Re: Case No. EA-2010-0216

Dear Mr. Reed:

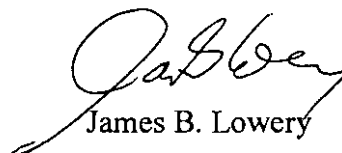

On January 19, 2010, Union Electric Company d/b/a AmerenUE filed an Application for a certificate of convenience and necessity relating to a proposed landfill gas-fired power plant located in St. Louis County, Missouri. As provided for in the Application, at the time of its filing neither a cost estimate nor the plans and specifications contemplated by 4 CSR 240-3.105(B)2 were available. Pursuant to 4 CSR 240-3.105(2), the Application provided that the cost estimate and plans and specifications would be provided when available.

Enclosed is a CD containing the plans and specifications and cost estimate. These are being provided on a CD due to the size of the documents, which cover more than 1,500 pages in total.

Copies of this filing have been served on the Commission's Staff and the Office of the Public Counsel.

Thank you for your assistance in causing these materials to be properly filed.

Sincerely,

  
James B. Lowery
