Actual Cost Adjustment.)	

**AmerenUE's Supplemental Response to
Staff's Reliability Recommendations**

COMES NOW Union Electric Company d/b/a AmerenUE ("AmerenUE"), in accordance with the Missouri Public Service Commission's ("Commission") order, and states as follows:

1. On November 9, 2005, the Staff of the Missouri Public Service Commission ("Staff") filed its Staff Recommendation and accompanying memorandum in this case.
2. On November 22, 2005, the Commission issued an order requiring AmerenUE to file its written response to Staff's reliability recommendations no later than January 31, 2006.
3. On January 31, 2006, AmerenUE filed its response to Staff's reliability recommendations.
4. Subsequent discussions between AmerenUE and members of Staff have resulted in a need for this supplemental filing to clarify AmerenUE's January 31, 2006 response.
5. A question raised by Staff is the source of the calculation methodology for the required MDCQ under the Missouri School Aggregation Program. The methodology referenced in AmerenUE's previous pleading was determined in the technical

conferences held in 2002 between the MPSC Staff, AmerenUE and other interested parties.

6. As stated in its previous filing, AmerenUE had relied solely upon the marketers to provide the MDCQ number. However, AmerenUE will now verify the marketer's calculation to ensure that the Schools are securing the required capacity based on the methodology discussed above.

7. Finally, to address an issue inadvertently omitted from its previous pleading, AmerenUE agrees to provide Staff with documentation on the start-up time necessary for the Cape Girardeau Propane facility prior to winter of 2006/2007.

Respectfully submitted,

UNION ELECTRIC COMPANY,
d/b/a AmerenUE
