. Cancel Call Waiting (CCW) allows a Call Waiting (CW) Customer to disable CW for the duration of an outgoing telephone call. CCW is activated (i.e., CW is disabled) by dialing a special code prior to placing a call, and is automatically deactivated when the Customer disconnects from the call. Customers must actively choose this feature on a line-by-line basis. Call Waiting is not available on lines enabled for Rotary Hunting.

E. Calling Features, (Cont'd.)

Three Way Calling - Permits the Customer to add a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The Customer initiating the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. The feature may be used on both outgoing and incoming.

Hunting - Routes a call to an idle station line in a prearranged group when the called station line is busy. This feature is available at no charge but must be requested by the Customer.

Distinctive Ring: Distinctive Ringing is a feature that allows Customer to have up to two separate phone numbers assigned to one local exchange line. Each telephone number will provide a distinctive ring on an incoming call to allow for identification of the number being called. A distinctive call waiting tone is also provided for each telephone number, where facilities permit and Customers subscribe to Call Waiting. Distinctive Ring is offered subject to availability of suitable facilities.

F. Guarantee Incentive Program

If a Customer is not satisfied with the Trinsic Business A La Carte Service, for any reason, during the first ninety (90) days of service, Trinsic will switch the Customer back to the Customer's previous local exchange provider at no charge. The Customer will not be required to pay any installation charges incurred when switching back to their previous local service provider. This offer only applies to installation charges on existing business lines migrated back to the local service provided subscribed to before switching to Trinsic. This offer does not extend to any new service lines established with Trinsic that are switched back to the previous provider. Customers requesting a switch to the previous provider must have a zero billed balance with Trinsic. Customers will be required to complete and sign a form requesting this offer. This form may be obtained by calling Trinsic's toll free customer service telephone number.

G. Remote Call Forwarding (RCF) Service

Remote Call Forwarding allows all calls dialed to a telephone number equipped for RCF to be automatically forwarded to another dialable exchange or 800 service telephone number. The calling party pays only the applicable charges to call the number equipped with an RCF feature, while the RCF customer pays the applicable charges for the forwarded portion of the call. RCF Service is offered subject to availability of suitable facilities.
