Authorizing It to Install, Own, Acquire, Construct,) **& SA-2012-0067**
Operate, Operate, Control, Manage and)
Maintain Water and Sewer Systems in)
Christian and Taney Counties, Missouri)

UNANIMOUS STIPULATION AND AGREEMENT

COME NOW the Staff of the Missouri Public Service Commission (“Staff”), Missouri-American Water Company (“MAWC” or “Company”), the Office of the Public Counsel (“Public Counsel”), and Ag Processing Inc., a cooperative, (AGP), collectively referred to hereafter as “Parties” and respectfully state to the Missouri Public Service Commission (“Commission”) that, as a result of negotiations, the undersigned Parties have reached the stipulations and agreements contained herein.

Factual Background

1. The Company is a Missouri corporation in good standing. The Company’s principal office is located at 727 Craig Road, St. Louis, Missouri 63141.
2. The Company provides water service to approximately 454,000 customers in and around the cities of St. Joseph, Joplin, Brunswick, Mexico, Warrensburg, Parkville, Riverside, Jefferson City, and parts of St. Charles, Warren, Jefferson, Morgan, Pettis, Benton, Barry, Stone, Greene, Taney, Christian and Platte Counties, and most all of St. Louis County, Missouri.
3. The Company provides sewer service to approximately 3,200 customers in Callaway, Jefferson, Pettis, Cole, Morgan, Platte, and Warren Counties, Missouri.

4. On August 26, 2011, the Company filed an Application with the Commission that asked the Commission to grant the Company a Certificate of Convenience and Necessity authorizing the Company to install, own, acquire, construct, operate, control, manage and maintain water and sewer systems in Christian and Taney Counties, Missouri. The requested service territory includes an area generally known as the Saddlebrooke subdivision.

5. The Saddlebrooke subdivision is an incorporated village and is platted for 500 homes.

6. The water and sewer systems for Saddlebrooke are currently owned by Saddlebrooke Water & Sewer Infrastructure, LLC, a Missouri limited liability company.

7. **Issues Settled.** This Stipulation and Agreement is intended to resolve all issues identified by Staff, the Company, Public Counsel and AGP regarding the Company's Application.

8. **Resolution.** The Commission should grant MAWC water and sewer certificates of convenience and necessity for the water and sewer service in the area described in **Appendix A** attached and incorporated by reference herein. The Parties agree that approval of these certificates of convenience and necessity is necessary or convenient to the public service.

9. **Rate Base Issues.** MAWC shall strive to complete the proposed system improvements, specifically fencing for the water storage tank and well, fencing for the sewage treatment facility, acquisition of a spare well pump, and construction of the sewer effluent field monitoring well, to the satisfaction of Missouri Department of Natural Resources (DNR) as necessary, within ninety (90) days after the effective date of tariff

sheets applying to the subject service territory (except, in the case of the monitoring well, ninety (90) days after DNR approval). For any item not completed within the specified time period, MAWC shall file a status report in this case within ten (10) days thereafter stating the status of the project, and the date completion is expected. The Parties agree to conduct a prudence review and cost analysis of the specified construction in MAWC's next general rate case.

10. **Depreciation.** The Parties agree to the depreciation rates as recommended by Staff in John Robinett's Rebuttal Testimony and as stated in **Appendix B** attached and incorporated by reference herein.

11. **Transfer of Ownership.** MAWC shall acquire ownership or full access to all water and sewer utility assets in the Saddlebrooke subdivision within sixty (60) days after the effective date of the Commission's Order. If ownership or access to any such assets is not accomplished by that time, MAWC shall notify the Commission by status report describing what assets are involved, why acquisition has not taken place, and a plan with a time frame for acquisition or access.

12. **Tariff Sheets.** MAWC shall file water and sewer tariff sheets to replace its present tariff sheets PSC MO No. 14 for sewer and PSC MO No. 15 for water, with PSC MO No. 16 for sewer and PSC MO No. 17 for water, applying to Stone, Taney and Christian Counties, made as thirty (30) day filings. The tariff sheets shall be in substantially the same form as **Appendix C** to this Stipulation and Agreement, attached and incorporated by reference herein, and shall contain monthly rates as described herein in each tariff, along with existing service charges and existing water connection charges identical to those approved for Stonebridge. Additionally, new CIAC charges of

\$2,800 for a new water connection and \$2,800 for a new sewer connection are applicable to the next 200 lots within the Saddlebrooke subdivision where service is available as of the date of closing and connection is made for no longer than the next ten (10) years from the effective date of any Commission order approving the tariffs. The tariffs should also include modifications to existing sewer rules regarding “Pressure Pump Units” that are located on customers’ premises.

The tariff sheets to be filed by MAWC shall include the following rates for water and sewer service:

Water:

Metered Customer Charge \$22.06
 Metered Commodity Charge \$2.37 per 1,000 gallons

Sewer:

Customer Charge:	<u>Water Meter Size</u>	<u>Monthly Charges</u>
	5/8”	\$40.97
	3/4”	\$53.29
	1.0”	\$77.89
	1.5”	\$139.43
	2.0”	\$213.27
	3.0”	\$385.58
	4.0”	\$631.75

Commodity Charge: \$6.0324 per 1,000 gallons

Residential sewer customers’ monthly commodity charge amounts for the entire year will be based on the average monthly water usage in the months of December, January and February. Commercial sewer customers’ commodity charge amounts will be based on actual monthly water usage.

13. **Future Rate Adjustments.** MAWC shall file rate requests for Saddlebrooke's water and sewer systems as part of its next rate increase request for all of MAWC's systems.

14. **Future Rate Case Filings.** MAWC agrees that it will not in its next general rate proceeding in its initial filing propose to collect any of the fully allocated cost of service of the Saddlebrooke District from the Saint Joseph District, provided however, that this shall not be construed to preclude a proposal for single tariff pricing company-wide similar to that proposed by MAWC in Case No. WR-2011-0337.

15. **Commitment for Future Study.** As a part of the agreement that resolved WR-2011-0337, MAWC agreed to perform a cost allocation study, to be submitted as a part of its direct testimony in its next rate case, that would, among other things, address the allocation of corporate overhead costs to the districts. In addition to all other objectives agreed to in WR-2011-0337, one objective of the study shall be to determine the extent to which the treatment of corporate costs may lead to relatively sharp and extraordinary increases in cost based revenue requirements of smaller districts, including, but not limited to Saddlebrooke (i.e., the rate increases indicated by comparing the fully allocated embedded costs of service for such districts to their present revenues).

- A. As a part of this Stipulation and Agreement, MAWC agrees that the study shall also include a description and identification of the corporate cost items that are allocated to and among the districts, water and sewer.
- B. The description and identification of allocated corporate costs shall include MAWC rate base and expense items, costs allocated from an affiliate to

MAWC including rate base and expense items, and any other common costs allocated to and among the districts.

- C. The study shall determine the amounts of such costs in total and also the revenue requirements stated separately for rate base, expense, MAWC corporate, affiliate corporate and other, if any.
- D. The timing of the allocations of corporate costs to MAWC and to the districts shall be defined and explained, including an explanation of how the timing may relate to the allocations of corporate costs that follow the purchases of and mergers with utility systems.
- E. Access to any and all supporting documents related to this study will be provided by MAWC upon request by any party to this proceeding.

16. **Compliance with Commission Rules.** MAWC shall comply with all Commission Rules regarding water system operation, sewer system operation, customer service and billing, and specifically including the timely submission of annual reports with the Commission, statements of revenue, and payment of annual Commission assessments.

17. **Records Maintenance.** MAWC shall maintain utility plant records and customer account records, and keep all books and records, including plant property records, in accordance with the Uniform System of Accounts, version 1973 and revised in 1976 for water, and version 1976 for sewer.

18. **Follow-Up Reviews.** Staff or Public Counsel may conduct follow-up reviews of the Company's operations to ensure that the Company has complied with the provisions of the Stipulation and Agreement.

19. **Compliance with Stipulation and Agreement.** Staff or Public Counsel may file a formal complaint against the Company, if the Company does not comply with the provisions of this Stipulation and Agreement.

20. **Entire Agreement.** This Stipulation and Agreement with Appendices is complete and incorporates the entire agreement between the parties hereto regarding these matters. Each party represents that they have read and are familiar with the terms hereof and disclaim that they are entering into this Stipulation and Agreement under any restraint or duress. The terms and conditions of this agreement may not be altered or varied by any party without the agreement of all parties hereto.

21. **Ratemaking Principles.** Other than the specific conditions agreed upon and expressly set out herein, the terms of this Stipulation and Agreement reflect compromises between Staff, the Company, AGP and Public Counsel. In arriving at the amount of the rate base estimated herein, no party has agreed to any particular ratemaking principle, nor has a specific rate base been agreed upon.

22. **Future Filings.** The Company, Public Counsel, and AGP acknowledge that the Staff will be filing this Stipulation and Agreement and the Appendices hereto. The Company, Public Counsel, and AGP also acknowledge that Staff may make other filings in this case.

23. **Explanation to the Commission.** Additionally, the Company, AGP and Public Counsel agree that subject to the rules governing practice before the

Commission that Staff shall have the right to provide whatever oral explanation the Commission may request regarding this Stipulation and Agreement at any agenda meeting.

24. **Procedural Schedule Suspension.** As a result of this Stipulation and Agreement, the Parties requested that the previously ordered procedural schedule be suspended and the Parties relieved of adherence to the procedural schedule at this time. The Commission granted this request on June 29, 2012 in separate order.

Contingent Waiver of Rights

25. This Stipulation and Agreement is being entered into solely for the purpose of settling the identified issues in the cases that are listed above. Unless otherwise explicitly provided herein, none of the Signatories to this Stipulation and Agreement shall be deemed to have approved or acquiesced in any ratemaking or procedural principle, including, without limitation, any method of cost determination or cost allocation or revenue-related methodology or any declaration regarding the lawfulness of single tariff or district specific pricing method for rate design. Other than explicitly provided herein, none of the Signatories shall be prejudiced or bound in any manner by the terms of this Stipulation and Agreement in these or any other proceeding regardless of whether this Stipulation and Agreement is approved.

26. This Stipulation and Agreement has resulted from extensive negotiations among the Signatories and the terms hereof are interdependent. If the Commission does not approve this Stipulation and Agreement unconditionally and without modification, then this Stipulation and Agreement shall be void and no Signatory shall

be bound by any of the agreements or provisions hereof, except as explicitly provided herein.

27. If the Commission does not approve this Stipulation and Agreement without condition or modification, and notwithstanding the provision herein that it shall become void; neither this Stipulation and Agreement nor any matters associated with its consideration by the Commission shall be considered or argued to be a waiver of the rights that any Party has for a decision in accordance with §536.080 RSMo 2000 or Article V, Section 18 of the Missouri Constitution, and the Signatories shall retain all procedural and due process rights as fully as though this Stipulation and Agreement had not been presented for approval, and any suggestions, memoranda, testimony, or exhibits that have been offered or received in support of this Stipulation and Agreement shall become privileged as reflecting the substantive content of settlement discussions and shall be stricken from and not be considered as part of the administrative or evidentiary record before the Commission for any purpose whatsoever.

28. In the event the Commission accepts the specific terms of this Stipulation and Agreement without condition or modification, the Signatories waive their respective rights to present oral argument and written briefs pursuant to §536.080.1 RSMo 2000; their respective rights to the reading of the transcript by the Commission pursuant to §536.080.2 RSMo 2000; their respective rights to seek rehearing, pursuant to §536.500 RSMo 2000; and their respective rights to judicial review pursuant to §386.510 RSMo 2000. Further, in the event the Commission accepts the specific terms of this Stipulation and Agreement, all prefiled testimony not yet admitted into evidence shall be received into evidence without the necessity of the witnesses taking the stand.

The waivers contained in this paragraph apply only to a Commission order approving this Stipulation and Agreement without condition or modification issued in this proceeding and only to the issues that are resolved hereby. It does not apply to any matters raised in any prior or subsequent Commission proceeding nor any matters not explicitly addressed by this Stipulation and Agreement.

WATER SERVICE**

RULE 1 DEFINITIONS

(a) The “COMPANY” is the Missouri-American Water Company. acting through its officers, managers, or other duly authorized employees or agents.

(b) The “CUSTOMER” is any person, firm, corporation or governmental body which has contracted with the Company for water service or is receiving service from Company, or whose facilities are connected for utilizing such service.

(c) The word “UNIT” shall be used herein to define the standard user or property served and shall pertain to any building whether residential or commercial owned or leased. Mobile homes or rental units are considered as separate units for each single family or firm occupying same as a residence or place of business.

(d) A “MAIN” is a pipeline which is owned and maintained by the Company, located on public property or private casements, and used to transport water throughout the Company’s service area.

(e) A “CUSTOMER’S WATER SERVICE LINE” is a pipe with appurtenances installed, owned and maintained by the customer, used to conduct water to the customer’s unit from the property line or outdoor meter setting, including the connection to the meter setting. If the property line is in a street, then the said customer’s water service line shall be deemed to begin at the edge of the street abutting the customer’s property.

(f) A “SERVICE CONNECTION” is the pipeline connecting the main to the customer’s water service line at the property line, or outdoor including all necessary appurtenances.

Rule 5 INSIDE PIPING AND CUSTOMER WATER SERVICE LINES

- (a) The Company will provide the Customer water service at the outdoor meter, or at the property line. Separate units shall be served through separate service lines.
- (b) The Service Connection from the water main to the Customer's property line, the meter installation and setting shall be constructed, owned and maintained by the Company. Service line construction and maintenance from the property line or meter setting, including the connection to the meter setting, to the building shall be the responsibility of the Customer, and is subject to inspection by the Company. Customers shall be responsible for the cost of repairing any damage to the Company's lines, meters, and meter installations caused by the Customer, his agent, or tenant.
- (c) Existing water service lines may be used in connecting with new buildings only when they are found by examination and testing not to constitute a hazard to the health and safety of any Customer or the Company's facilities.
- (d) The Customer's water service lines shall be brought to the unit at a depth of not less than 36 inches and have a minimum inside diameter of 3/4 of an inch upon entering the building. The service line shall be valved. This valve must be kept in good repair in order to shut off the water supply and drain the inside plumbing, if necessary.

Rule 5 INSIDE PIPING AND CUSTOMER WATER SERVICE LINES (continued)

(e) The Customer's water service lines and inside piping shall be of material conforming to recognized standards for potable water service and shall have a pressure rating of at least 160 psi working pressure.

(f) The Company will not install a service connection to a vacant lot.

(g) Any change in the location of an existing service connection requested by the Customer shall be made at the Customer's expense.

(h) The Company shall have the right to enter the Customer's premises for purposes of inspection to ensure compliance to these rules and regulations. The Company shall identify themselves and make these inspections only at reasonable hours.

(i) Neither Customer's water service lines nor the Service Connection may be extended along public streets or roadways or through property of others in connecting with the Company's mains, except where the service connection is in the water main easement in order to be connected to the main. The service connection and service line must be laid in a straight line and at right angles to the main and the face of the structure or as nearly so as possible. Any deviation from this because of physical obstruction will be at the discretion of the Company.

WATER SERVICE**

Rule 6 IMPROPER OR EXCESSIVE USE

- (a) No Customer shall be wasteful of the water supplied to his premises by his willful action or inaction. It shall be the responsibility and duty of each Customer to maintain all piping and fixtures at his unit in a good and efficient state of repair at all times.
- (b) No Customer shall make or cause to be made a cross connection between the potable water supply and any source of chemical or bacterial contamination or any other water supply. Company shall deny or discontinue service where Customer's Water Service Line or inside piping may, in the opinion of the Company, cause a cross-connection with non-potable water or otherwise jeopardize the health and safety of other Customers or the Company's facilities.
- (c) No Customer shall make or cause to be made a connection to a device that will result in excessive water demand or excessive shock, such as water-hammer, to the Company's mains.
- (d) No Customer shall tamper with, remove, or willfully damage a water meter or attempt to operate the shutoff cock on the meter yoke, or allow any such action.
- (e) No Customer shall attempt to take unmetered water from the Company mains either by an unauthorized tap or direct connection to service connection nor by connection to a fire hydrant.

Rule 7 DISCONTINUANCE OF WATER SERVICE BY COMPANY

a) The Company may discontinue service for any of the following reasons:

1. Nonpayment of a delinquent account not in dispute;
2. Failure to post a security deposit or guarantee acceptable to the utility;
3. Unauthorized interference, diversion or use of the utility service situated or delivered on or about the customer's agreement;
4. Failure to comply with the terms and conditions of a settlement agreement;
5. Refusal to grant access at reasonable times to equipment installed upon the premises of the customer for the purpose of inspection, meter reading, maintenance or replacement; or,
6. Violation of any of these rules and regulations on file with and approved by the Commission, or for any condition which adversely affects the safety of the customer or other persons, or the integrity of the utility's delivery system.

b) The Company may discontinue service after notice by first class mail is sent to the customer at least ten (10) days prior to the date of the proposed discontinuance. If written notice is hand delivered to the Customer, it shall be done at least ninety-six (96) hours prior to discontinuance. Service of notice by mail is complete upon mailing.

Rule 10 BILLS FOR SERVICE

- (a) The charges for water service shall be at the rates specified in the rate schedules on file with the Missouri Public Service Commission. Service charges for turn-off of service are set forth in the Schedule of Service Charges.
- (b) A Customer who has made application for water Service to a unit shall be responsible for payment for all water service provided to him at said unit until the Customer notifies the Company to discontinue service.
- (c) Each customer is responsible for furnishing the Company with the Customer's correct address. Failure to receive bills will not be considered an excuse for non-payment nor reason to permit an extension of the date when the account would be considered delinquent. Bills and notices relating to the Company or its business will be mailed or delivered to the mailing address entered in the Customer's application unless the Company is notified in writing by the Customer of a change of address.
- (d) Payments shall be made at the office of the Company or at such other places conveniently located as may be designated by the Company or by ordinary mail. However, payment must be received by the close of business on the date due.
- (e) The Company will not be bound by bills rendered under mistake of fact as to the quantity of service rendered or as a result of clerical error.

Rule 13 BILL ADJUSTMENTS BASED ON METER TESTS

- a) Whenever any test by the Company of a meter while in service or upon its removal from service shall show such meter to have an average error of more than five percent (5%) on the test streams prescribed by the Commission, the Company shall adjust the Customer's bills by the amount of the actual average error of the meter end not the difference between the allowable error and the error as found. The period of adjustment on account of the under-registration or over-registration shall be determined as follows:
- 1) Where the period of error can be shown, the adjustment shall be made for such period.
 - 2) Where the period of error cannot be shown, the error found shall be considered to have existed for three (3) months preceding the test.
- b) If the meter is found on any such test to under-register, the Company may render a bill to the Customer concerned for the estimated consumption not covered by bills previously rendered during the period of inaccuracy as above outlined. Such action shall be taken only when the Company was not at fault for allowing the inaccurate meter to remain in service.
- c) If the meter is found faster than allowable, the Company shall refund to the Customer concerned any overcharge caused thereby during the period of inaccuracy as above defined. Said refund may, at the Company's option, be in the form of a credit to the Customer's bill.

Rules & Regulations Governing The Rendering of Water Service	
RULES AND REGULATIONS GOVERNING RENDERING OF WATER SERVICE	
Rule 14 Extension of Water Mains	
<p>This rule shall govern the extension of water mains by the Company in areas where water mains do not exist at the date of issue of this rule. The Company will extend its water mains within dedicated or recorded easement within its certificated area to serve new customers in accordance with the following terms and conditions:</p>	
<p>(A) Upon receipt of a written application for service in compliance with Rule 4, the Company will provide the Applicant(s) an itemized estimate of the cost of the proposed extension. Said estimate shall include the cost of all labor and materials required including valves, fire hydrants, booster stations, pressure regulating stations and other appurtenances, reconstruction of existing mains (if necessary), production, treatment and storage system expansion or new construction, engineering, supervision and construction inspection, permits and bookkeeping.</p>	
<p>(B) Applicant(s) shall enter into a contract with the Company for the installation of said extension and shall tender to the Company a contribution in aid of construction equal to the amount determined in 3(A). At the Company's sole option, Applicant(s) may be permitted to install all or part of said extension with an equivalent reduction being made in the required contribution in aid of construction.</p>	
<p>(C) If as a result of reasonably unforeseen circumstances the actual cost of the extension exceeds the estimated cost of the extension, the Applicant(s) shall pay the added cost within thirty (30) days of being billed for same by Company.</p>	
<p>(D) The cost to an applicant connecting to a water main that was constructed and funded in accordance with this rule shall be as follows:</p>	
<p>(1) For single family residential Applicants that are applying for service in a platted subdivision, the Company shall divide the actual cost of the extension by the number of lots abutting said extension to determine the per lot extension cost. When counting lots, corner lots which abut existing mains shall be excluded.</p>	
<p>(2) For single family residential Applicants that are applying for service in areas that are unplatted in subdivision lots, the Applicants' cost shall be equal to the total cost of the extension divided by the total length of the extension in feet times 100 feet.</p>	
<p>(3) For multi-family residential, commercial or industrial Applicant(s) the cost will be equal to the amount calculated for a single family residence in paragraphs (D)(1) or (D)(2) above multiplied times a water usage factor. The water usage factor shall be</p>

**Rules & Regulations Governing
The Rendering of Water Service**

**RULES AND REGULATIONS GOVERNING RENDERING OF
WATER SERVICE**

Rule 14 Extension of Water Mains (continued)

- (h) The pipe, valves, booster stations, pressure regulating stations and appurtenances used in making extensions under this Rule shall be of a size and type, which will be reasonably adequate to supply safe and adequate service. Such determination as to size and type of pipe, valves, booster stations, pressure regulating stations and appurtenances shall be left solely to the judgment of the Company. If the Company desires pipe or equipment sizing larger than reasonably required to provide service to the lots abutting said extension, the additional cost due to larger sizing shall be borne by the Company.
- (i) In the event Applicant(s) desire to construct all or part of the extension, and the Company agrees, the following terms and conditions shall apply.
 - 1) Applicant shall enter into a contract with the Company which provides that the Applicant construct said water mains and/or other facilities to meet the requirements of all governmental agencies with proper authority, that all facilities constructed comply with the Company's rules and construction standards, that no construction shall commence until all necessary permits have been granted by all regulatory authorities, and that all construction will be completed in accordance with a schedule agreed to between Company and Applicant.
 - 2) In the event of Applicant's default, Company shall have the right to complete or correct incomplete or faulty construction, such costs to be borne by Applicant.
 - 3) Applicant's choice of design engineer and construction contractor is subject to approval by the Company.
 - 4) Plans and specifications for said extension shall be provided to the Company for approval prior to construction.
 - 5) Applicant shall provide a detailed cost accounting of the actual cost of design and construction within 30 days of the completion of said extension.
 - 6) Applicant shall contribute said extension to the Company, free and clear of any and all encumbrances, mechanics liens etc.
 - 7) Applicant shall contribute to the Company the Company's cost of construction inspection.
 - 8) The Company or its representative shall have the right to inspect, test and approve the extension prior to connecting it to the Company's existing water mains.
 - 9) Connection of the extension to existing Company water mains shall be made by the Company or its authorized representative.
 - 10) The Company shall have the right to refuse ownership and responsibility for said extension until the Applicant(s) have complied fully with this Rule.

Rules Governing Rendering of Sewer Service	
<p>Rule 1 DEFINITIONS</p> <p>(a) The "COMPANY" is <u>Missouri-American Water Company</u>, acting through its officers, managers, or other duly authorized employees or agents.</p> <p>(b) The "CUSTOMER" is any person, individual, partnership, association, corporation or governmental body which has contracted with the Company for sewer service or is receiving service from the Company, or whose facilities are connected for utilizing such service.</p> <p>(c) The word "UNIT" shall be used herein to define the standard user or property served and shall include mobile homes or any building, residential, commercial, or industrial, owned or leased and each unit of any multi-unit structure.</p> <p>(d) A "COLLECTING SEWER" is a pipeline, including force lines, gravity sewers, interceptors, laterals, trunk sewers, manholes, lamp holes, and necessary appurtenances, including service wyes and saddles, or pressure pump units that are owned and maintained by the Company, located on public property or on private easements, and used to transport sewage waste from the Customer's service connection to the point of disposal.</p> <p>(e) A "CUSTOMER'S SERVICE SEWER" is a pipe with appurtenances installed, owned and maintained by the Customer, used to conduct sewage from the Customer's premises to the collecting sewer, including pressure pump units and sewage tanks owned by the Customer, and excluding service wyes or saddles, and pressure pump units that are owned by the Company. For Customers connected to a pressure collecting sewer and utilizing a pump unit, the portion of the Service Sewer between the pump unit and the collecting sewer is a pressurized portion of the Service Sewer. In addition to other parts and fittings this shall include a stop cock accessible to the Company for turn-off of sewerage flow and a check valve to prevent backflow of waste-water under pressure in the pressure collecting sewer. The Service Sewer is constructed, owned and maintained by the Customer.</p> <p>* Indicates new rate or text + Indicates change</p>

<p>(a) A written application for service, signed by the Customer and accompanied by the appropriate fees and other information required by these rules and regulations must be received from each Customer before service is provided to any premises. Said application must state the name of the owner of said premises and, in the case of a commercial or industrial Customer, must also state the quantity and strength of effluent to be discharged from said premises into Company’s sewer system. Every Customer, upon signing an application for any service rendered by the Company or upon taking of service, shall be considered to have expressed consent to the Company’s rates, rules and regulations. The Company shall have the right to refuse service for failure to comply with the rules and regulations herein, or if the customer owes a past due bill not in dispute for sewer service at any location within the Company’s area. In any case, where unusual construction or equipment expense is necessary to furnish the service, the Company may require a contract specifying a reasonable period of time for the Company to provide the service. The Company shall notify the owner of property served and what the Company’s billing rules are.</p> <p>(b) A commercial or industrial Customer shall, upon request of the Company, present in writing to the Company a list of the devices which are to be attached to the Company’s lines, giving the location of any buildings. The Company will then advise the Customer of the form and the character of the waste water collection facilities available.</p>

 Sewer Service**

Rule 5 INSIDE PIPING AND CUSTOMER SERVICE SEWER (Continued)

- (g) In all buildings in which any building drain is too low to permit adequate gravity flow to the collecting sewer, sanitary sewage carried by such drains shall be lifted by approved artificial means and discharged to the building sewer. No water operated sewage ejector shall be used.
- (h) All excavations required for the installation of a Customer’s service sewer shall be open trench work unless otherwise approved by the Company. Pipe laying and backfill shall be performed in accordance with the latest published engineering specifications of the manufacturer of the materials used and all applicable local plumbing codes, except that no backfill shall be placed until the work has been inspected by the Company. Only those jointing materials and methods which are approved by the Company may be used.
- (i) (1) The connection of the Customer’s service sewer, with or without a pressure pump unit, into the gravity collecting sewer shall be made at the “Y” branch, if such branch is available at a suitable location. If the Company’s collecting sewer is vitrified clay pipe of twelve inch (12”) diameter or less and there is no properly located “Y” branch at a suitable location, a “Y” branch shall be installed at a location specified by the Company. If the Company’s collecting sewer is greater than twelve inches (12”) in diameter, or is PVC of any size, a neat hole may be cut at a location specified by the Company, and a saddle installed to which the Customer’s service sewer will be connected. The invert of the customer’s service sewer at the point of connection shall be at the centerline or higher elevation than the invert of the Company’s collecting sewer. A smooth neat joint shall be made, and the connection made secure and watertight by encasement in concrete.
- (2) The connection of the customer service sewer into a pressure collecting system, if a customer-owned pressure pump unit exists, shall be made at Company’s pressure collecting sewer; or if a Company-owned pressure pump unit exists, at the Company-owned pressure pump unit tank inlet.

**Rules Governing Rendering of
 Sewer Service**

Rule 5 INSIDE PIPING AND CUSTOMER SERVICE SEWER (Continued)

- (m) In the Company’s Stonebridge Service District operation, the Company will provide, install and maintain pressure pump units where necessary, including electric power.

In all other operations, any customer proposed to be connected and to be discharging less than 1,200 gallons per day domestic sewage, and where a tank or pressure pump unit is necessary for discharge of sewage into the Company’s collecting sewer, or as a part of the treatment process, or both, shall install at his own expense within the lot, one pump unit of suitable capacity. All components utilized in a pump unit must be either purchased from the Company or meet its specifications which shall be on file at the Company’s office, and approved by the Company prior to installation. Installation costs of the pump unit, electrical wiring and components and service sewers between the dwelling and the pump unit and Company’s collecting sewers shall be the responsibility of the Customer. Electricity costs for pump operation shall be the responsibility of the Customer. Customers discharging greater than 1,200 gallons per day, upon applying for service with the Company, must enter into an agreement with the Company with regard to operation of a pump unit that is of suitable capacity for the customer and that will be compatible with the Company’s operation of its collecting sewer system and treatment facility.

- (n) The Company will locate the point to which the service connection to the pressure collecting sewer will be made, and the Customer shall furnish materials for the connection. All taps to the pressure collecting sewer shall be done by the Company. One connection shall not service more than one property.
- (o) A stop cock shall be placed on the service sewer near the service connection. Said stop cock shall include a provision for locking. The stop cock will be furnished, owned and maintained by the Customer for use by the Customer for maintenance or by the Company.
- (p) In addition to other methods outlined within these Rules for discontinuance of sewer service, sewer service may be turned-off by the Company by locking the stop cock in the closed position. Service shall not be resumed again except upon payment of all delinquent charges, plus any applicable approved service charge to cover the costs of resuming service, in accordance with these Rules.

If the Company desires pipe or lift station sizing larger than reasonably required to provide service to the lots abutting said extension, the additional cost due to larger sizing shall be borne by the Company.
- i) In the event Applicant(s) desire to construct all or part of the extension, and the Company agrees, the following terms and conditions shall apply.
 1. Applicant shall enter into a contract with the Company which provides that the Applicant construct said collecting sewers and/or other facilities to meet the requirements of all governmental agencies with proper authority, that all facilities constructed comply with the Company’s rules and construction standards, that no construction shall commence until all necessary permits have been granted by all regulatory authorities, that all construction will be completed in accordance with a schedule agreed to between Company and Applicant.
 2. In the event of Applicant’s default, Company shall have the right to complete or correct incomplete or faulty constructions, such costs to be borne by Applicant.
 3. Applicant’s choice of design engineer and construction contractor is subject to approval by the Company.
 4. Plans and specifications for said extension shall be provided to the Company for approval prior to construction.
 5. Applicant shall provide a detailed cost accounting of the actual cost of design and construction within 30 days of the completion of said extension.
 6. Applicant shall contribute said extension to the Company, free and clear of any and all encumbrances, mechanics liens etc.
 7. Applicant shall contribute to the Company the Company’s cost of construction inspection.
 8. The Company or its representative shall have the right to inspect, test and approve the extension prior to connecting it to the Company’s collecting sewers.
 9. Connection of the extension to existing Company sewers shall be made by the Company of its authorized representative.
 10. The Company shall have the right to refuse ownership and responsibility for said extension until the Applicant(s) have complied fully with this Rule.
