Re: Access One, Inc.  
Case No. CT-2006-0454  
Tariff No. YC-2006-0882

Dear Ms. Dale:

Pursuant to Sara Buyak's request, enclosed please find an original and eight (8) copies of replacement pages 77, 78, 79, 80, 81, 82, 83 and 84 to Access One's P.S.C. Mo. No. 2 Tariff.

I have also enclosed an extra copy of this letter to be date stamped and returned to me in the enclosed, self-addressed, postage prepaid envelope.

If you have any questions or if I may provide you with any additional information, please do not hesitate to contact me.

Respectfully submitted,

Lance J.M. Steinhart  
Attorney for Access One, Inc.

Enclosures

**SECTION 9.0 - ADVANCED SERVICES****9.1 Access One ISDN PRI Service with Unlimited Local Calling**

ISDN PRI offers an array of value-added features, such as calling number identification and call-by-call selection that enhance productivity. ISDN PRI is configured with 23 64 Kbps bi-directional B (Bearer) channels and one 64 Kbps D (Data) channel. Unique to ISDN PRI is its ability to designate the D channel to handle all of the signaling and call control requirements and leave the remaining 23 B channels free for any mix of circuit-switched voice and data.

Each of these products is offered under a 12, 24 or 36 month term agreement. Rates include unlimited local calling for sent-paid, directly dialed calls. Rates do not include calling card calls, information type calls to Time and Weather, 555, 700, 900, 976 Services, Directory Assistance or any other type of Operator Handled call.

Access One ISDN PRI includes the following non-optional Feature Package: Inbound Calling Line ID-Name & Number and Call by Call Selection.

Regional Toll and Long Distance Services must be PIC'd to the Company. These rates are in addition to ISDN PRI and DS1 rates below.

Pursuant to Section 392.200 (8) RSMo, the Company offers customer specific pricing for business Services offered in certain telephone exchange areas. Customer specific pricing for Business Customers is limited to Business Customers located in any exchange to which an incumbent local telephone company's business basic local exchange telecommunications service has been deemed competitive under Section 392.245 RSMo. Copies of customer specific contracts will be made available on a proprietary basis to the Missouri Public Service Commission staff upon request.

**SECTION 9.0 - ADVANCED SERVICES (CONTINUED)****9.2 Access One Digital DS-1 PBX Service with Unlimited Local Calling**

This service provides a trunk side DS1 electrical interface from the customer's digital PBX system to a Access One digital port on a local Company switch for the origination and termination of calls. Traffic to and from the digital PBX can be received or dialed directly from any PBX station without the need for an attendant.

These digital trunks deliver a high-speed DS1 (T1) connection between your PBX and the Company network. There are up to 24 channels on one facility, each of which can be used to place or receive calls. This multi-channel capability dramatically reduces the need for additional PBX circuit cards.

Each of these products is offered under a 12, 24 or 36 month term agreement. Rates include unlimited local calling for sent-paid, directly dialed calls. Rates do not include calling card calls, information type calls to Time and Weather, 555, 700, 900, 976 Services, Directory Assistance or any other type of Operator Handled call.
